## PREFACE.

---

The Huntingtons of Norwich are one of the noted families of Connecticut, and the period of the Revolution is recognized as one of the most important in the history of this country. The correspondence here published, consisting as it does of letters written in large part by and to two Huntington brothers during the Revolutionary War, when one of them was in active service in field and camp and the other, perhaps no less active, in the necessary occupations of home pursuits and business affairs, relating in part to the war, makes a volume of wide and lasting interest and value.

The originals of these letters are from two sources. Those in the first part of the volume, comprising the correspondence of Col. Joshua Huntington, are owned by his great-great-grandson, Mr. Roger Wolcott of Milton, Mass. They were copied and edited for the press by Mr. Edward Gray of Milton, through whose courtesy and that of their owner this Society is enabled to print them; and they are here printed as submitted by the editor without comparison with the originals by this Society.

The originals of the Gen. Jedediah Huntington correspondence, which forms the second part of the volume, are the property of this Society, and have been in its possession for the last fourteen years. They were presented to it by the late William C. Gilman of Norwich, Conn., a descendant of the Huntingtons, in whose possession they had previously been for many years.

ALBERT C. BATES,

*Chairman of Publication Committee.*

## INTRODUCTION.

---

Joshua Huntington, son of Jabez Huntington and his second wife, Hannah (Williams), was born at Norwich, Connecticut, on August 16, 1751. At the age of twenty, he started in business in his native town as a merchant, and married, on December 11, 1771, Hannah Huntington (1750-1815), daughter of Judge Hezekiah and Dorothy (Williams). After the battle of Lexington, he hastened to Cambridge, and was commissioned first lieutenant in John Durkee's company, General Putnam's regiment on May 1, 1775; but towards the end of the year, when the army was reorganized, he went home to assist his father with his business, rejoining the army in 1776, during the operations around New York. At the end of 1776, he left the army for good, and engaged in commercial pursuits, in forwarding supplies to the troops, and in building the Continental frigate "Confederacy." He was commissioned captain in the Connecticut militia in 1776, major, in May 1777, and lieutenant colonel, in May 1780. At the close of the war, he continued his commercial enterprises, and died, at Norwich, on January 31, 1821.

The majority of the following letters are either to, or from him; the remainder of them are to other members of his family, all of whom, were active in the cause of the Colonies, either serving in the army or furnishing supplies to the fighting forces.

E. G.

MILTON, MASSACHUSETTS, 1918.

Jedediah Huntington was born in Norwich, Conn., Aug. 4, 1743, the eldest child of Gen. Jabez Huntington and his first wife Elizabeth (Backus). He was graduated from Harvard College in the class of 1763, and also received a master's degree from Yale College in 1770. Returning to Norwich, he engaged with his father in commercial pursuits. He was active in the militia, rising to the rank of

colonel in 1774. The following year he entered active service at the breaking out of the Revolution, and in July was commissioned colonel of the eighth regiment raised in the state for Continental service. Later he became colonel of the 1st regiment "Connecticut Line" and on May 12, 1777 he was promoted to brigadier general in the Continental Army, it is said at the request of General Washington. He continued in active service throughout the war and retired with the disbanding of the army in June 1783.

Present, no doubt, at the battle of Lexington, as he was in camp at Roxbury five days previous; he continued in service around Boston until after its evacuation by the British, when he marched with the army to the vicinity of New York. He aided during 1776 in repulsing the British at Danbury; the next year was with General Putnam at Peekskill, later was near Philadelphia and endured the hardships of the winter at Valley Forge.

Again he was in various places around New York and on the Hudson. He continued at West Point until the autumn of 1783, and while there was one of a committee which drafted the constitution of the Society of the Cincinnati. At the close of the war he was brevetted a major general.

He resumed business in Norwich and held many public offices. Was a member of the state convention which adopted the constitution of the United States. In 1789 he was appointed collector of customs for the port of New London and continued in the office until shortly before his death, which occurred in that city Sept. 25, 1818.

General Huntington married for his first wife May 1, 1766, Faith, the daughter of Governor Jonathan Trumbull. She died in December 1775, at the age of 32, leaving one child. His second wife, whom he married April 9, 1778, was Ann, often called Nancy, the daughter of Thomas Moore of New York City. She survived her husband, and was the mother of six children.

upon the Resignation of Mr. Webb\* your Br'r Eb'n is appointed in his room hope he will not meet with the difficulty that Dyor does to be sure he stands in a much different Situation; Dyor has not had any Concerne in the Army; your Brother Eb'r Sett out on the first Allarram Last Spring, and has been with the Army as Commissary and do not think the birth he now hath is any advancement from what he stood before. I have not Solicited it for him, and if he Coald have made himself easy to Stay and Assist me in business had much rather than to have him have this birth. I dare say he Coald have earned twice so much as he Can git in the Army. Mr. Webb tells me he thinks it will be agreeable to Capt. I saw a Boston Paper of Yesterday, containing Addresses from many manufact'g Towns in England to his Majesty applauding his Measures and exclaiming against us, that ——— Sayre† Esq'r was [comm]itted to the Tower for high Treason.

till he hears further from me. The General is determined to have the Army together the first of February, for which he has caused Advertisements to be published in all the Papers notifying all Officers and Soldiers to join their respective Corps at that Time.

I now begin to think I shall not visit My Friends at Norwich before the latter End of February—some Preparations are making for taking Ground on Dorchester Point, but not so forward as I could wish. I would not be uneasy at Delay, as our Inactivity [may] in the Hands of divine Providence be made as effectual for our Deliverance as the most vigorous Action, but it is not probable that we shall ever have a more favourable Time than the present to put our Enemies to the Rout, and should we be so successful as to divest them of their Strong Holds in Boston it is not very likely they will get a Footing that we cannot easily supplant at any other Place. The Militia who were called in to strengthen our Army and were inlisted to stay 'till the Middle of this Month are now desired to continue to the End of it, but I do not expect many of them will stay. when they are gone, this Camp will be reduced to less than 2000 Men fit for Duty unless the Recruits come in. I send you the Brigade Majors Return of General Spencer's Brigade by which You will see the Strength of it, and by that, the Strength of the whole Army as the other five Brigades are nearly the same. I remain your affectionate and dutiful Son,

*Hon'rd Sir,*

I rec'd your's of the 31st Dec'r per Mr. Hide, and should have wrote you, but being obliged to Write your son And'w and being also extreamly Hurried, in writing to every quarter for Flour, I was obliged to add in his a few

Words to you, and omitt Writing at large. I have not rec'd 10 bbs. Flour, into Camp from you or Mr. Leffingwell since I came here—all you have forwarded Stop at their own Homes; A large Stream run'g out, and none run'g in will soon exhaust a large Store. the Single Loads and every thing of that kind have Stop'd, and near 2,000 bbs. of Prize Flour on hand, supposed good proves on examination, not fit for Soft Bread. by all these Circumstances, I am driven into the narrows. I have not more than 8 or 10 days Flour, with in 20 Miles of Camp.

I have sent a Person to Pomfret and Killingly to look up and forward Flour, but as I know not who the Persons are, who have the Flour in possession, I fear he will be put to it, to find up the People. Possibly it would be well for some from you, should be sent out, on the same Errand. what Flour you forward from Norwich pray send it into Camp at Roxbury, about  $\frac{1}{3}$ , the other  $\frac{2}{3}$  to Cambridge. The Flour I mentioned from the Westward, is Stop'd at New London by the Ice, I find by a Letter rec'd this post. Our Money Chest is Exhausted at present, more is expected every hour from Phil'a. as soon as it arrives, will Forward Cash to you and your Son And'w for Salt, and for Transportation of Flour. Brother Joshua will be able to give you all the News small and great that is stirring among us. the Kings Troops are not gone from Boston but we understand they are preparing to do it as fast as possible. a Letter out of Boston supposed to be from Mr. Austin\* one of the Selectmen says the Enemy have striped him of every thing worth carrying away and that others are sharing the same Fate most of the Ships are laying at Nantasket Road and seem to be deeply laden. five of our Regiments together with the Riflemen are ordered to march. Starks of New Hampshire; Bonds and Greatons and Pattersons of Massachusetts; and Webbs of Connecticut are the five under Orders. the Riflemen are to go to Day, the others to Morrow. when and what Part of the Remainder of the Army will leave this Station is not yet known—it will depend upon the further Movements of the Enemy. I hope to see Home on this Occasion, as our Motions will be that Way.

my Love to Sister. I pray she may have cumforting Foretastes of future Happiness whilst the vain Joys of this Life are vanishing away, that we may be all prepared for Gods holy Will, and find by happy Experience that Sickness and Sorrow have been Evidences of our Spiritual Sonship. ROXBURY CAMP 17th March 1776

*Hon'd Sir*

This Morning we had the Agreeable Sight of a Number of Ships leaving the Town of Boston with a large Number of Boats full of Soldiers, about ten of Clock several Lads came to our out Centries and informed us that the Troops had intirely left the Town and that the Selectmen were coming out to see us soon after we had the Pleasure of seeing Messrs. Austin, Scolly,\* Marshall† etc. they had an interview with the General and gave him the best Intelligence they could concerning the state of the Town and the Intentions of the Enemy. the Enemy are now all laying between the Castle and Light House in full View from the Town and make a very formidable Appearance. we shall keep a sharp look out till they are out of Sight at least. the Talk of the Town is that the Troops are gone to Hallifax. the Country ought to be well on their Guard in every Place where it is likely they will make a Descent. I expect most if not all the established Regiments will be ordered from this Station as soon as the Enemy are gone from the Bay. where my Destination will be I know not I hope it will give me an Opportunity of seeing Norwich. my Love and Duty to Mother and all and remain Your dutifull and affectionate Son,

I have your favour of yesterday per Lieut. Buckley. Emedately on Rec't of it, I waited on Gen'l Wadsworth, and Shewd him Doc'r Morgans Certificate and told him that you Request'd further Leave of Absence also Liberty to Ride out in the Country a Little way. his Answer was, that the Certificate was sufficient, without any other Writing, and that it was not in his Power to give Liberty to Ride out, Gen'l Spencer not being at Home then. I waited on him this Morning he told me the same as Gen'l Wadsworth did as to Leave of absence, Viz. that the Certificate was Quite Sufficient, but believe he would have given you Liberty to Ride out had not Gen'l Wadsworth Mention'd that some Officers in the Regiment were Uneasy about your being out. on this he Hesitated, finally Concluded that Gen'l Heath would give you Liberty, or that a Ride to Morrisena etc. would perhaps be of as much service as anywhere. WETHERSF'D March 9th 1777.

*Dear Sir,*

I must take the Liberty once more to trouble you with a line respecting the oats mentioned in a foregoing letter. I made bold (not doubting your willingness to serve the Publick in any way possible) to direct Serj't Brewster to send in a quantity of oats to your Store, and directed him to call on You for as much money as the oats should am't to at 2/0 per bushel. Serj't Brewster was lately at this Place, and spake with me about the method of conveying s'd oats to this Place. But this he will have nothing to do with, and if he delivers the oats will do full as much as I expect or wish of him. Our Reg't of Horse will Consume a great many oats and for this reason I am induced to procure them at such a Distance.

If there should be any considerable quantity of oats sent in to You, or if you should procure them yourself; and should you know of any good opportunities to forward them to this Place, I should be glad if you would send them on.

If any are ordered on in this way, be good enough to send an acc't of the Quantity forwarded, and then give the Driver an order on me for the money you shall agree to give him for his trouble; unless you should chuse to pay s'd Teamster yourself. But if you find it too troublesome to take this also upon you, must beg the fav'r to have them remain with you till further measures may be taken about them. With Respects to Friends, I am your very h'ble Serv't

PHILADELPHIA 11 March 1777

*Sir,*

Mr. Hancock has delivered me your Letter to him, and desired me to Return an answer to it, and it might be proper for me to notice to you that the mode of Application at the Marine Board is thro the Delegate of that State from whence the Application arises. Mr. Perkins came to this City and was here informed of the Adjournment of Congress to it which prevented his going forward. When Congress left Baltimore they directed that a Sum of Money should be bro't forward, but it has not yet arrived, that no delay might be suffered in your Business I obtained an order for Thirty Thousand Dollars on this Loan Office, but upon Application for the money, find it intirely Exhausted tho' the Payment into it of late have been liberal, and previous orders unanswered will prevent my receiving of it there for some time, but as I think that it will not be many days before the money comes from Baltimore I shall retain Mr. Perkins for the present. you may undoubtedly count that Sum to put forward the Frigates which you and Mr. Cotton have to Build, and such other future advancements as may be necessary.

As to the Draught or Description of the Frigate which you are to Build, it has of late been neglected to be sent, the Committee have left it to the Discretion and Emulation of those employed in the several States to Rival each other in the Perfection of Building. But I shall endeavour to send (or procure it to be done, by the Board of Assistants to the Marine Department who act under the Direction of the Marine Board) such Draughts as may be proper. Wishing of you Sir, success and much Honour to yourself in the Conduct of your Business, I am Sir with Respect your most Obedient humble Servant

I shall want 10. hheads of Rum home stilled, or West-ind'a wish you to be so good as to procure me them as soon as possible and when bought to lett me know that I might Either send the Money and fitch them, or pay in Iron as it might Sute you. the price I coud afford is uncertain so must limitt somewhat in gross, from ten shillings lawfull to 14/ for very good west ind'a and from 8/ to 12/. for home made. ROBERT LIVINGSTON TO JOSHUA HUNTINGTON.

MANOR LIVINGSTON 13 June 1777

*Dear Sir,*

Since I wrote you by Mr. Huntington, (who received the Ten Tuns of bar Iron, at my different Forges, and had it carryed by my ore teams to Canaan) a number of my workmen have Petitioned me, to increase their wages, alledging that they cannot support their families on the wages, agreed with me this Spring; while all the necessaryes of life are risen in price far above, what they then were; occasioned by this unnatural war; as this is a fact, which cannot be denied, and which I sencibly feal, as well as they; I looked upon myself, obliged in Justice, to the poor people, to agree with them anew, and make them a further allowance, the consiquence of which you may Judge must be the raising of my Iron, and pigs, and which must be considerable too, to make me whole for all the advanced wages, to every one in the different branches, so that you must expect to pay an advanced price if you have any more Iron, from me, and this I Expect you will not think hard of me neither, for its impossible for me to carry on my works without these men, and it's but reasonable they should live by their labour.

My Forges, shall in the mean time be drawing such Iron as Mr. Huntington orderd, as fast as possible, unfortunately for me, two of my fires at present lay Idle for want of workmen who are gone in the army, which is a great hinderance as well as loss to me. I sent a man to Jersey to Endeavour to procure me three others. he is not yet returned his Success is doubtfull

Upon the whole, the difficulties in my way of business, increase so fast that I know not whether it will be possible to continue my works even this Summer, and if I cannot, the Consiquence will be the want of Iron in two, if not in three of the United States. Malencholy to think of, I mean to Exert all my possibles in carrying on these usefull works, and please as far as in my power.

wish you to be able to procure the one hundred bushels of Salt desired in my last; and the rum if to be had at my limitation. I will pay you for the trouble, with thanks, please to lett me know what price Superfine flower will fitch in your Quarter, per Ct. I remain with respect D'r Sir, Your Most Ob't H. Servant

*Dear Brother*

Mrs. Chester informs me that you soon propose to visit Bedford with a view of procuring some *sugar* among other things, and that you was kind enough to offer to assist us in the same way in case I would write you. If you find it Convenient while you are on the Business to purchase me about 200 lb. you would much Oblige me; the price I must leave entirely with you, as 'tis impossible to know how it will be. Indeed I fear but too high, but I think it cannot equal our price here which I suppose is more than £100 per Hogshead. If you find it too high to purchase for yourself, you will let me go sugarless also. We expect 50 lb of Coffee of Bro'r Andrew so that we hope to live along a little longer with out eating fat Pork only for Breakfast, Dinner, and Super. I Pity the good man's poor wife. I'm told she is unwell. But He *will do so*.

Say how'de to sister Hannah and little Betsey and all the good people with you. We have nothing very Remark-

able with us. Our Militia are all Order'd to be in Readiness to March on the shortest notice.

Col. Webb Writes from Camp 19th Inst. that our army at Peek's Kill are strong and in fine Spirits and altogether fearless of Sir William or any under him, and that the Army in general very much Resent the Conduct of the Northern Army\* and that the Officers all say that America must have a *Byng*.† Plain English I think! He adds that General Washington has been heard to say that had it not been for the misconduct at the Northward he had no doubt but that he should have been able to have Established the peace and Independancy of America. An Acc't came yesterday to town that Gen'l Schuyler was in Goal on acc't of having Order'd Ticonderoga‡ to be evacuated. I believe it to be false.

You'll be kind enough to advise me of your success on your Return and the news of the day with you if your leisure will permit. Believe me to be your much Obligated and Affectionate Bro'r

JOHN CHESTER.

*Dear Sir,*

On Receipt of your letter of the 16 current per Mr. Zephaniah Huntington, I was obliged to go up to this place, to see what Iron was made, and to deliver it, as all my Clarkes, Forgemens, Furnace men, Carpenters, Carters, and some of my Colliars, are all gon up, to assist in repelling this present invasion. God grant them the desired Success. all my works at Present lay Idle, and have done for this month past, and when I shall be able to begin again is a Question I cannot determine but you may depend it shall be, as soon as my hands return again.

all the Iron I found ready made was only Eight Tun and a half which is weighed off and deliverd, and for which Mr. Huntington paid me Eleven hundred and Ninety pounds Currency as per Receipt given him, being 350 Dollars per

I see you could not procure me the Rum, nor Salt, desired in mine of the 6 June. have happily got a Supply of both from Boston tho at a most Extraordinary high price as everything else is nowadays.

I shall do my Endeavour to gitt the remainder of the Iron made for you as soon as in my power. all the Rudder Irons are ready drawn and lay at my house you may order them fitted as soon as wanted. am D'r Sir Your most

*Dear Sir,*

On Gen'l Prescott's desire I wrote to Colo. Peck of Providence, desiring him to forward some Baggage which he supposed was in his hands, sent for him from Newport, and have rec'd an Answer from Colo. Peck, the Copy of which I now Enclose.

If the Baggage is Come to your hand, beg the favor you would forward it as soon as may be, as the Gen'l, (you may easily believe in his Situation) is very Anxious about it. He thinks he has money and some Valuable Treasures in one of the Trunks. hope and trust you will take every precaution that none of the things be opened or any way Injured. One Instance of that kind we have had in Hartford, which I look upon (as I doubt not you will) very dishonourable and scandilous. Wish nobody might know to whom they belong. PROVIDENCE 23d August, 1777

This day rec'd your Letter of the 8th Inst't in which you desire information respecting General Prescott's Baggage.

The 1st Instant came in a Flag from Rhode Island, Two Trunks, a Sea Chest. and two or three Letters directed to Gen'l Prescott, and his Aid de Camp. But as they came to the Care of another Gentleman, did not pay that attention to forwarding them, as I should had they come to my Care.

However, last Monday, observing, they were not forwarded, I took the Liberty (in the Gentlemans absence) to send them to the Care of Major Joshua Huntington Norwich, desiring him to convey them to the Gen'l the first safe opportunity, who I suppose has receiv'd them e'er this. *My Dear Brother*

I am now impatiently waiting the Arival of your Vessel for my Onions. Have been able beyond expectation to get ready for you as my Onions Ripen'd the first in Town so that I have by me ready bunched, rising of 3000, or at least I could be able to Cart so many to-Morrow, and yet scarce any body has begun to pull.

You talked of having but 2000. If you should happen to want more I should be happy to serve you or any of your friends in that way. Any thing eatable or drinkable would serve for pay, Rum Sugar Molasses Brandy, Gin, Loaf Sugar Tea Coffe Butter Cheese and a thousand et Ceteras. The Barrel of Sugar and Coffe that we talked of I depend on.

By the way the Onions are fine and in Good Order. But I fear if they lie long high and Dry they will loosen on

the bunch as is commonly the Case. I have the Chance of the best bunchers in Town as other people are not yet generally engaged. Pray send as early as Possible after them.

Good Doctor Leonard is Dead and I heartily Sympathize with you and other freinds on the Loss of so valuable a Man. Young Capt. Alden\* of Webb's Reg't also is fallen gloriously in the Cause of his Country. I need not particularize as undoubtedly you have had them, as fine a young fellow as ever lived.

The Siege at Fort Stanwix is broke up the enemy having decamped in great consternation leaving Tents Standing a great Quantity of Baggage and all their field Artillery.

You will have in the next Hartford paper the Orders Burgoine† gave the Commander of the party Gen'l Starks attacked and Conquered near Bennington. Curious Enough, I assure you. Indeed the pride and self-sufficiency of that same Burgoyne is amazing. I am much of Pierpont Edwards opinion who said concerning him, that had he been in Heaven at the time of the first Rebellion he must have been Aid de Camp to Lucifer.

Mrs. Chester this Minute tells me she has Wrote her Mamma from Sister Webbs and among other things of the Onions. You'll think us all Onion-Crazy. Believe me Affectionately Yours

JOHN CHESTER.

*Dear Sir,*

As by a late Law of this State, it is necessary that every Person who purchases for the Army or Navy sho'd have a Certificate from an Assistant in s'd State (of what nature s'd Certificate is, I know not, unless it be to shew that the Buyer is employed for the Public) and a Person purchasing without, is subjected to great penalties, so I cannot attempt purchasing for the Navy on any Terms, without the requisite qualifications.

Your Hon'd Father I suppose can give a Certificate; if not, I should be glad to know, from him, how I can proceed with Safety for I don't know that our Authority and Selectmen will grant Licences, they have not as yet. I could put up some provisions for the Public, and in so doing sho'd think I did them Service as well as myself, but to be rewarded with Six months Imprisonment, is what, would be no powerfull Temptation to one with my Feelings. if it is so, that I can proceed with Safety without dancing attendance on S....t m-n etc. I wou'd be glad you wou'd find me by Father Cogswell two or three Thousand Doll's, for which I will account with you in Due time. *Sir,*

The Disappointment and lost Expectations I have meet with in this Country makes and Elivates my Opinion of New England the Place of my Nativity. I have said and Still are of Opinion that on Supposition that General Howe was in New England such a Distance from the main Ocean—and under such Surcumstances as he has been in sence he landed at the Head of the Elk—his Condition must now have been somthing Similar to General Burgoyne's (or worse). The Country here is inhabited by people of the Quaker Profession who will not Assist in the Field, and not only so but in General Enimies to the Cause Conveying every intelligence Possible under the Cloak of Friendship.

We are in a Moving Condition, our General Manuevre is Marching ones in twenty four Hours. we are Now on the west Side Schuylkill Waiting some Manuevre of the Enimies. tis Conjectur'd from this we are Bound to Lancaster for Winter Quarters, Which will not be Disagreable to our Wearied and Fatigue'd Soldiery. the Spirit of the Soldiers is great. Courage is not Wanting to Exiecute (I am bold to say) any thing they are Called to.

JOHN DAVENPORT\* TO JOSHUA HUNTINGTON.

*Sir*

Your Letter came safe to hand last Evening. I wish it had been a Week sooner as it would have enabled me easily to have procured the flour you desire. As it is I will engage to supply you with one hundred barrells at a price not less than 45/ per hundred, delivered here and at the

\*Major 9th regiment, Connecticut Militia.

risque of the Continent while it remains here I must purchase the Wheat and procure it to be floured and In Consequence of what you wrote I shall immediately engage Wheat to serve Your purpose I cannot certainly determine but that I may be able to procure the 150 bbs. you desire. Flax may be procured at Stratford or Fairfield at 2/ or 2/6 per pound, Corn and Rye have really no price Rye may be purchased with more ease than Corn but there has been so little of it sold that they have not yet fixed a price. 10/ I believe would be the most for Rye and 8/ for Corn. These several Articles may be purchased as easily with money as with any West India goods except Salt. Imported Salt might be bartered away I believe advantageously. I should be glad of a little Sugar and a few bushels of imported Salt if the price be not too extravagant to barter away. You will advise me speedily when you would Choose to send for the flour as I shall have it made as soon as possible for were I to delay for your answer the Wheat would be most of it bought up. If you choose to have flax I will purchase as Low as it can be bought. 2/ I believe will be the lowest. I am Sir Your humble Serv't

JNO. DAVENPORT.

NEW LONDON March 25th 1778.

*Dear Sir*

I know not what to say to you about the Matter you Mention, to give 18/ per Day will be a Violation of the Law of the State, at Same time I shall be Very Sorry to have a Detaintion on acco't of the Blacksmiths work of the Ship. if it can be done I Shall be Glad to have your old Smith Kept a little while longer, as we shall soon see whether the new regulations will take place. I am willing to leave the whole to your Prudence and Discretion and shall be fully Satisfyed with your Proceedings in the Matter. I am much Disappointed with Respect to the Ship Trumbull, the Navy Board have Invested me with full power to get her out of

the River, and when I Return'd I Expected have found the Ship prepared according to my Directions when I left this place, but I find my Self Superceeded by order of his Excelency the Govenor and Council of Safty, who have appointed Capt'n John Cotton to Execute that Business, and made him Sole Director of the whole Matter. if you will Enquire of any of the Members of the Council of Safty whether the Honob'e Congress has Invested them with any New powers since the appointment of our Board, and write me as soon as may be you will much oblige me. I have much at hart the geting the Trumbull out of the River, and I am Very Sure I Could bring the Ship to Draw a foot less watter then She now does (*if what I here is true*)\* the prospect of a tide this night to get the Ship out is very Great, and I Sincerely wish She my Get out Safe if She Drew a foot less watter I should think the Risque Triffling.

I have nothing more to say then the Ship you are building must go on at all Events. I am Sir your Humble Servant

JOHN DESHON.

*Dear Brother*

I have lately Rec'd two Letters from you on Business and for my life I cannot remember whither I have answered any one of them, I have been drove about so from pillar to post lately.

First then the Onions are and have for a long time been ready and should have sent them to you but for want of a good Opportunity. Bro'r Jeddy Informs me your Vessel left Norwich about 6 days since to come this way so that I am Easy in my mind on that score unless the Embargo on Onions (curse it) should prevent, which I hope it will not. Indian Corn is like to be very scarce with me this year. my crops fell short very much. But I would send you a Quantity in the Ears if I knew it would be agreeable to you, but it is impossible to thresh it now both on Acc't of our hurry in the business of ingathering and also, its not being sufficiently dry. If you wish to have it in the Ear pray notify me as soon as possible.

I shall also send by your Vessel a number of Onions for Bro'r Andrew in the family way and some other of our friends with you.

The Drums you wrote me of are Ready for you at Middleton Col. Sage sends me word. I sent down after the 3 Corn Basketts which I have Rec'd and at the same time wrote Sage to procure them. Fives I imagin 'tis impossible to get here as I cannot hear of any one who makes them, or of any to be sold.

Molasses will be very agreeable to us if you have it to spare. I trust we can pay it in Corn if not we will make it agreeable to you somehow or other.

We shall also send you a number of Cabbages in your Vessel.

EBENEZER DEVOTION TO JOSHUA HUNTINGTON.

WINDH[AM] 12 Nov'r 1778.

*Dear Sir,*

I have to request you to send me per Mr. Hovey a quantity Cash; I must likewise desire that you would not be unmindful of the Rock Salt, without which, it will be impossible for me to make good my Engagements, and in-

deed it will be out of my Power to do so well by the people, as the Commissaries, and of Consequence must be defeated of the Provisions I have taken the Pains to engage, not to say that I have already used several Bush'ls of my own Salt of that kind which I had reserved for my own particular domestic Use. As to the Prices of Pork, as adjusted by the Commissary Gen'l, No Person will sell at them, and I am obliged to give them the Run of the price till Christmas. Mr. Abbe does the same as I am informed. Had I not been Limited to a price, I doubt not, I could have saved the Continent some Hundreds of pounds, as I could have bought at a lower price than Coll: McLellan now gives, which I was yesterday informed was  $2/4$ , and I make no Doubt it will be higher before long. you will act your Discretion with Respect to an Alteration. if you think best to make any please to send me a line per Bearer. I remain D'r Sir Your very Hum'e Ser't

## E. DEVOTION.

P. S. What price do you give for Barrels?

*Dear Sir,*

Your favour of the 20th Instant was duly Rec'd wherein you Desire 1600 Stocks for Grape shott for 12 lb. and 400 for 6 lb. now you do not mention whether of wood or Iron, if of wood I should Immagine you must have Turners your way which will be procured at a Less Expence than they will this way; and if to be made of Iron I Emmagine the blacksmith will work Cheaper with you. I have been to several of our Turners to know what they will Engage to make them for and how soon, but they are none of them at home, and the Team will not wait until they return. I should be glad you would be pleas'd to write Immediately if to be made of Wood, and I will endeavour to get them

Boston 28th Novem'r 1778.

*Sir*

We have yours of the 19th by Mr. Mumford, Advising your draft in favor of Thos. Mumford Esq'r, for Eleven hundred and thirty pounds which we shall duly honor.

Its almost impossible to procure Teams in Boston, to carry the Arms, powder Ozenbrigs, etc to Norwich; Except by meer Chance. therefore think it best, that you either send them from Norwich; or Engage those, that bring flour to Boston, from the Commissary (if any such) to call upon us.

We wrote you heretofore to Send Teams to Scituate, for fourteen Cannon proved, and ready, at Messrs. Browns Furnace.

We are extreemly Sorry, and greatly disappointed, in your not Succeeding in the purchase of the light Cannon on board the Galley; Captured by Maj'r Talbot; they would have Completed the Set for the Confederacy. We shall Apply for them to Maj'r General Gates, and inform you of the result of our Application. If we fail, and the Trumbull does not get out of the river this fall, our only Alternative,

must be, to make use of her Cannon, untill we can replace them. We Inclose you, Doct'r Dorseys receipt, for Eighty Dollars Supply'd him with, which we have Charged to the Ship. Also you have Giles Halls receipt, for 1 tun and half of Grape Shot, shipt on board his Scooner, for the Confederacy, which we wish safe to hand. We are with regards

JOHN DAVENPORT TO JOSHUA HUNTINGTON.

STAMFORD Decem'r 13th 1778.

*Dear Sir,*

Direct opportunities from Stamford to Norwich are so rare, that I have procured Mr. Welles who goes as far Hartford to come to you with this Letter. I have engaged Eighty barrels of Pork at least and most of it is put up. I have procured beef enough to put up at least Forty or forty five barrels. The Salt falls short considerably from what it was put up for. One Hhd. was not more than Two thirds

full. I shall hardly have Salt enough to put up the 50. bbs. of beef and the 100 bbs. of Pork. The beef was bought upon the legs and will not all turn out at so low a price as you directed it to be bought. Beef took an unexpected rise soon after you gave me your directions, but I thought best to purchase. I cannot procure more near so low as what I have already bought.

I have engaged of a man whom I believe will not deceive me 150 bbs. of flour some part I have already received and more I expect to receive this week. Men of whom I have engaged flour and beef have deceived me even where money was given to secure the Articles before hand. The sudden rise of commodities causes great failures in the performance of contracts. The 150. bbs. of flour I have engaged I am to pay 25 dollars per hundred for, and I suppose I can have 150 bbs. more of the same man for the same price, if it suits you. I imagine it cannot be procured for less.

The little Sloop I sent to you with corn was taken last week as she was going to Newhaven with a load of provisions. The Navigation of the Sound is now so hazardous that it will be difficult to procure a Vessel to bring provisions to you. I wish for your further directions about sending what provisions I have already obtained immediately. I hope we shall have some force in this part of the sound soon which will make the Navigation less hazardous. The owners of the Sloop Wm. & Henry would not take less freight than I mentioned you for the Corn and flour they said that was considerably less than others had.

I judge from your last letter that you mean to have me procure for you 300 bbs. of flour more than I have sent you. I have paid out what money I have rec'd of you, and should be glad you would send by the bearer if you can spare it money sufficient to pay for what flour beef and Pork you expect me to get for you. As much as the money is despised I find people are fond of ready pay. I am Your friend and humble Ser't

*Sir,*

I send by Mr. Wm. Elliot, 53.<sup>c</sup> 1.<sup>qr</sup> 2<sup>lb</sup> N't of flour contained in twenty Eight barrels which I hope will arrive safe. I sent a man on to You last week with a letter informing you of the quantity of Pork beef etc. that I had procured and also requesting a sum of money. The flour I now send you is part of 150 bbs. that I have engaged of a man, that will not fail me I believe I hope to engage 150 barrels more soon and I have engaged the man who carries this flour if he returns soon that I will give him a full freight from here to You I have ordered this flour to the care of Mr. Hallam at New London. The man would not be persuaded to go to Norwich. I am Your friend and humble Serv't

JNO. DAVENPORT.

JOHN DAVENPORT TO JOSHUA HUNTINGTON.

STAMFORD Decem'r 19th 1778.

*Sir*

In Addition to the twenty Eight barrels of flour I send you by Mr. Elliot twenty two barrels of beef and two barrels of tallow consigned to the care of Mr. Edward Hallam Mr. Elliot would not go to Norwich

Write me word whether you would have me send the rest of the provision on by water. Many persons here clamour against provisions being carried by water on acco't of the hazard of passing the Sound. I wish the State Ships at New London might be ordered to cruise the sound this winter. The public would reap great benefit by it.

You would find you acc't in sending money sufficient to pay for what you want me to purchase 300 bbs. of flour will not cost less when delivered at the water side than £4500. Carting included this is only a rough guess. The flour is £7.10 per hundred bbs. two doll. each and carting now 9/ per Mile. this is besides the beef and Pork the greater part of which I have already procured, according to your desire. The beef cost more than you expected some of it. It was bought as well as it could be on the legs, and I supposed you must have it. I am Your friend and humble Serv't

*Sir,*

I rec'd yours by Mr. Welles and was sorry he was so unfortunate as to miss of money by Colo. Chester. I hope you will send me some as soon as possible I have some time since paid out every farthing I had of yours and my own. It would be very convenient if you could spare it for you to send money sufficient to compleat what you wish me to purchase fifty bbs. of beef will cost £1,000 hides and Tallow included, one hundred bbs. of Pork £2,800, and

Three hundred bbs. of flour will cost at £7.10 per hundred allowing £1.3.0 to a bbl. £3937.10 exclusive of barrels and carting. more than 150 bbs. I have engaged and have paid some of the money and should be glad I had the money to pay the whole. I had Eight Teams Stop'd last week that were loaded with flour coming from the State of New York altho' they had the Gov'r's permit with them. there is a Captious Commissary there one *Leek*\* that complains ag't almost all that bring flour from that State I believe with a view to give trouble to the Teamsters for they have to pay the Cost if released. I have sent to Gov'r Clinton on the Subject. I ship'd a fortnight since on board one Wm. Elliot 28 bbs. of flour 22 bbs. beef and 2 bbs. Tallow to be deliv'd Mr. Hallam at N London I believe he has not yet gone. I hear he lies froze up at Norwalk. I should be glad to know to whom I shall consign the flour and provisions I send to N. STAMFORD Jan'y 8th 1778 [1779]

*Dear Sir*

Eight loads of flour that were coming from the State of New York by a permit from Gov'r Clinton were a few days since seized by the information of a Captious Commissary one Leek who is one of Mr. Colts deputies Altho he believed it was coming for the Use of the continent he would inform and the justice by their law is obliged to seize. The trial of the matter is to be on Monday next when I shall attend. This peice of Malice will cost the continent at least £150. The great trouble and vexation of procuring flour from the State of New York will make me rejoice when I have supplied you with what you want. Money I want extremely

to go on with purchases for you If you could send 600 dollars to my father at Hartford which I borrowed of the Constable of this Town for your services and promised to repay there you would much Oblige me, and as much more as you can send to me conveniently if enough to compleat your purchases would be very serviceable from your friend and humble serv't

*Sir*

The flour I mentioned you in my last as being seized in the State of New York was on Trial by a Jury released.

The seizure was owing to the maliciousness of a Commissary under Mr. Colt named Leek. He has in so many instances caused flour to be seized that was coming from that State for the Use of the public with fair permits and given the purchasers so much trouble and cost that I imagine it would be for the public advantage to have him broke.

Money is the burden of my song you will observe in my Letters I am called upon for it daily. Yours etc.

WETHERSFIELD Jan'y 28, 1779

*Dear Bro'r*

According to your desire I waited on Capt. Hopkins last monday. He readily compleid with my request and agreed to weigh me off 280 lb and put it in Barrells. But the next day, he found he could not handily get me the Barrells, and desired me to take home the smallest Hhh'd bodily, which I have done, and Weighed off 280 lb. 7 oz in good whole loaves the remainder I put up in a flour Cask which consisted of Broken loaves altogether, some half loaves and some a little more and some a little less, and about 12 lb. of that which was pulverized. 1 lb 8 oz was so dirty as to be unfit for use; the whole was 388 lb. 13 oz.

Doctor Elderkin has not yet produced his order for the sugar. I have ventured to keep the overplus of the 280 lb. being about 108 lb. by me, till you should write me, whither you would have it sent back. Mr. Mitchell wants 2 or 3 loaves, as you encouraged him to expect, and I dont know whither you would be willing to lessen the 280 for him. Bro'r Eben'r also expects some of you and I should be glad of a loaf or two, and so I keep it all by me till further orders. (I mean this one Hhh'd)

Pierpont Edwards sent a man from N Haven on purpose for the sugar, but Hopkins would not deliver it to him.

I wo'nt pretend to tell you the News of Assembly, as father Huntington, will probably be with you in a few days and can do it more particularly than I have time to do at present.

Well how did you get home? I want much to know. I was truly sorry to have you go. But as the Weather has turn'd up since, and as the Ladies were so very anxious I dont know but it was best of all. But I am sure I am glad Betsey did not go with you. Mary seems pretty contented and joins the rest of the sisterhood and myself in Love to yourself and Sister and Little black eyed Bess and Compliments etc. to all enquirers. Excuse Errors, as I'm in

greate haste, can only add I am most sincerely Your Affectionate Brother

*Sir,*

I send by Capt. Simeon Coffin Thirty four barrels of Pork and twelve barrels of beef also fourteen bbs. flour containing as per inclosed invoices 25 C. 2 qrs. 18 lb. N't four of the bbs. marked IH are of the best quality. One bb. of the beef marked IH is agreable to your desire good The bbl. has a bung in it. Some of the bbs. are not made of White Oak stuff as I could wish, black Oak is apt to prove leaky. they were the best I could obtain at the time. The beef and Pork has been all well brined and I hope will arrive safe and in good Order. I meet with very great embarrasments in procuring flour from the State of New York Gen'l McDougal\* as I am informed has placed guards at all the Mills in New York State so that no flour now comes without his permission. I purchase no Wheat in this State and the Commissaries have threatened to seize the little I have obtained from York they have seized all the flour and grain they can lay their hands on legally. I hope to receive some money soon As a great scarcity of that Article appears in this part of the Country. Your friend and humble Serv't

I also send four rawhides Three Kegs of hogs lard, and a Cake of Tallow. I have more hides to send but they are not here two of the hides I had sold before I rec'd any directions from you and also a few pounds of Tallow.

*Dear Sir*

I am inclined to drop you a few lines not as Coming from the Board, but as a private friend to a person whome I can confide in. a few days agoe, we wrote you by Mr. Wm. Hubbard informing of the State of our Board since which we have your fav'r by Mr. Trott in which you Very Justly Complain for want of that Suply which you have a just Right to Expect from Navy Board. give me Leave to assure you that if we had it in our power to pervent it you should have no reason to Complain. our Cituation is truly Despicable we are a Board without one Single Dollar to Suport and defray the numerous Charges that unavoidably attends it. last Evening we rec'd Letter from the Marine Committe, by the Contents of which I see no great prospect of a Speedy Suply of money. your Draft in fav'r of Mr. Hunt'n I have paid my self, having Boryed the Money of Mr. Charles Miller.

you Mention Selling the Provisions you have Engaged, in order to pay the Demands against you for the use of the publick. My friend that plan will not doe, altho you may be Justifyable in a Great Measure in doing it, yet when we Consider the Consequence that will follow, we must reject the Idea. his Exelency Governor Trumbull with his Honb'e Council, has a Grand Plan in Contemplation which if Carried into Execution, *and there appears to Me to be a great probibility off doing it*, will be a Very fattal Blow to our Enemies.

I Consider the Ship Confederacy and Capt'n Harden, who are to have a great Shair in the Intended Interprise, to be Children of which you as well as the Governor and Council have a right to Clame as parants who begat them, and I most sincerely wish for Honor of these parants that Success will attend them to the no small Mortification of there Enemies. Capt'n Harden is ordered by the N. B. to repair imediatly to his Exe'ly Governor Trumbull and re-

ceive his orders. the Queen of France\* is ordered to Sail Next Monday for N. L. in order to join the Confederacy and your State Ships, the whole fleet to be under the Direction of Goven'r and Council of your State, and I am perswaded you will notwithstanding all your Difficultyes and Disapointments use your utmost Endeavors to forward an Enterprize which if it succeeds will redound the Greatest Honor to the Author of it. this Expedition is a profound Secret and Capt'n Harden is ordered [not] to Divulge it to any Mortal. I once more Recomend patiance and perseveriance, we have sent forward to Congress an Abstract of the bills unpaid now in our office which amounts to upwards of 300,000 Dollars. Six Men of war in port and not money to pay one Seaman his Bounty. When they see our Letter it will Certainly Rouse them, if there is any life or Spirit left in them. if it does not I will come and see you for I have no Business hear without money. I ship'd on board Capt. Simeon Coffin last week a quantity of beef Pork and flour to the amount of Sixty bbs. in the whole besides some Hogs lard Tallow and hides. He saild last Sabbath and I hope has arrived at New London before this. Gen'l McDougal has so fenced the way against flour coming from the State of New York \* that it is almost impossible to procure any to be brought out, guards are fixed by him at most of their Mills. He says after he is supplied with sufficient for the Army that lies at Peekskill and that quarter he will suffer flour to be transported by Gov'r Clintons permission I suppose were I to represent the case to him respecting your purchase he would grant permission even now. Money would be an agreeable Article to send this way. I have rec'd None since I sent Mr. Welles to you. We have had reports here within a few days that the Enemy were preparing to move into some part of the country. JOHN CHESTER TO JOSHUA HUNTINGTON.

WETHERSFIELD 8th Feb'y 1779

*Dear Brother*

Last Saturday I rode to Hartford to see a Board merchant, and by conversing with him, and others, I find it will be difficult purchasing them just now. There are but very few in this part of the Countrey. But as the spring opens, People will saw them, and they will probably come down the river pretty plenty. The man I saw has a few of the finest season'd stuff he says. But he did not fix a price, tho by his round about talk I know he means to have a very high price. People will not engage Planks or boards to be delivered 4 or 6 Weeks hence at any Price. If stuff that is *not* season'd will answer your purpose I wish to know it, as the price will be much less. I think I could barter any West India Produce for boards, and both at the Regulating Price. Before the river opens you can write me, and if you pay for them in Money, I wish you would mention a price you would not have me exceed, and if I can procure them lower I will. It frightens me to think of paying 20 or £25 per 1000 and yet this is not so high by any means as other articles, nor am I at all certain I could procure them for £30.

I have lost your letter rec'd last fall about Procuring Drums and fifes and so cannot recollect the Number you wrote for. I have wrote Col. Sage to hurry Mr. Rogers about the Drums. I had the good Luck to procure you three very good fifes made at Windsor they cost me in the first Instance but 3 Dollars each, and I paid young Jones 3 dollars more for going to Windsor after them and picking

them out. I think they are very Cheap, as they were worth 7/ hard Cash in 1775.

Please to make my love to all friends with you. I wish you to inform Bro'r Gen'l that Capt. Edw'd Bulkeley goes into N. York to Morrow Morning and carries his letters that he committed to my care.

From your troublesome Long Winded Bro'r

JOHN CHESTER.

Feb'ry 13th. I yesterday rode to Middleton having Rec'd no Answer from Col Sage about the Drums. Rogers engag'd to let me have Two Drums for 40 Dollars Each, if I send for them within 3 Weeks. I dare not promise him so much money till I had your approbation. Tho he had 40/ in old times and this is but six for one. I can procure the planks in exchange for West India produce at the Regulating price or for about  $\frac{1}{4}$  box of 6 by 8 Glass in part. In money I am told Planks go at £55 and Boards at £30.0.0. please to write me how I shall proceed as I have 10 days to answer the man in. I hardly know whither you rightly understood the situation of the sugar when you last wrote me on the subject. I still have the 108 lb. by me, and will keep it if you say so, tho I have perkins's Rec't for all save the 280 lb. from yours Affectionately

JNO. CHESTER.

PETER COLT TO JOSHUA HUNTINGTON.

HARTFORD 15 Feb'y, 1779

Sir

I have your favor of the 12. Relying the Flour is *solely* for public use, am contented to send it you; however dont think it best to draw it from Windham at present. There is now on the road betwixt this and Norwich 114 bar's Flour designed to feed the Troops at N. London. this would probably last them much longer than the time that will elapse before we shall send on some directly to N. London by water.

you will therefore call on Mr. Faning for 30 or 40 bar's; before that is baked up, think he will have a further supply

from hence, out of which he can make up the residue of the Sixty bar's in case you do not get yours forward in the mean time. I have wrote him to *lend* you either *Soap*, *Candles*, or *Tallow*, for the Ships use. If Colo. Wadsworth, whom I daily expect, consents, you can pay the Money other way you must replace them. I am Sir your obd. hum'e Ser't

PETER COLT.

JOHN DESHON TO JOSHUA HUNTINGTON.

BOSTON Febu'y 16th 1779.

*Dear Sir*

As there appears such a disposition in the Officers of the Navy to Collect as large a quantity of Stores of all kinds as posable for the Ships they belong to, particularly one of the Liev'ts of the Confederacy, who is much Engaged that way, without duly Considering the interest of the Publick, I think it would be unfriendly in me if I Neglected to give you all the Information in my Power respecting the Navy, for which reason I here inclose the resolve of Congress respecting the Allowance of Officers in the Navy, which would have you strictly adhere to, as I perceive a disposition in my Collegues to settle with the Officers on no other terms then what is specified in the resolves, you will therefore be Causious how you Settle there board at private houses while the Ship was in Ordinary. Mr. Gross has made an Indent here for Cabin furniture which has been complied with Should you furnish any more without the Knolledg of this board I rather think they will disapprove of it. I hartily wish you may Succeed in your applycation for money at the Marine board at Philidelphia, if you don't it will be out of our power to help you, unless we receive a Supply from that Quarter our selves, which I do not much Expect, for I amagine that Honb'e Board have but an Indifferant Idea of the Expenche that attends the supporting of a Navy, the Ship Queen of france waits for the Rainger to join her from Portsmouth, when I shall urge strongly that the Warren with those Two Ships sail

Imediatly for N. L. the Warren has upwards of 100 men may be full maned in three days after she arives at N. L. those 3 Ships can be at N. L. before the Confederacy is ready or by that time. the Six following Ships will almost Insure Victory the Confederacy 36 guns the Warren 32 do. the Queen of france 20 ditto the Rainger 20 guns, the Oliver Cromwell and the Defence, this force united, is able to Scour the Coast of Virginia and Chastize our Enemies the Goodridges\* which has so long Infested that Coast and done us so much damage.

I write you this Letter in Confidence. I would not chuse the Officers of the Navy should Know I Give you this caution as to the other Parts of this Letter your own prudence will direct you. I am with much Esteem Your friend and Humb'e Serv't

JNO. DESHON.

JOHN DESHON TO JOSHUA HUNTINGTON.

Boston Febuary 20th 1779.

*Dear Sir*

Your fav'r of the 13th Instant is answered this day by the Board as far as relates to there Business. I wrote you a few Days agoe giving you some Hints which I thought Necessary, in yours you do not acknolledg the rec't of mine.

you Mention 6 or 8 hhds. of Rum, the Rum is to be Bought for money tho not so Cheap as a fortnight agoe, but our board is not able to buy a Jill unless we borry the money. Since my return to Boston I have Boryed for the use of the board upon my own Credit ab't £10000, and had we not borryed we could not have done any thing towards fitting out the Ships. I will send by the Ship Warren 20 firkins Butter for the Confederacy. I hardly belive the Board will consent I should return to N. L. I am Very anxious about my Family. I wish my wife would Abide at N. W. untill the last of March, when I intend to be there my self. I am your assured friend and Humb'e Serv't

JOHN DAVENPORT TO JOSHUA HUNTINGTON.

STAMFORD Feb'y 28th 1779.

*Dear Sir,*

As soon as I rec'd your Letter of the 12th Inst't I went and engaged a baker to bake the bread you desired, and sent to General McDougal for Liberty to bring the flour I had purchased in the State of New York to this State; but he would give no permission so that the matter must entirely cease, for the present. The General has guards stationed at most of the Mills in New York State, and has been so rigorous in his Government, that he took a man that belonged to this State who had brought flour from New York State, and without judge or Jury, flogged him Thirty Nine

lashes, as I am informed Thirty bbs. of flour that I have purchased and paid for that was at New Whurley\* on the other side of Hudsons river, is seized by one Mr. Belknap one of Mr. Colts Commissaries you must desire Mr. Colt to repay it to You at Hartford or discount it with him towards the flour you have already received of him. I believe it would serve you and the public best to procure all your flour thro the hands of Mr. Colt and let him be repaid with what flour I have purchased as far as it will repay him. I have to receive about one hundred bbs. of flour yet of one Man in the State of New York if he abides by his contract besides the Thirty bbs. I mention to you as being seized.

Mr. Colt wrote me a few days since that you were desirous to exchange what meat I had with him, to save risque and transportation. I like the plan well and think it may be easily effected. The money I rec'd of you last I believe I shall be able to pass off, tho it is of the proscribed emissions. I discover two forty dollar Counterfeit bills in one of the bundles of April 11th 1778.

Mr. Tryon the Plunderer paid us a Visit last Fryday at Horseneck within about four miles of this place. he was accompanied by about 15,00 men They in their rout destroyed Ten or a dozen salt Kettles burnt a large Schooner and small sloop, plundered the Inhabitants of their wearing apparel necessities of every kind, cooking utensils table furniture and all kind of provisions, beat the houses and windows to peices, the whole town was a scene of desolation We captured about fifty and killed five or six only of the Enemy. I have heard of but one man of Ours that was wounded. In this Town we had no intelligence of the Enemy's approach 'till they had been in Horseneck an hour. The militia collect[ed] and went in the afternoon of Fryday last [to] meet them but the Enemy retired with [ ] precipitation leaving two baggage W[ ] behind them. Thus hath the *enemy* to [ ] human existence with 15,00 men penetrated four Miles bey[ond]

Navy Board East'n Department

Boston 3d March 1779

*Sir*

We received yours of the 23d Ulto. inclosing a remonstrance made by the Officers of the Confederacy respecting an Allowance for their board. We have had the Matter under consideration and find no provision was ever made by Congress for any such Expences more than four dollars per week while their Ships are in ordinary in lieu of rations Notwithstanding in this particular case we are Consenting that you pay them a *reasonable Sum* for their Weekly board until the Ship was in a Condition to receive them on board deducting any rations either of Provisions or rum they might have received in the time In their relation they say shall be content with their Subsistance money of 4 dollars per week and their rations which will amount to no more than 16¼ dollars per week Yet if they are paid Something more We shall not find fault.

The Indent for Stores Slops etc. for the Confederacy was Completed the beginning of last week and sent to

*Dear Sir*

I acknoledg the rec't of yours of the 23d of Febu'y I sincerely wish Capt'n Harding would listen less to the advice of his Officers, and act more of his own Judgment, fixed upon the Rules and Regulations of the Navy as by Congress Established, for be assured the more he gives into these Humours the more they will inroach upon his prerogative. I have prevaild with the Board to come to a Determination respecting the Officers board as you will see by the Letter that accompanys this, and I advise you if at a loss at any time about the Matters that relates to Officers of the Ship her furniture or Stores to take the advice of the board for your Rule it will perhaps prevent some Dificulty in the Settlement of your acco'ts hereafter.

I can buy you Eight hhds. Rum, but is Dearer than it was three weeks agoe, however I belive it can be bought for 50/ or thereabouts. if you desire it I will Immediately purchase them upon having the money or assurance of the same. JOHN CHESTER TO JOSHUA HUNTINGTON.

HARTFORD 10th April 1779.

*D'r Bro'r*

I this minute hear of a members being on his way home through Norwich, by him must inform you that I surely believe it utterly impossible for me to procure you 20 Bushells of Corn on the river. The Assembly have been thinking on ways and means to know the Quantity on hand in the State and distributing it to the poor and Supplying the Army. But they seem at present undetermined and wavering in the matter. Should a Secreting take place I think it probable a quantity might be bought. But I am the worst person in the world to purchase it as every one thinks I raise enough for myself and neighbours and therefore have no occasion to buy it. But if I thought it probable it could at present be procured I would employ some proper person to purchase for me. I have enquired of the members on the East and West side Windsor, they tell me, tis impossible to procure it there which is the most likely place I know of. The seeds you shall have such as we have which are but few, as our Roots we set out for seed rotted in the Ground last year. I expect some Cellery seed of Bro'r Webb, who is not now at home. That is a late article and if you have it some weeks hence it will be soon enough. You have heard by Capt. Ingraham and Mr. Fanning that the Plank and 4000 feet Pine Boards have some time been ready for

for you. Capt. Ingraham had not your Order to take them on board and got his load without them.

If I have not answered all your Letter of 26th ulto. tis because I am from home and in great haste The Salt you mention to be exchanged for Corn Ingraham told me nothing of nor delivered to me: A Hh'd he had which was stored at Hartford Supposed to be for Col. Pitkin Father Huntington has said nothing to me about it. Your Letter never Came to hand till after Ingrahams departure.

With Compliments etc. etc. to all freinds I remain as ever your Affectionate Bro'r

JOHN CHESTER.

If within 6 or 8 days you Could send me a few Cions of good Winter fruit it would be very acceptable. If you do please to Bundle them and write what sort they are.

Mr. Luther Smith a Teamster that Carried a Gun from hence for the Ship Confederacy, Complains he has not been

paid for the Carting the same, but says you have order'd him to this Office for pay at which I am surpris'd when you well know, the freight has always been paid at the Delivery of the Goods. there has not been one farthing sent to this Office this 12 months and you have had Sundry Large sums remitted you had I rec'd Effects I should have expected then to have paid the Carting but I have only the Trouble of procuring Teams here to forward them along to Norwich. You must therefore endeavour to satisfy the Teamsters by some way or other for there is not one farthing in this office to pay any Expences whatever I am in behalf of Daniel Tillinghast Sir yours etc.

*Sir*

We received yours of the 8th Instant and have Agreeable to your desire paid Mr. Huntington Two hundred pounds and shall Endeavor if in our power to honor your bill in favor of Mr. Tilley when presented, but you are to Consider our Situation as well as your own, from your knowledge and Experience We are to Expect such Consideration. We make this Observation because your Letters frequently seem to convey an Idea that we are backward in giving you the Necessary Supplys. We are you must know frequently very Short of Money and far from being able to Supply the demands of the Several Agents, as well as a great variety of others which we are continually Subject to. We are very Sorry that you are prevented from pursuing your private Concerns, and you may rely on Our readiness to do you Justice as soon as it is in our power, but sooner than it is in our power you have no right to Complain of us for not doing it. It seems to us that the regular way is now to Exhibit your Accounts which we will Attend to and Settle as soon as possible, and pay the Ballance as soon as

we are in Cash. That your people should refuse to render their Accounts till paid Appears to us very Extraordinary, perhaps their Accounts till paid would not be proper Articles of Charge in your Accounts but they might furnish grounds of an Estimate for us to supply more money in Addition to the large Sums already paid you. JARED TRACY TO JOSHUA HUNTINGTON.

BOSTON May 14th 1779

*Dear Sir,*

Yours of the 9th Inst. came to hand I made the enquiry you desir'd and am inform'd that Tin ware in General is Sold at about Twenty four for one. That Lanthorns have been much higher at 30 or 40 for one.

I thought it not best to purchase your Two Pieces of Linnen when I first Receiv'd your Order, but find I miss'd it in putting it off, as they have rise considerable since and I se no prospect of them, or anything else being any Cheaper very soon. I don't know what is to become of our money, if there is not something very Speedily done to establish the Credit of it; it will not purchase any thing much longer People in General are not willing to Sell their Goods for it now, unless it is where they se some imediate Object to Lay it out in. this is a bad Doctrine to Promulgate, but it is a Melancholy Truth. But I have wander'd from my Subject. I have at lenth purchass'd you two pieces of Linnen at the enormous price of Two hundred and Twenty five pounds for the Two. I was really at loss whether to purchase them at that Price but Mr. Thomas says he will take them if they don't suit you. they are pack with Mr. Huntingtons Goods. I wish them safe and to suite you and am D'r S'r Your Friend and very Humble Servant

I was in Connecticut some days ago; where I was apply'd to by a number of Teamsters that Carted Stores, for Ship Confederacy; in order for their pay for carting the same, as they said you refus'd paying them and order'd them to this office for their pay; in Consequence of which I was oblig'd to write down to Coll. Tillinghast who was then at the Navy Board and upon his Application they Told him by no means to pay them as it Intirely belong'd to your department to pay; Since which here is, 3 of the Backus's and 1 Parrish and one Tracey, who Carried Stores for the said Ship, and was agreed with to be paid the same price, one Trott gave which was 24/ as he himself had told some of them; The price I thought was high, but if he did give that it was agreed they should be paid it, now as he lives the next door it can be easily determin'd if he Asserted a falsehood, the matter lays with him and not with me in behalf of Coll. JOHN CHESTER TO JOSHUA HUNTINGTON.

WETHERSFIELD 11th June A. D. 1779.

*Dear Brother*

The last time I wrote you I was in the greatest possible Haste, and am not much better off now. I have thrown my Acc't Dr. and Cr. together so far as I have been able to recollect it, but as to prices I dont pretend to fix them. We both know the going price at time of delivery, but it has been my fortune ever to be in Debt (I believe) since we opened Accounts; and I dont desire to Charge the going prices for articles, in payment of Debts of 6 months or a years standing, when the prices of articles have risen 100 per Ct. I think therefore we must be together when we settle and fix the prices between us so as to do Justice to both. I thought best however to send you a Copy of my book that you may be thinking of it and if you please put down the prices as you think right etc.

I proposed to have Visited my Norwich Friends with Mrs. Chester this Month, but I am all over head and Ears in Business; and having a Convenient opportunity by a Kinsman to wait on her down, I thought it most prudent to [sta]y at home to Plow and hoe. But I hope we shall see Each o[ther be]fore long. I think I forgot one or two Articles in m[y] former Acc't which was an inducement for me to forward this to you now, fearing something might happen by which we might not see each other soon. I paid Rogers £12. for a drum before the Delivery of it. He since tells me he has forwarded it according to promise to the Ship Confederacy. I hope it has not been paid for again by any person on board or Concern'd.

Your Mr. Cleveland has brot in a bill for freeing the Negroes. The Question being put 46 were for it and 42 ag't it. Taxation is not much altered. You will hear the whole of it per father Huntington the last of this Week. He has resigned his Commission as Maj'r Gen'l. I wish he would now Quit the Council of Safety at least for a Season and take his pleasure a little and I should hope he might recover his health again. *Dear Sir*

Your favor of 13 October I rec'd after it had made a Tour of a fortnight, it taken from the Post Office by a Gentleman named Sam'l White who open'd it and finding it directed to Sam Eliot, resealed and d'd it to the Post Master who forgott it again. The last Week was the most busy Season I ever knew, my Brother was ordain'd in and over our Church on Wednesday last. my house was appointed for entertaining the Delegates etc. this kept us in confusion from Fryday preceeding to Saturday succeeding. Thus much for Apology of delay. I am very sorry that provisions cannot be obtain'd, but we must do the best we can, it will not be so difficult to procure them, with us now, as when you were in Boston. Cannon continue rising. if an opportunity presents of doing any thing to advantage in the method I propos'd, I shall esteem it a favour to have the earliest intelligence, and shall be happy to do you any favor in return. Several times I have been to Mr. Bumsted's Chaise house and Store but was not fortunate enough to find

him. Mr. Fowle Chaise Maker and Mr. Osborn painter give it as their opinion that such a Chaise would be about £900 or £1000. Oyl at present is from 18 to 24 Dollars per Gallon. it is my Opinion that Oyl will be higher. As soon as I can see Mr. Bumsted, I will give you Opinion. ROBERT MORRIS TO THOMAS MUMFORD.

PHILAD'A April 25th 1780.

Sir

I have just received your favour of the 12th Inst. whereby you make me an Owner of One Eighth part of the French Ship, which is very agreeable to me, altho I confess to feel a repugnance on Account of reducing your share to a smaller amount than you wish to hold and am really sorry my first letter did not reach in time to prevent the Sale of the  $\frac{1}{8}$ th first intended for me. you will see by my letter of last Week that giving up the expectation of this Concern I then disposed of some bills I had procured on Boston in order to make you the necessary remittance. Whether I can procure any more I cannot tell, but as I am determined to accept this Concern *in order to try our luck together*, I must seek out the means of making you remittances and it shall be effected with all the speed, that is possible, as to any allowance to be made for depreciation I wish you had named your expectations on that point, for I shall not be averse to doing what is reasonable. how the depreciation has gone on with you during the period you mention I do not know. it has not been considerable this way during that time and is now rather going the other way owing to the extreme Scarcity of Money which is become so universal, that the Merchants dare not sell their Goods on Credit and the dealers have not ready Money to pay

consequently prices begin to lower for ready Money and Gold is now offered Current for Sale at a lower price than it was last Week—these circumstances I mention for your information and not to avoid any reasonable or just allowance that the circumstances of this transaction entitle you to. Perhaps the most agreeable mode of paying you the first Cost of my Eighth part of the Ship may be in bills on Europe I have some that Cost me Nine Continental Doll'rs for every Livre Tournois and some people are striving to obtain Ten but I think the Scarcity of Money will prevent it. If you choose to accept the Amount of  $\frac{1}{8}$ th part of what you paid on Account of this Ship in the Month of Feb'y at Eight Doll'rs for each Livre and the rest at Nine Doll'rs I am Content to pay you in that way and to prevent delay I enclose herein some first and second bills as mentioned underneath Amounting to Livers .17428.11.0 for which you will credit me if you accept my offer, informing me the Sum you so place to me credit at Eight Dollars and how much at Nine the third and fourth bills shall be sent when I receive your Answer. shou'd you decline this offer and prefer receiving Money, you may draw upon me for any Sum you find necessary and the bills shall be paid, but if you cannot command Money for drafts and decline the bills I will remit you on receipt of your answer either in Money or bills on Boston, and in that case I must request you will remit the bills now sent, the 1st and 2d by different Conveiances to Messrs. Le Couteulx & Comp'y Banquiers a Paris, for my Account desiring them to recover payment and to hold the Money Subject to my order, but I imagine you will receive these bills as an acceptable remittance and think the price I put on them a full Compensation for Depreciation. I am Sir Your Obed't hble Serv't

ROB'T MORRIS.

P. S. pray inform me the Ship and Masters Name Shou'd she send any Prizes here I suppose they will be to my address, also at Baltimore where I can do the business in Virginia I recommend Messrs. Benj'n Harrison jun'r & Co. at Osbornes James River.

J. HUNTINGTON TO JEREMIAH WADSWORTH.

MORRISTOWN 5th May 1780.

*My dear Sir,*

You know before this that a French Armament is to cooperate with us this Campaign, but what will be their Disappointment on Arrival to find the Country destitute of Arrangements, Magazines and almost of an Army, what remains of the latter, half starved, half naked and without Pay. I assure you I have Apprehensions that our good Allies will stay long enou' to cast upon us a Look of Chagrin and Pity and turn upon their Heels. if it should be the Case we are not to expect another such friendly Effort. should they stay awhile, will not the Avarice of the Country by demanding three or four times the former Prices, soon discourage them. when are we to be reinforced, the Languor of the Country creates a thousand fears. is it not a possible Thing to revive the Feelings which pervaded every Breast in the Commencement of the War, when every Man considered the Fate of his Country as depending on his own Exertions.\* indeed we must not neglect this golden Opportunity of terminating the War. the Means are undoubtedly in our Power. what will it be for a Town to raise a subscription sufficient to make it the pecuniary Interest of twenty or thirty Men to engage for the Campaign, for the War would be vastly more eligible—at any Rate don't fail to let us have the Men required and as early as possible that they may at least be taught the first Principles of Discipline. the service of this Campaign may demand higher Discipline than the Troops have ever yet been called to. we shall get N. Y. at the hardest, if at all. if we fail—we must not fail, indeed we must not, you know we must not.

---

\* Comte de Rochambeau writing to Comte de Vergennes July 16, 1780, says: "Send us troupes, ship, and money; but do not depend upon these people, nor upon their means; they have neither money nor credit; their means of resistance are only momentary, and called forth when they are attacked in their homes. They then assemble for the moment of immediate danger and defend themselves. Washington commands sometimes fifteen thousand, sometimes three thousand men." *Battles of the American Revolution*, Carrington, 504.

Since I began this Letter I hear you are on the Committee. it gives me Pleasure. I will try to hope every thing from my Countrymen. I could add a great Deal for I feel a great Deal, but I need not, as your own Sentiments have already anticipated whatever is just on the Occasion. I am, my dear sir, Your affectionate Friend

RUFUS B. ABEL TO JEDEDIAH HUNTINGTON.

CAPE FRANCOIS April 6th 1782.

*Honnor'd Sir*

The Situation of the American Seamen prisoners in Jamaica is really shocking, where they are thrown Promiscuously into prison, and kept in that horrid and infectious confinement, till famine and every concomitant Distress

Obliged them to engage on board Ships of War and Merchantmen, or inevitably perish where they are, as there is not the Least provision made for them here, nor no Exchange from America.

All the Enemy captur'd by Americans and brought to this place are Exchang'd for french prisoners, by which means all hopes of Relief are cut of from our Countrymen, and they Left to make their Escape (of which there is but very few instances) or Except the Alternative Above mentioned, all which Cases and Situation would be easily Remedied, had we but an American Agent here.

I am now Established in this place in Company with Mr. James Dennie a young Gentleman from Boston (and are the only Two Americans Settled here) and have had the pleasure to see our Correspondants encrease very fast both in America and the Windward Islands.

Should your Honnor be Led to think my Inabilities Sufficient to Discharge the Duties of that Employment, and your goodness induce you to make use of your influence, in procuring me the Same, you will add one to the many and great Obligations already confer'd on Sir Y'r most Obed't and very Hum'e Serv't

*Dear Sir,*

We have made Enquiry after Onions and find they will be Ready Soon. we will Endeavor to have the Quantity wanted for the Mercury at New London by the 20th Inst. You will therefore Calculate your fixing the Sloop Accordingly; the price of Onions is not Broke yet. Believe they will not Exceed 4d, but if Purchasers are Scarce they will not be higher than 3d or 3½d. We think one pair of Guns, with wooden ones would be as well as to have Two pair of Iron Guns, as we Cannot make much Dependence on Resistance.

You will Consult the Concern'd at Norwich and as they Determine will be Agreeable to us; We think the Cape would be a Better place for a Voyage than Havona.

We will Send Down a pair of Six pound Coronades if you want them for the Sloop. We are Y'r Verry Humble Serv'ts

*Dear Bro'r*

Your favor of 1st Inst. per Mr. Coit is received with many thanks for your attention in the business. I post-

poned writing you an answer till this Morning hoping Mr. Webb would be home from Boston, but he has not yet arrived. Was in hopes to have procured those articles at least some cheaper. They still appear to me to be very unreasonably high considering the scarcity of hard Cash. The Chairs we will have, but as for the other articles it will make no material difference whether we answer you now or by next opportunity which cannot be long first. If we can procure them *Cheaper we shall*, and I think we *can*, unless Mahogany is much dearer than I am aware. Huntington has rather raised the price of Bureaus. I understood you he asked £7 for one swell'd and trimmed. £6 is certainly higher for a plain one without trimmings. You shall hear more from me soon on this business. When do you bring up Mother Huntington and Sister Hannah? we have been encouraged to hope such an event would have taken place before now, do not disapoint us. I should have sent you the salmon by Carew but he did not come up farther than Middleton. Should be glad of the rum and salt as soon as you can make it convenient. You did not mention any thing about the Sugar, by which I suppose your vessel has not arrived or if arrived has Bro't you Money. Mr. Broom mentioned the matter from you of Rareripe Onions. I have very few of them now worth sending. I believe you mistook me with regard to this first Crop. I do not recollect ever having mentioned to you that I had any of them. The 2d Crop I shall have in plenty and they shall be much at your service.

ROBERT MORRIS TO THOMAS MUMFORD.

Marine Office PHILADELPHIA July 12th 1782.

Sir

I have received your Letter of the 17th June and have been waiting for Captain Barrys return to reply to it.

I am much pleased with the attention which you have shewn in furnishing Supplies for the Alliance\* but am sorry that your advances on that account should have occasioned the Distress which you complain of. I have paid your draft in favour of Captain Barry for eight Hundred dollars and with this you will receive a remittance from the Paymaster of Five thousand Dollars in my notes on Mr. Swanwick which Mr. Merrill will take up by giving Money for them agreeable to my request contained in the inclosed Letter.

As a Sufficient Number of Men have been sent on from this place to complete the Compliment of the Alliance there will be nothing to prevent her sailing after Captain Barrys Arrival, therefore you will be able to close your Accounts of Supplies which I request you will do and transmit to me

\*Continental frigate John Barry, captain.

with proper Vouchers both of Payment and Delivery which are necessary and I shall immediately afterwards remit you the balance. I am Sir Your ob't humble Serv't

ROB'T MORRIS.

P. S. Since writing the foregoing I have received your letter of the 1st instant in which you advise having drawn in favour of Major Peirce Butler for thirteen hundred and Ninety Nine Dollars and  $\frac{1}{3}$  which I shall pay, altho I do not approve of bills being drawn upon me in that way. I wish you had mentioned the Amount of your advances as captain Barry cannot give me any information on that point and for that reason my present remittance is made by guess.

I am led to think from the complaints in your letter that it is not Agreeable to you to do the business of the Public Ships. I should be glad to have your Sentiments on that head.

R. M.

BENJAMIN HUNTINGTON TO ANDREW HUNTINGTON.

PHILADELPHIA July 13th 1782.

*Sir*

I Rec'd of Letter and Papers Inclosed and laid the Same before a very Canded Committee who Reported that as the Account appeared to be settled by Col Trumbull the same be laid on the Table, which indeed was the fate I expected it would meet with. Congress in the year 1780 on a Long Debate Refused to Reconsider Accounts, once settled in Continental Money upon Principle that a Debt being once extinguished by Payment with Consent of the Party no further Demand in Law or Equity could Remain, and furthermore that a Reconsideration of Matters of that Kind would be needless and Impossible Another Difficulty in your Case is that Congress cannot settle with Individuals who Contracted with the Heads, or agents of the Several Departments this would likewise be an Endless Business. It is a great Pity your Account is Closed in the manner it is. By the Resolves of Congress\* of the 26th of August 1780,

\* See *Journals of Congress*, VI. 175; VII. 55, 102.

16th of March and 22d of May 1781 Rules are Given for Settling with the Creditors of the United States for Supplies furnished the Army. If Col Trumbull has it in his Power he will certainly make the Just Allowance.

No public News of Importance but what appears in the Papers.

Congress are informed that the Interest of Continental Loans can no longer be Paid in France the Holders of Certificates in this City have met and Petitioned that another mode of Payment may be Provided and that the Interest of Monies Loaned since the first of March 1778 may be also Paid. The Matter is yet in Agitation. I am with Esteem your Friend and Most Hum'le Serv't

It is with Infinite pleasure I Imbrace the Earliest opportunity to acquaint you of my Safe Arival with my affectionate Famaly, (who I found all well),—and to thank you for your kind attention and Very Polite Treatment while I was with you at Norwich. Assure yourself I have a grateful Sense of it, and that whenever Business or pleasure shall cause you, or your Friends to Travel this way, it will

afford me Particular Satisfaction to Return the favours. The Trade of this place has met with many severe Strokes, tho some Vessels have Arriv'd Lately, and a Number at Baltimore, which Raises our Drooping Spirits a little. we have Not given over the hopes of peace, but are Confident it will take place in the Course of the winter, as I have it from *pritty good authority* that the Negotiation is Still going on, and we momentarily Expect to hear of the Evacuation of Charles Town. perhaps they may Totally abandon the Continent before winter. these Reports, and Expectations, throws Commerce into great Confusion, and obliges us to Deal with precaution in all things. Enclosed you have the most Correct price Current we can at this time furnish, as things dont Continue the Same for three days together. I should be happy to hear from you when you have Leasure, and opportunity offers, and if you have no fixed Conections in this place, we should think it an Honour to be favour'd with a Correspondence, and Doubt not but in some future day some plan may be adopted and pursued to our mutual Emolument; the one you was mentioning we think would be a good one, and we have known it pursu'd to great advantage. this Comes by Jesse Brown who is frequently passing between here and your place that we can Easily make you acquainted, with all matters of Consequence that Transpire in this Quarter. Mr. Hewes (with Whom I am Conected) Desires to present his Respects to you tho unknown,—he is a gentleman of Establishd and Respectable Charecter and great goodness of heart. We wish not a Very Extensive Conection, but a few that are good in Each State, and hope to be no further known than Respected. Please to present my most affectionate Regards to your Amiable Lady and Darling Daughter,\* with all your agreable and Extensive Conections.

the Fortune of begining the World with a handsome Intr-est; but the Misfortune of Setting out in the World without the Salutary Advise of a Father. To his first Setting out in the World perhaps may be Atributed a Series of misfortunes to his Intrest, which Still hang upon it, and I conclude will Render the Same Insolvent. I was with him in his Sick-nes and at the Time he breathed his Last, his Disorder deprived him of his Reason, So that he was onely the Specktacle of his Friends and a Distrest Family to Shower down there Tears around him. A large Family of Small Children most of them to Young to be Sensable of their Loss presented to me a most gloomy Prospect. I wish you now to send for the Corn I gave you some encouragement to send you some time since, for really if you do not soon it will be gone past redemption. If you have a vessel coming I will thank you to notice Mr. Coit or Howland of it and they will send me some sugars. And if you could also at the same time forward me a little rum it would oblige me.

How stand the Smithites and Anti Smithites with you. The impudent dog is writing sarcasms on the Mumfordites to his friends in this quarter. I am sorry to find that people trade with him so freely, even those that are against him. If all were of my mind he would keep his goods for I would sooner wear Ruffles without any shirt (like an honest Frenchman) than buy one of him or of any one who bought of him. Perhaps I c[arry] it too far, but I am not convinced of it yet. The measure of [ ]mitting him has given universal uneasiness throughout all the Western Towns. Town Meetings have been convened in consequence and spirited resolutions entered into. This must

jolt some folks out of the Saddle. I am anxious for fear the right will not come in. O. W——t is much talked of in N Haven County I hear, and S Hun——n and R L——w as 2d in Command.\* If there must be a Change I like the above proposal. N Haven swear that Sugar Bille shall not be G——r——. I Wish he had been a Smithite.

I was pleased to see the Orthodoxy of our Bro'r Eben on his return. He had like to have got himself into sundry scrapes on acct. of his Zeal ag't Smith.

Bro'r Jed writes me of a terrible conspiracy lately detected and suppressed in Camp, and set on foot by some Officers, scattering papers shewing their belief that the Country determined not to do justice to the Army and proposing very rash and unjustifiable measures for Redress. The Commander in Chief was amazingly agitated. But by his spirited Exertions joined with those of the General and field Officers the direful plot was overthrown. We must do the Army justice. Mr. Morris's\* Resignation I fear will be attended with terrible Consequences. We do not support him as we ought, nor any of our public servants. Our Constitution wants Energy and unless it soon has it we shall inevitably sink into Anarchy. From your Affectionate Bro'r

GRENADA July 20th 1783.

To Owners of Sloop Lydia

*Gentlemen*

You have undoubtedly heard that the Day I left New London I was oblig'd to Anchor in the Sound, as it died Calm; next Morning I proceeded to Sea, Wind at S. S. W., and on the 11th Inst. after a Passage of 26 Days I arriv'd here, my Horses in good Order (Circumstances considered) but their Provender nearly all expended. I found the Island under French Government; but in daily expectation of being Altered, which lessened the demand for Horses, as a great Number of the French are preparing to quit the Island, and are selling off their Horses, and Since the Peace Horses have arriv'd from England for almost every Estate on the Island. From those Circumstances, having but  $2\frac{1}{2}$  Bundles Hay, and Hurricane Months very nigh, I thought it not best to attempt to retail them, and am confirm'd in my Opinion, as the Gentleman who bo't them has expended all the Hay and Oats and sold but 2 Horses. I sold my Horses at eighty two Dollars a Head; But my Inboard Cargo is in no demand, as Crops are over, and the Island full of Lumber and provisions. Capt. Bishop in a Ship from New Haven sold his Cargo consisting of ab't 100 Thousand Hoops and Staves here for eight Dollars per M. and sail'd but a Day or two before my arrival; others have sold as low as 50/. but I have sold my staves (to a Capt. of a Ship for Dunnage) for twelve Dollars per M. and last Evening sold my Hoops at Nine Dollars, hav'g never before had more than 36/ offered. My Fish are still on hand; but the Man who bo't the Horses has engag'd to take them off my Hands at some Rate or other. Rum is here at 3/ and a Joe for the Cask, Sugar from 40 to 45/, Molasses has been at  $\frac{1}{2}$ , but there is none to be had, Coffee at 16 to 18 sols Cocoa @ 12 sols, Cotton @ 2/. I shall take the principal part Rum, tho' expect to take some Sugar and some Coffe. I have fill'd my White Oak Water Casks (those that wou'd do) with Rum which will be a saving. The Duties

here I am told is about 10/. on a Hhd. Rum and 40/. on a Hhd. Sugar which is very high I have now twenty one Hhds. Rum on board for the Owners, and expect to receive the rest of my Cargo and Sail in two or three Days, if I meet with no disappointment; but I have thoughts of touching at Bermuda, as it will be very little out of my Way, and I have certain Accounts from there that Rum was at a Dollar by the Hhd. a very little time ago. If I can get  $\frac{3}{4}$  of that Price shall think best to sell; at any Rate shall not stay there more than two or three Days, and hope my Speculation will meet with your Approbation. As to the Sloop she leak'd very much on the Passage; but is very tight since we got the Cargo out; We have not discover'd her to be one of the first three for sailing owing (I believe) to her not being in trim. But her motion in a Sea peculiarly favorable to the Sails, Rigging, and Stock, I never saw a Cargo less bruis'd or Chaf'd; she is very stiff Steers and works well, and is a very good Vessel. There is a prospect of a very fine Crop next Year, as it Rains almost continually. had it been otherwise I shou'd been ready to sail by this time. There is no News here, and I have no more to write, save to wish you better success in future, and to tell you that I am with Sentiments of the greatest Esteem and Respect Gentlemen Your most obed't Serv't

PETER COLT TO JOSHUA HUNTINGTON.

HARTFORD Oct. 10, 1783.

*Sir,*

Your fav'r of the 6th is before me. I should have answered it by the bearer; but a few hours after it came to hand I rec'd a message from Capt. Burnham, to meet him at Middletown the next Morning.

I had proposed to load the Ship with Wheat and Flour for England; but the late Proclimations of the British King renders such a Measure unadvisable. I know of no other voyage that we can now make, but that of a load of Seed and Lumber to Ireland; with Some Pot and Pearl Ashes if they can be had. with this view I have directed Capt.

Burnham to reserve for you 700 Bush. Salt, which you will please send for and Exchange for Seed. we give measure for measure here—suppose you can get it on as good Terms; perhaps better. I shall depend on your getting Cask for your Seed, and having it cleaned fit for shipping. I wish to know if you can engage more cask; and on what Terms you can get Seed Cleaned and put in order for Shipping, supposing it should be shipped to you from hence in bulk. please be particular in this Matter. If you can procure more seed than 700 Bush'l I wish you to send and get more Salt; but not otherways, as the salt will command seed here. you will please secure all the pot and pearl ashes you can for me.

If your health will permit, pray go down and see Burnham, and determin on the mode of altering the Ships Deck etc; and see if its necessary to close up her Ports with Plank. If corking them in, and covering them with Canviss would answer, it might save great part of the Expence of altering her; and should she go to Ireland and take a load of Passengers for America, it would be very convenient having her ports to open in good weather.

I am in treaty with a Gen'n from Phil'a to sell or charter the ship; but as its very uncertain whether he will come to my Terms, I must request your going on with your Matters as if no such thing was in agitation. as soon as Capt. Burnham sends me the Dimentions of the Deck, shall get the plank sawed by hand and ship them to you.

The Inclosed Letter you will please forward.

Accept my Congratulations on your recovery. I am  
Sir Your most ob. serv't

ELISHA LATHROP, JR. TO THOMAS FANNING.

PHILADELPHIA Sunday Oct'r 12th 1783.

Owners Sloop Lydia,  
*Gentlemen,*

This informs you that I left New York this Day Week, and had a pleasant Passage, at 10 o'Clock Tuesday Night I

Anchor'd about 28 Miles below this City, same Night came on a very violent Gale from E. N. E. to N. E. which continued all next Day and most of the Night. however we rode it out without receiving any other Damage than Stranding our small Cable, so that it must be spliced. The next Day we arriv'd here; but found that Mr. Tracy had purchased no Salt, as I order'd him to purchase Rock-Salt, which he cou'd not find in the City; but I have been able to purchase about 500 bushels Turks-Island Salt at  $\frac{2}{3}$  and the remainder of my Cargo of St. Ubes Salt at  $\frac{2}{4}$ , it is a little finer Grain than Turks-Island; but much whiter and is prefer'd here to all other Salt for curing Pork or Beef. I have taken on board about 1000 Bushels yesterday, and shall take the rest tomorrow Morning and go down the River in the Afternoon Wind and Weather permitting; imagine I shall be able to carry about 1600 bush'ls for Cargo. Capt. Wattles arrived in the Bay before I did and in coming up I saw him aground on a Shoal call'd the Cross-Ledge, it being young Flood and the Brig upright I expected he wou'd get off soon; but hearing he had met with misfortune I call'd on Messrs. Marshalls Yesterday to inform them of it, who had just rec'd a Line from Capt. Wattles which they read to me, he writes that by the Fault of the Pilot he had been run aground, in getting off lost one of his Anchors, afterwards drove from the other Anchor, cut away his Masts, the Brig struck, he soon found 3 feet Water in her hold, it was (I think) about 15 Hours before they got her free; but that he had since got into Reede Island with all hands on board and  $2\frac{1}{2}$  feet Water in his hold, and requests Craft to take out part of his Cargo which he thinks is not damaged. they were immediately going to send to his relief. You'll please inform his Owners to whom I shou'd have wrote, but Messrs. M's told me they shou'd write them immediately. Min heer Van Berkel the Dutch Ambassador is Arriv'd in the River in a Sixty Four Gun Ship, attended by a Frig't and Sloop of War, a Fifty which sail'd with them is not yet arriv'd, and his highness has not Landed. The Congress have fix'd their permanent residence

at or near Trenton, New Jersey engag'g to build them a House, which is not very pleasing to this City. The sloop seems to be much tighter than last Voyage. I am Gentlemen Your most obed't Serv't

ELISHA LATHORP JUN'R.

P. S. please let Mrs. Lathrop know my Situation, for as I expect to be at home soon shall not write her this time.

Yours as above,

*Sir*

After Eight tedious Years, spent in War and Husbandry, from public and private necessities, in Exile, painful tho patiently boren, I have once more the long hoped for happiness of a Restoration to peace and home in N York, prepared for that Business that I was early taught and that is most agreeable to me. Of this I take the earliest opportunity to Inform my Friends, Offer my Service, and Request their commands.

I am now in possession of Mr. Peter Vandervoorts House and Stores, Noted, Spacious, and convenient for every kind of Business: and as my prinsaple object (at least at present) is the Commission business, they will be devoted to that use chiefly. The plan on which I mean to do Business now, will be the same that was persued by Mr. Vandervort and myself before the War (to witt)  $2\frac{1}{2}$  per Ct. for American and 5 per Ct. for European Business, and in the meantime I will endeavour as fast as possable, to reduce all other charges, that are yet too high here. My connections and acquaintance with this City and the Country adjacent, will give me a material advantage, both in the Sales of foreign Goods and purchase of our Staples etc.

Any Business you will please commit, or recommend to my charge, you may depend shall be executed with every mark of attention and exertion for your, or your Friends Interest. I am, with much Esteem and Respect Sir Your Most Obed't Serv't

JEDEDIAH HUNTINGTON TO JABEZ HUNTINGTON.

*Hono<sup>d</sup> Sir*

I've just rec<sup>d</sup> three Letters from you & Joy to hear ye Family are well, am Sorry for ye Loss ye Company has met

with in Capt Perkins, but sir as we are all thoro'ly Sensible y<sup>t</sup> divine Providence disposes of all things for our best good I hope we may not lay this Temporall Loss too much at Heart, but study y<sup>e</sup> will of God herein & make due Improvement, of all his Despensations, for whoever allows y<sup>e</sup> existence of a divine being & the future State of Rewards & Punishments, must act very absurd to Judge a Mans Merits by his Successes. Nothing less y<sup>n</sup> infinite Wisdom Can have an absolute Command ov'r Fortune. the highest Degree of Wisdom y<sup>t</sup> Man Can have is by no means equall to foresee what future Events may happen in y<sup>e</sup> Prosecution of Business, to aim at what is most likely to succeed & follow closely y<sup>e</sup> Dictates of Human Prudence & trust to a higher being y<sup>e</sup> Event, becomes a Christian & here arises great Cause for Contentment, since man is so short sighted, y<sup>t</sup> there is a beng of Excellent Goodness & Wisdom on who we may rely as to y<sup>e</sup> Disposal of All things & to whom we Look for Patience in Adversity, a good Use of Prosperity, y<sup>t</sup> in all things we may look to y<sup>e</sup> Glory of God & our final Happiness.

Nothing New to write you at present, hope you'l Embrace all Opportunity of writing to me, who remain your obliged & Dutifull son

In my last Letter I wrote you I wish'd you well Home  
But had'nt the Pleasure to hear of it But aggravated with  
the Sorrowful News that my Uncle Zech<sup>h</sup> Huntington is no  
more. An Accident so alarming almost o'er Came me, but  
the more I think of it the more am I afflicted, as I view  
it attended with very aggravated Circumstances upon  
Every Reflection of my Uncle when Alive,

When I Reflect upon the Pleasure & Delight I tooke in his Company and Conversation & when I Reflect upon the Pleasure he took in giving his Advice to me, wherin he always seemed interested in my Welfare, I Cant think of parting with him, but I must, & Gods will be Done My Sorrow alone is not my only Care, but sir I am griev<sup>d</sup> for you who have lost so Loving a Brother & so sincere a Friend one who Loved you as a Brother ought & Studied your Welfare, as 'twas so nearly Connected with his own. My Loss & your Loss are both my Affliction & how Shall I bear it without the most pungent Grief & Sorrow for my Sin & Wickedness, & I pray to God I may look on these Dispensations as Tokens of his Displeasure.

Had his State in Life been but ordinary & his Person no way allyd by Kindred, his Death ought to be a warning to me; but when his State in Life was such as gave the most promising Hopes of his being happy as this world Coud make him, who was likely to Enjoy a Great Share of Worldly Goods, as well as high in the Esteem Of all who were acquainted with him; who was likely to be of Great Use & Service in the Society of People where he belongd, under all these Circumstances what A Striking Instance is this of the frailty of things below & the incertanty of the most promising thing; may we Realize these things well, & morn for our sins, which have brought these Afflictions upon us, Nature Demand that we shoud sorrow for such Losses, nor is it Contrary to Religion & the fear of God; but let our Sorrow be not too Great least we argue a Distrust in God who is able to do abundantly for him. I urge this because I'm afraid you will take this Loss too heavy upon you.

Althou' sir I'm surrounded with Gay Company & the Delights of Life Yet sir I'm not so brutal as to look upon this Instance of Gods Displeasure without regarding it, but far from that I see from whence it Comes & pray for his Assistance that I may make a Good Improvment of the Same; may his Mercies and Afflictions work me to a Re-

pentance which throu' the Interest of Jesus Christ I beg for  
your Prayers that I may obtain from your ob<sup>t</sup> son

them all by this. In you last you inform'd me of my Sis-

Great Affliction I was under on my Uncles Death. Both  
which under so many Circumstances, are Repeated and  
awakning Instances of the Frailty & uncertainty of all  
things here below, and ought to be looked on by us so  
nearly concern<sup>d</sup> by Kindred and Affection, as earnest  
Calls of God for Repentance and Preperation for his Will  
and Pleasure, whenever it be his will to Call Us out of this

I beg for your Prayers for my Good Improvment of

The Special Business of this Letter (After sending my Duty Duly to You) is to Inform you of Some Hostilities that have been carrying on in my Absence, of which I shall Give a Detail as far as I Can Judge from Effects. A Number of Rats of the largest Size (Several of which I have seen) have made an Open & free passage throu' the Sealing & wainscot into my Study, and I Conclude in the first Place devoured a Quantity of fine Shagbarks I had which stood in a Cask, & After their Subsistance faild here, they knawed a Hole (as hard as it Wass) in three Different Corners of the Lower Draw of my Desk where were a few more Nuts & four dirty shirts All which they have intirely consumed & Destroyed Save the Sleeves of one of the Shirts & Ruffles of another, there was a p Long Trousers here But as they were Coarse & Clean they didn't suit so well as what they found in the next Draw to which they proceeded by squeezing their Way throu' a Narrow Vacancy between the End of the lower Draw & the Back of the Desk; here, two Dirty Necks & an old Hair Bag happily Saved a Clean Shirt & Number of Clean Stockings from the like Sad Misfortune of falling a Prey to such ravenous Captors, this Save Eating a few Pairs in the third & Some Quils in the fourth Draw (for they wan't satisfied till they had seen the End on't) wass All the Mischief they did, & All they shall Do if my Greatest Asseduity Can prevent thir further Excursions, how ever fruitless my first Attempt proved, Exasperated at my Loss I went directly & Got me a Cat, well recommended for my Purpose who wass by Coaxing & feeding Contented to stay with me 'till about Midnight she waked me by a Great Noise at the Window But it soon Ceased & I went to sleep Again, in the Morning I found she had Broke two Quarrys of Glass, Jumped out of the Window & Gone off where I don't know As the little Service she did me I thou't did not Require my farther Care about Her. ## MEMORIAL TO THE GENERAL ASSEMBLY.

To the Honorable the General Assembly of the Colony of Connecticut to be conven'd at New Haven ye 2 Thursday of October next.

The Memorial of us the Subscribers, being the Delegates of the two Counties of New London & Windham, met at Norwich the 8<sup>th</sup> of Sept 1774 humbly sheweth. That whereas the Parliament of Great Britain have passed several Acts subversive of the Liberties of this wide, extended, Continent, and the present Ministry have thought proper to enforce Obedience to those unconstitutional Acts by military Execution, by investing the Town of Boston (the Athens of New England) with a formidable Fleet, and an Army under the Command of General Gage, who is vested with both a civil & military Command, a Commission too great to be given to any Person in a free Country That the Americans should be in the power of a Lawless Army, not under the Control of the civil Magistrate, we humbly conceive is a Situation, terrible beyond Description, What subdued the Roman & Grecian Republicks, An Army not under the Control of the civil Magistrate! What Country? What State? What Kingdom has not fallen a Sacrifice to a standing Army We being extreemly apprehensive that there is just Ground to fear that we shall be under the disagreeable Necessity of defending our sacred & invaluable Rights, sword in hand, for we would not entertain a thought that any American would or possibly could be dragoon<sup>d</sup> into Slavery. We therefore think it our indispensable Duty in the most pressing Manner as worthy of the greatest Attention of your Honors, that the Militia of this Colony be put upon a more respectable footing than they now stand, by revising the whole of our Militia Laws and adopt a different System especially as we have the Example of Great Britain the last War, when an Invasion from France was repeatedly threatned, we are not only threaten'd but the Capital of New England is absolutely invaded and as we may reasonably expect foreign Foe ere Long may turn their Eye & Arm against America, to gain

so very important & valuable a Territory, have therefore infinitely a greater occasion of regulating our Militia than Great Britain had, we hope & earnestly request that your Honors will agree in Sentiments with us & enact a Law similar to that of Great Britain and that five thousand Men at Least be raised, well Officer'd & in every respect well appointed. And furthermore that your Honors will be pleas'd, to grant Commisions to the Officers of Artillery Companys that shall hereafter voluntarily enlist & form themselves for publick Service under proper regulations in Addition to the new proposed Regiments or in some other Way as your Honors in your Wisdom shall think proper and as in Duty bound shall ever pray\*

I wrote You by Post since which Nothing remarkable has occurred. there are daily Flags of Truce between us & the Enemy, chiefly for the Purpose of conveying Letters, but little other Communication; Officers on both sides are much on the Reserve. We are throwing up Intrinchments from the Burying Ground near where Samuel Williams used to Live in Roxbury Street on both Sides of the Way circular to be extended to Lambs Dam on the right not far from Opposite to the George Tavern Ruins, the Ground is much above the Regular Works on the Neck, and as well calculated for our Designs as Nature could have formed it, the Works are in full View of the Enemy and as much exposed as can be but they don't think proper to give any Molestation otherways than by expressing their Displeasure in Words our Parties began the Works in the Night but they are now carrying them on in broad Day light we have been expecting Tokens of their Resentment. Doct Johnson's Ambassy to Governor Gage at this Time has altered the Countenances of the Friends of this Country, they stand amazed; Col: Spencer & others from the Colony had given the strongest Assurances that Connecticut would

by their Conduct verify their high Professions, indeed they looked upon our Colony as the strongest Link in the Chain of our Continental Union, and New York have been the only Colony where a Defection was feared, the late Account from New York give many Hopes as to their Virtue in the Cause, but the Negotiation with which Doct: Johnson & Col: Woolcot is charged has thrown a Chagrin upon the leading Men here which they do not know how to throw off. they are so fully informed of General Gages Character that they are suprised that any Overtures of Accomodation should be made him, there is not the least Dependence upon his Word or Honor. his Treatment of the Town of Boston is wicked infamous & base Without a Parralel. he promised the Inhabitants that they should have leave to come out of Town with their Effects provided they would leave their Arm. he has now accomplished his Purpose so far as to disarm between two & three thousand brave & resolute Men of their Means of Defence who were induced to such a Step for the Sake of their Wives & Children principally & now he is raising a thousand Obstacles in the Way of their Coming out. he now & then suffers a few to depart with a little Part of their necessary Goods. at the Rate they come since he promised they should have their Liberty they will not be all out in 12 Months. the Governour in Council has determined that Effects are Houshold Articles only. so they are forbid to bring any Valuable Goods. but Col: Spencer cannot inform You fully of every thing passing here I am

PROVIDENCE June 13<sup>th</sup> Tuesday one of Clock 75

*Hon<sup>d</sup> Sir*

Mr Trumbull and I and the little Party with us, are just arrived here in Health and Safety as to our Persons and Baggage but not so happy as to our Carriage. we came safe to Fisks about two Hours ago and ordered our Horses a Mess of Provender. whilst I was in the House the old Man took the Bitts out of the Span and then imprudently undertook to turn them round. the Horses finding themselves free of Restraint stepped round with a quicker Pace than the old Man was aware upon which he let the Reins go out of his Hands the Horses immediately set off full Speed and run more than a Mile Homewards before they stopped by which Time they had broke the Curricie all to Pieces. Part of the Iron Work and Leather I hope to send Home by Morgan. they are collected at the House of one Lovells near Fisk's our Journey before this sad Event had been as agreeable as we could wish. but adverse Scenes will have their Place amidst the Prosperous, in the Drama of this Life. it is some Consolation in the Misfortune that our Baggage and Horses are not injured but much more so that no Hurt is happened to our Persons. Father Fisk helped us to a Saddle for one of the Span upon wh<sup>h</sup> Mr Trumbull mounted & left the other to follow as is his Manner. I borrowed a Pillion for my Mare which furnished Sister Hannah with a convenient Seat behind me. the other two took the Chaise. we shall hire a Chaise here and proceed this Afternoon (extraordinarie excepted) as far as Attleborough

I remain your affectionate son

*Hon<sup>d</sup> Sir*

Since you left Home Capt Eben<sup>r</sup> Lothrop Jun<sup>r</sup> has signified to me his Desire of a Captaincy in Case more Men should be raised and that I would make it known to some of the Members of Assembly. he has appeared to be a good Officer as far as I have been acquainted with him. Hemstead the Post Rider tells me he is employed to ride from New London to Woodstock where he waits untill another Post rides to Camp and returns. says he could as well proceed to Camp as to lay at Woodstock whilst another goes, and thinks he could do the Business better than it is now done with less Expence to Government. he says that the Man who rides from Woodstock to Camp goes to Cambridge only so that the Camp at Roxbury have no Advantage of the Communication. I am sorry General Spencer has been disoblged. hope he will not leave the Camp where I think he will do much Service

Brother Eb: will be able to give You the Reasons for his quitting his late Employment in the Army for or in Hopes of one of another Kind. Capt<sup>t</sup> Chester tell me his Lieut or Ensign will not do to succeed Lieut Webb it is likely that Eb: will suit them for a Superior as well as any one. All Uneasiness in this Camp on Account of the continental Arrangement of General Officers is in Appearance at an End. Capt<sup>t</sup> Trumbull is not a little concerned about Flour. he has but little of that Article by him. besides my own Company there is Major Clarks & Capt<sup>t</sup> Humphrys within few miles of Camp and Capt<sup>ts</sup> Jewett & Ripleys not far off and not Tents Barracks or Houses that will hold half of them, they must be lodged so far from Camp as to

make it very difficult to do Duty. Lieutt Kingsbury was taken sick & the Company left him at Killingsly the other Officers & the soldiers are well. there is considerable Sick-ness in the Camp but not many Deaths considering the Numbers of the Army. I should be glad to receive half a Dozen Cheeses if any Opportunity indeed if all the Cheeses which I have by me that are good were here they would do pretty well it is sold @  $7^d \frac{1}{4}$   $\text{p}$  1d (?) I wish my Commission & those for the Regiment not received might be sent to us that we may exchange them for Continental Ones.

but may be not. I perceive by a Letter which I saw from Bro<sup>r</sup> Ebenezer that he Had thoughts of Kingsburys Place in my Company in Case he should fail, but that will not do. Brewster is every Way deserving of it & I would have him have it by all means. I understand the Case is different in Capt Chesters Company his under Officers are not much of military Men. however I hope L<sup>t</sup> Kingsbury will join his Company as he is on many Accounts a very valuable man I believe it would not have been so sickly in my Regiment if the other Companies had been as prudent in marching to Camp as the Officers of my Company were they made good Speed without fatiguing the Men as they traveled mostly by Night & lay by in the Heat of the Day. Yesterday a Deserter from the Enemy swam over to our Guards he says they have a Design to throw up Works Southward of Browns House on the Neck, upon which Intelligence an extra Picquet was ordered last Night but Nothing new has happened. near half of Col: Douglas & Capt Ripleys Companies are sick, not many in any others, have only 4 in my own. Capt Ripley has lost one more his Name is Gross, he has another dangerous his Name is Woodward. M<sup>r</sup> Fanning is apparently getting better, M<sup>r</sup> Phin Tracy is very sick but I think not so bad as he has been, hope will do well. the four sick in my Company are Hartshorn, Edgerton, Durden Perkins & Sam<sup>l</sup> Post who are all getting better. I perceive Bro<sup>r</sup> Eb is not so high in General Spencers Books as some others but I have not yet had Opportunity to discourse with him on the Subject. for your Sake I could wish he might be content to stay at Home but if he is determined to come into the Army I hope he will obtain the Place in Chesters Company, I dont think General Spencer would desire to point out any Man. Whatever we may think of the Enemys Backwardness to a Contest or of their Intention to evacuate their Posts our Vigilance & Preparations are not in the least remitted & I trust will not be. the Seasoning as it is called of my Regiment is coming on fast. the Hospitals provided at Continental Exence are full of Persons & Distemper, I make other Provision the best I can for my sick doubt not what I & the Doctors layout for Bedding & Necessaries for them will be refunded, I have only Doctor Turner to administer at present as both his Mates are sick but getting better I have persuaded Doctor Waldo of Coventry to stay & assist Doctor Turner untill his Mates recover upon the Promise of using my Endeavours that he has a meet Recompence. I wrote You by Mr Brewster since which have none of Your Favours. I wish the Governor & Council would authorise some one Officer or Officers or Doctors or any others to make such Provision for the distressed sick in Camp as shall be necessary from Time to Time to keep them from perishing for the Want of such Means & Helps as the most wretched of them are blessed with at Home. the Provision made at Continental Expende is nothing like adequate to what the smallest Degree of Charity & Benevolence demands. Doctor Cogswell in his great Compassion has run himself in Debt about Fifty Pounds for Necessaries for the Hospital which he could not obtain in any other Way other Doctors & Officers have done more or less in the same Way. some small Matters have been drawn out of the Commissary Store for our sick but more has been procured y<sup>m</sup> at private Expende and after all they have fared but very indifferently I wish none may have perished for Want of better Care. Yesterday Doctor Turner drew on the Commisary here for a Little Wine, sugar & Mutton for the sick & he utterly refused answering his Order. it is with great Reluctance I complain of any Thing in Camp. if it was not for the sick I would not do it by any Means. indeed as it is I desire it may not be much known. but repeated & sufficient Representations has been made to the Director General of the Hospital & to others. I am glad to find you been able to get the Flour down in Season. Doct: Turner & Cogswell have sent a Representation of the Hospitals to the Governor. we are in hourly Expectation of some warm Works commencing between our Army & the Enemy on Account of the new Entrenchm<sup>ts</sup> throwing up on the plowed Field as it is called about one third of the Way from Prospect Hill to Bunkers, however believe our People have got such Footing as that the Enemy will not be able to displace them. some think they will make a Push with small Army if they do I imagine it will be decisive to them if they fail as in human probability they will. When I left Home I expected some material Alterations would have taken Place in our military Affairs before this Time, but Nothing has turned up of great Moment, perhaps we are approaching to more important Events; within a few Days past our Enemies have been fortifying on the Ground near where Browns House stood, and opposite to it on the other Side of the Way; they have had considerable Fire from our Works but as yet are not interrupted in their Designs, they are near enough for our Train to make good Use of Language if they had not already cast up Works to defend themselves from its Effects. their out Centries used to stand at this Place where they are now fortifying, if they get Footing here and proportionably advance their Centries, they will almost meet with ours what are by the George Tavern or Rather where that stood, indeed I believe the Situation of the two Armies considered in all Circumstances is an Instance unparral<sup>e</sup>d in all History, it seems that it cannot remain so much longer unless both Sides observe such a Line of Conduct as Other Armies have been strangers to in their Hostilities. 5<sup>th</sup> was down upon the Lines Yesterday with a Flag of Truce, was met by Major Sill of the Regulars among many other Things which he communicated (as he was very polite & sociable) said that they had no late Intelligence from England, had very lately heard from Canada that the Inhabitants of that Country had determin<sup>d</sup> to assist Gov<sup>r</sup> Carleton but that the Governor had no Disposition to proceed to Extremities with us, that Col: Johnson has had an Interview with 1600 Indians who will join him. when it is considered from what Hands this Intelligence comes, it will have its due Weight; Col. Arnold tells me he has orders from the General to draft 1100 Men to go on an Expedition (secret, thou' known to every Body) to Canada by the Way of Kennebeck. he is to command. the Enemy have not made much Progress in their new Works near Browns House it begins to be sus-

pected that they intend no more than to secure their Centries from our Riflemen of whom they bitterly complain that they are so often popping at the poor Centries, indeed it is a Practice that is not much liked by our Army in general. Six Ships a few Days ago came into Harbour, it was supposed from England, it is now said they are from Nova scotia loaded with Coal, so it seems they are providing against Winter. Bro<sup>r</sup> John is drafting the Incampments & Fortresses of our Army and those of the Regulars which he will send to the Governor. 7th inst<sup>d</sup> Col. I some Time ago mentioned that Lieut Brewster ought to be advanced in Case of a proper Vacancy. as there is now an Opening hope he will have the Place. I have wrote to the Governor upon it. I never was so sensible of the Importance of good Officers as since my late Experience there are many here who pass for agreeable clever Men in common Life that make but an indifferent Figure in the Army they have no Idea of the Dicipline and Government which are absolutely necessary among military Men and they do not know how to lend any Aid or Support thereto but are rather Drawbacks upon every Thing of the Kind. I once mentioned to the Governor by Letter that one M<sup>r</sup>

Newel would fill the Ensignsy in my Company but now there is a Vacancy in Capt<sup>t</sup> Humphry's Company twill be more agreeable for him to come in there as he is better known to them. and I could wish that my eldest Sergeant Mr Eben<sup>r</sup> Perkins might have the Ensigncy in my Company. the Governor informs me that Mr Dyer is provided for so I conclude Bro<sup>r</sup> Eb. will obtain the Place he sought after. Since I wrote You by Mr Wheatly I have had a free Conversation with Capt Chester respecting the Appointment of Bro<sup>r</sup> to his Company, he says 'twould be agreeable to him & he thinks to his Company in general but he does not know how it will set on the Subaltern Officers in the Regiment he was at Cambridge Yesterday and finds that Mr Dyer's Appointment makes a general Uneasiness among the Subalterns in that Regiment but perhaps it will subside upon Mr Dyers filling his Place well. If Mr Simeon Huntington would take the 2<sup>d</sup> Lieut<sup>cy</sup> in my Company I think his Conduct therein would prevent any Uneasiness in my Company or Regiment Capt Chester thinks Bro<sup>r</sup> Eben<sup>r</sup> is in general well liked by the Officers of their Regiment so that his giving close Attention to his Duty will probably silence all Murmurs. however I can't be possitive about these Matters, there are too many in the Army as well as elsewhere that are fond of Mischiefmaking. I feel a little disoblged as to the Consignment of Flour but hope it will be otherways transacted by & by Our various expensive Operations require almost a continual Emission of Money and that of all kinds seems to have a speedy Circulation every where, unless it is in Boston, where some pretend to despise it, one of the Regular Officers upon a Flag of Truce the other Day was saying that they always knew we could raise Men enou' but thought we

never could get Money to pay them, and now indeed they say our Paper Money is good for Nothing, One of our Officers told him that as poor as it is, it will furnish us with fresh Meat & Sauce which their Silver and Gold cannot procure. I am glad my Regiment are like to be together but am sorry the G—— should be so peremptory as to give Offence in commanding their Junction & I could wish my old Rum might fetch an Extra Price at least enou' to make up for Wastage in Proportion to which it has been growing better Price of Rum is three Pistareens of common Kind Molasses no Price good Sugar 50/ or more no Demand for Pork unless in the Army I believe the Commisary does not find so much as he would be glad to as some Days we cannot draw it. there will be some considerable Want of good Cheese as it is an Article of Diet very convenient for the Soldiers to buy. *Dear Sir*

I received by Post your Letter containing the Bills for m<sup>r</sup> Jones. wish the News you have from s<sup>t</sup> John's by the Way of New York may prove true and that the next Accounts may bring the Particulars of an entire Conquest of the Enemy. No Rum except Jamaica will fetch 4/ 2<sup>d</sup> Gallon if present Times do not alter it will be higher as it must come from greater Distances none as yet has sold for more than 3/7½ that I have heard of. I dont know any Thing about Clove Water but will make Enquiry. should have ans<sup>w</sup><sup>d</sup> Your Letter by this Weeks Post, but others to reply to which required a more immediate Return & other Business prevented. as there is no great Prospect of a Cessation of Hostilities, it will be necessary to be making early Provision for another Army & a Winter Compain; the Engagements of this Army are near up & althou' many of the Officers & Soldiers will be desirous of continuing in the Service, many will not, I am told some of the Soldiers begin to count the days they have to stay in Camp. however

I believe most of them after they have been Home a While will be glad to join the Army again. General Spencer intended to set out for Home this Day to be absent not many Days. I remain Your affectionate Brother

Next Saturday Doctor Franklin, Mr Lynch & Mr Harrison are expected at Head Quarters as a Comm<sup>e</sup> of Congress to settle the Affairs of the Army I hear our Governor Trumbull is coming to join y<sup>m</sup> We had last Fryday the warmest Cannonade that we have ever yet had for the Time from our Enemies our Train fired at their relieving Guard and killed a Corporal upon which they gave an incessant Fire for some Time by which one Man lost his Arm but is like to do well & two Cows were killed. a Deserter swam over to us last Night & one the Night before. Major Whiting & Mr Perrit came into Camp this Morning. have seen Nothing of Fathers Teems. the Rev<sup>d</sup> Mr Adams the worthy Pastor of this scattered Flock was buried last Saturday. the Sickness in the neighbouring Towns is decreasing. You have likely heard of the Death of Mr Hillhouse of New Haven & Doctor Porter of Wethersfield. General Spencer's intended Journey Home is delayed on account of Business of Importance. I am sorry Mrss Townsend could not be prevailed upon to go into Boston I am told General Putnam insisted it should be made a Condition that Mr Lovell should have Leave to come out by Way of Exchange, hoping to avail himself of Mrss Townsends Importance to her Friends in Boston so far as to obtain the Liberation of that Friend to his Country. I have heard that Mr Lovell & the other Prisoners in Goal have had their Liberty upon General Howes taking the supreme Command. but since, it is contradicted, and said that they have only the Liberty of the Yard. I do not write My Wife or Father by this Opportunity as I suppose they will be journeying.

I have your Letter by Post give me the sorrowfull News of my dear Consorts ill state of Health, it gives me much Uneasiness to hear of it especialy as I am so distant from her, but have much Reason to rejoice in the Reflection that she is surrounded with the kindest Friends who I know will do every Thing for her I cant but approve the Plan of her going with Mother to Wethersfield. I shall not fail to write by Post every Week and by other Opportunities. I cannot advise M<sup>r</sup> Simeon Huntington to join the Regiment at present. I believe Bro<sup>r</sup> Eben<sup>r</sup> will brave it out & I dont know but Dier will too but I think they both pay dear for all the Honor of their Commissions the Opposition continues as Headstrong as ever thou' with Respect to Eben<sup>r</sup> it is with little Reason upon their main Principle, but now, when they meet with some forcible Objections to their Arguments on that Head they begin to say his age is exceptionable. General Howe's Commission was published Yesterday in Boston as Successor to General Gage who is going to England. As to Sickness in the Country I believe it is not more so near Camp than at a Distance Bro<sup>r</sup> Chester hears that it is very sickly at Wethersfield. I was favoured yesterday with a Letter from my honored Mamma by which I understand my dear Wife remains in much the same indisposed Estate which gives me the greatest Uneasiness and Concern I have importuned my Mother to ride with her to Dedham where I hope to meet them next Week. As to News in Camp we have but little but what is fresher at New Haven than here as most of our Intelligence comes from the Southward. three young Men stole out of Boston the Night before last in a Canoe. they say it was currently reported & believed by our Enemies in Town that Quebec was taken by the Rebels as they express themselves. We hear of great Armaments by Sea & Land coming against us but very little said about an Accommodation. have not we too long flattered ourselves that commercial Measures would have mighty Effects, that the tender Point of Interest would be touched and the great commercial Fabrick disordered and convulsed if not destroyed if any of these Consequences have followed they are by some Jugling or other kept invisible. our professing Friends too in England assured us that the first Drop of Blood spilt in the Controversy on our Side would produce terrible Commotions with them but the Case is far otherwise. the Post calling obliges me to conclude with that I am established in the Righteousness of our Cause. your dutifull

I shall not be content to have her leave me very soon she is, I hope, better than when she left Home, but Mother can tell you all Circumstances. As to Brother Eben<sup>r</sup>, I have had my Mind greatly agitated though have said but little in the Affair. have been hoping all along that something would happen to make the Matter clear. upon the whole I thought it not proper to deliver the Letter to Gen<sup>l</sup> Spencer. I could wish that Eben<sup>r</sup> would be easy at Home but as he will not, I believe he had best to stay in the Army. if he cannot continue in the Regiment where he is I imagine he can leave it to his Advantage as he has had Encouragement of a better Place in one of the Massachusetts Regiments. besides, upon the Forming the new Army which will be in a few Days, Bro<sup>r</sup> Eben will of Course come into some Regiment without any Objection. I imagine his Honor Gover<sup>r</sup> Griswold had his Information from some Person or Persons much prejudiced against Bro<sup>r</sup> Eben<sup>r</sup>. Soldiers are now inlisting under the new Establishment. would you be willing that Dier Manning & Rufus Abell should engage again. Sam will come Home at the Expiration of his Term the 6 of Decr. no Negroes are to be inlisted. Mr Keyes who is now my Sutler has Thoughts of taking a Commission, if he does, perhaps I may give Erastus Perkins a Chance of the Business. I am at a Loss in my Mind whether it would be worth Brother Andrews taking, or whether he could make any Thing & be better suited by joining with Erastus. Tho<sup>s</sup> Fanning stands a 2<sup>d</sup> Lieut<sup>t</sup> under the new Arrangement. congratulate you on the joyfull News from our Army at St Johns. I have your Favor  Post of the 20<sup>th</sup>. am still much encouraged as to my Wifes Recovery. Mr & Mrss Henshaw expect me & all the Brothers in both Camps to rejoice with them & Mrss Huntington on this Day of publick Thanksgiving, but whether we shall go or not are not determined, have some Expectations the Enemy will molest our Festivity. they would be glad to interrupt us at such a Time and now they may be provoked to it as 400 Men went last Night on Cobble Hill to throw up Works that will be very offensive to them if Powder is not wanting. Major Humphry is gone Home sick with a very stubborn Cold bordering upon a Hectick have given You a List of my Officers as recommended & approved but those with a Star prefixed to their Names will fail on account of Sickness and other Circumstances. Officers are going into the Country to enlist. I hope they will have better Success than we have in Camp the Officers & Soldiers are possessed to get Home. I fear our Lines will be but thinly manned. If our Enemies know our Situation, as doubtless they will, they may take great Advantages of us. the Encouragement now offered to Soldiers is not equal to what Our Colony gave, but is more than the Southern Gentlemen think would have been an Adequate Reward. each Soldier has 40/  M<sup>o</sup> 12/ allowed him for a Blanket, is to find his own Arms or allow 6/ for the Use of them at the End of the Campain. Callen-

dar Months. I hope People at Home will encourage Men to enlist. The Field Officers of the Connecticut Regiments were called upon to wait on the General Yesterday to have laid before them the Necessity of the Connecticut Regiments staying on the Ground till new Recruits come in or till the first of January. the Affairs of the Army lye with great Weight up on his Mind. we shall not with all our Rhetorick be able to retain many. Capt Chester arrived at Camp in good Health & Spirits last Sunday Bro<sup>r</sup> Eb: demeaned himself in Capt Chesters Absence and ever Since his joining the Company as well if not better than could be expected from him or even an older Person. the Opposition is entirely at an End. some of his most obstinate Opposers are become very friendly to him. his Regiment however on Account of some things which I may tell you of Hereafter is in something of a broken State. Col. Enos is not yet come into Camp, we hear he is not far distant no late News from Col: Arnold. I dont know whether Dier or Rufus will enlist untill they have been Home. I proposed to M<sup>r</sup> Johnson to pay him my Note some Time ago, he said he would think of it. he is now gone Home and suppose he will return but whether he does or not he will likely be at Home when the Note becomes due which I think is the latter End of December & I think it best to send the Money to him & take up the Note I must beg the Favor of You to negotiate it. the Principal Sum is if I remember right 440 p<sup>ds</sup> & there will be one years Interest. I send an Order on Treasury for Money to pay off my Company. pray You to forward it by safe Hand & when rec<sup>d</sup> send me one hundred of the smaller Bills & let Benj Backus have the rest as I shall draw upon him in Favor of those who owe me or where there is any Probability of making Turns and where it is convenient for them to receive their Pay at Norwich which will be the Case with most of my Company. when M<sup>r</sup> Johnson is paid off I do not know that I shall have any further Use for Money very soon.

JEDEDIAH HUNTINGTON TO JABEZ HUNTINGTON.

Camp at ROXBURY 10 Jan<sup>y</sup> 1776*Hon<sup>d</sup> Sir*

I have before me Your Favor <sup>of</sup> Post of the 8 instant and I am glad to find M<sup>r</sup> Hemstead or rather that a Post is to ride again between Norwich & Camp and to encourage the Undertak<sup>s</sup>. Have subscribed 12/ for two Months although it is a high Tax upon me however I hope I shall get more than an Equivalent in the Multiplicity of Letters which I wish to receive from my Friends I knew before I left home that Jonathan Peters had the Care of his Brother Sam's Affairs and I had repeatedly wrote to him concerning my Debt but he never took much Notice of my Letters except that he once sent down a very dear Horse. It is not a Time for Lawsuits in General but in this Case I think no one will think it improper if other Means won't do.

As to Eliphalets being necessary in the Store I submit wholly to your Judgment I am glad to hear there is so good a Sale as it seems there is for my broken Assortment. I make no Doubt our Goods at Retail Price are cheaper than at most Places. every Kind of Goods at Camp are extravagantly dear

As to the new Regiments filling up cannot give You so good an Account as I could wish all my recruiting Officers have returned except Twelve and there are but about four hundred inlisted which is 288 short of the full Complim<sup>t</sup> my Regiment is as full as either of the Connecticut Reg<sup>ts</sup>. the Province Reg<sup>ts</sup> are much the same on an Average. Orders were issued some Days past for all the Soldiers to join their Corps by the first of January. I hope to see my Reg<sup>t</sup> full in a few Days, but am not without my Fears that it will not. the Men are much wanted. Arms & Blankets are much wanted. One of my Companies (Capt Ozias Bissells) is more than full. the General has ordered it to Squantum which disoblige me, as the dividing the Regim<sup>t</sup> will prevent the good Dicipline of it but I shall do the best I can to make it servicable & reputable. I wrote to Benj the Week before last to send me a Horse in a Fortnight as

he says Nothing about the Matter by the Post I am thinking whether he has not forgot my Desire

I am your dutifull & affectionate son

I hear Sister Lucy is sick but as none of my Friends write any Thing of it conclude it is not so.

17<sup>th</sup> a Deseter came to our Guards last Night, a Corporal, and a sensible Fellow. says 200 Marines & two light Companies are embarked on Board some Transports & orders were expected to have all the Grenadiers join them supposed to be destined to Virginia. that there has been no Arrivals since the Chatham which brought Admiral Shuldham. says General Howe was angry at the Conduct of his Troops at Charlestown when the Houses were burnt by our People. that 18 Regiments of Foot & 2 Battalions of Marines make the whole of their Force. that they have 3 lb Pork  $\frac{3}{8}$  Man  $\frac{3}{8}$  Week 5 oz Butter & 1 Gill Oil, & C. that they expect more Troops but not till Spring. he thinks he saw General Burgoine in Boston but two Days ago but in this he is likely mistaken

*Dear Sir*

The Snow falls plentifully, there may be a Sufficiency for Sleighting, you intend I hear to make a Visit to Camp

soon, shall not you rather come in a Sleigh than otherways, you can doubtless make up a Party who would take in a Friend here or go Home without him, I have mentioned too many Circumstances, to make any Event depending upon them, probable yet there is a Possibility that all may concur, and I have the Pleasure of seeing you at Camp and accompany You Home. I have been thinking I ought to have a Letter from You as often as Once a Week at least. if Father should neglect me I must attribute it to publick Business, or if Brother Andrew should, it will be because of the Sickness of Sister who must undoubtedly engross most of his Attention & Concern. from this Time forward I shall charge You the Price of one Letter weekly which as I value them highly will amount to a Considerable Sum soon; tell me small News as well as great.

this Day or Tomorrow we were to begin a covered Way upon Dorchester Neck to make a safer Passage to & from the Hill.

I hear that from two northern Towns only, Seventy Sleighs with Six Men in each have gone to the Assistance of our Army at Quebec. if every other Town adjacent has done the like or but half so much they will make a sufficient Reinforcement Give my Love to Sister The unreserved Intimacy and sincere Friendship which subsisted between her and my lovely Wife leave her a hearty Mourner with me for the Loss of the best of Women. be thankfull to the Giver of all Mercies that your domestick Felicity is continued when the divine Wisdom has seen fit to make such a great Breach upon mine. I consider you as no small Sharer in the Affliction, one of your closest Friends is taken from You. let us be carefull to prepare for our Departure whenever the Period arrives as such a Time is appointed to us all.

Your Letters of 16<sup>th</sup> 21<sup>st</sup> & two of ye 24<sup>th</sup> are to Hand. Our Privateers took, the last Week, four Prizes, two carried into Salem & two into Plymouth, the two first mentioned, were in plain Sight of the Shipping at Nantasket, the Sailors said the Yankees would come next & carry away the Admirals Ship. the Ships carryed to Salem we hear are loaded with Coal & Potatoes from England, the Acquisition is of no great Value to us, but, for the present, an irreparable Loss to our Enemies, I do not yet learn the Loading of the other two Captures. we are told our Enemies are [ ]ng out Privateers. want much to hear what becomes of our Fleet at the Southward. the Articles Mother was so kind as to send to me came all to Hand am sorry to find I am so poor of it for Shirts have thoughts of buying p<sup>s</sup> Linnen & troubling Mother to get it made it up for me. when I shall find Time convenient to be absent from Camp do not know I could stay contentedly many Months for the Sake of coming Home by the Way of Boston. There is a great deal to be done before such a Tour can be feasible. it is lately found that almost all our heavy Cannon must have new Carriages before they are put to hard Usage. &C &C. my Love & Duty to all. To Morrow the Remainder of the Militia leave us and leave us pretty thin too. the established Regiments have not more than 500 each upon an Average the new raised Militia ought to be hasty in joining us when I was at Cambridge Yesterday Col<sup>l</sup> Durkees Son was over here and ordered Dyah Manning to Cambridge I was surprized at it after what You wrote me. I intend Thomas Fanning shall go to Cambridge Tomorrow or next Day and know what Col. Durkees means by it. if he is determined to hold him it will be hard upon Dyah as my Drums & Fifes have chosen him their Drum Major. I have one Company full & 3 or 4 to spare, one More that wants 6 only, the others stand at about Sixty Rank & File. Whitcombs & Webbs Regiments are ordered to this Camp the latter is already come. Gen<sup>l</sup> Spencers Brigade is now made up of Connecticut Regiments only, that is Parsons, Huntingtons, Webbs & Wyllys's. There is some Probability of Bro<sup>r</sup> Eben<sup>r</sup> having a Captaincy in the Company he is now in (but this between you & I till you hear further). there is a Probability of Master Lovells being exchanged for Governor Skeene I believe it will come to pass. my Love to Sister & C & C & am your affect<sup>e</sup> Brother

*Dear Sir*

Some Time ago I wrote the Hon<sup>e</sup> John Hancock Esq President of Congress Inclosing him Several Papers & instructions I had Rec<sup>d</sup> Relative to the Brig<sup>t</sup> & Cargo of

Melasses Formerly belonging to Joshua Winslow Late of Boston Deceas'd, by order & in behalf of the Committee of Norwich, desiring an order of Congress how to dispose thereof &C

Desired the Papers might be Return'd by Bearer Mr Daniel Leffingwell, Who on his Return Told me, The Matter had not been Taken up when he Came away & That Col<sup>o</sup> Hancock Told him he would Forward my Papers with the advice of Congress by Col<sup>o</sup> Edward Mott who was then in Philadelphia. Since which have heard Nothing Relative Thereto. wish you would be kind Enough, to Mention the Matter & forward me <sup>3</sup>/<sub>4</sub> Bearer or first Safe Conveyance my Papers with the Opinion of Congress What Shall be done with the Brig<sup>t</sup> & Cargo. I also Request that the Matter of furnishing Cannon for Securing the Harbour of New London might not be Delayed it is the only Harbour in this Colony & I think it of utmost importance to us to have it Strongly Fortified & that without Delay. I know of no way to procure Cannon So Readily as to bring them from Ticonderoga. wish I had an order from Congress for about Fifteen or Twenty from Eighteen to Twenty four pounders. I would Soon have them Down. Would Willingly Leave all other Business at this Time. I am afraid it will be Delayed Untill it is Too Late. pray Exert your Self in this matter. Not only the preservation of New London & Norwich but the Safety of the Whole Colony may depend on it, & in fact it may prove a Vast Saving to the Continent, in keeping open a Channel for bringing forward Flour & other provisions from the Westward. I mention above that I wish had an order for Cannon.

Dont mistake the Nature of the Account which I mean to keep with you of Letters. you must know I imagine you to be much at Ease at Home with Leisure on your Hands,

now when a fair Opportunity presents & I am not favoured with a Letter, I set something down to your Debit. my Letters I don't mean to charge, I shan't be able to write you so many as I hope to receive from You. Every Tuesday there is an Interview on the Lines between us & the Enemy. they tell of a large Fleet which they have lately heard to be on the Banks of New found Land, if they were there at the Time they mention, which is not very likely, it is probable they will make the best of their Way to a warmer Climate. I hope we shall be ordered to Dorchester before long, for more Reasons than one, it is not only an important Post to possess, but the Militia will soon be uneasy if Something considerable is not attempted, they are come with an Idea of executing some great Business. I dont hear any News from Gen<sup>l</sup> Lee, I was in Hopes, before this, his Undertaking would have answered every ones Expectations We begin to think New York must suffer the Fate of Falmouth & Norfolk. So far from meeting withat warm Reception from our Enemies which you know was expected by all whenever we should take Possession of Dorchester they seem to be very indifferent about the Matter. we have a Fort upon each of the two highest Hills with a Number of Cannon in them. there is a small work on each Side of the Road between the two Necks as you go on to the Hills, & a Flash throwed up on the Declivity of the Hill next the Castle. 3000 Men with 15 field Officers went on at 3 oclock Tuesday Morning the same Number of Men, relieved them Yesterday Morning & this Morning at the same Time, by which you see that half our Men fit for Duty are on at a Time which comes rather too hard for them. however they go with great Chearfullness.

*Sir*

I sent forward a Letter to you respecting the Teams which I suppose you have not received. Mr Abbot is now

with me; & informs me that you are able to supply me with Teams. The want of them has retarded us very much; a Committee from the General Court, made two ineffectual Efforts to assist us. But notwithstanding which we are still in a deplorable Situation. We shall find Employ for as many Teams as you can send: I shall want, for my own Department, twenty two. Doctor Morgan will require fifteen, for his Medicine, in the whole about forty.

As soon as they can be dispatch'd, I shall be the sooner able to come forward. You will therefore please to send them to Cambridge with all speed. I shall leave a proper Person to assist in loading them, & giving the Teamsters, their Instructions & shall set out for Norwich, on thursday next. Mr John Hopkins is the Person whom I shall entrust; & a Letter to him concerning the Business will be properly attended to.

the General expects Orders from Congress this Day respecting that matter. only Six of my Companies are in. General Spencer has not yet arrived nor any of the Field Officers of Parsons & Wyllys's Regiments. if Commisary Trumbull should order the Flour under your Care to this Place, had not you better undertake to procure the same Quantity ready to his Hands here and make the best of that in your Hands it may be bought here for 2 Dollars  $\frac{7}{8}$  C<sup>t</sup> or under. *Dear Sir*

Six more Regiments under the Command of General Sullivan are to go to the Northward. Ervines & Waynes (Pensylvanians) Daytons & Wynds, of the Jerseys & whose the other two are I am not able to tell you now. the Day before Yesterday Morning a Soldier was found dead laying at the Door of one of the *bad* Houses in this City. the night following a Number of his Comrades (of Col: McDougal & Col: Ervines Battalions) riotously undertook to avenge his Death by pulling down the House where the deceased was found laying, and were going on to demolish all the other Houses of like Fame but were prevented by Col: Mifflin & some others. this Day at Noon in Sight of a Number of Principal Officers they renewed the Attack, but were soon dispersed or confined. Examples will be made of some of the Ring leaders to terrify the others. except this Instance there has scarcely been the least Disorder in the City since the Troops came here. next Week we are all

going into Tents a Little back of the City. I think it strange that two of my Companies are not yet in I should have stood a Chance of going to Quebec, if my Regt had been together, which would not have been displeasing.

27<sup>th</sup> the Regiments under Orders for Quebec are the four mentioned above & Starks & Reeds of New Hamshire. One of our Continental Cruisers has taken a Ship bound from Virginia for Glasgow loaded with Scotch Tories & their Effects to the Amount, it is said, of 50000 pds

I have a Minute made of 5/ borrowed of you one Day at Fathers Desk when I was last at Home. did you ever charge it to me? if not, you will take Care to get it. I remain

*Dear Sir*

having an Interval of Leisure between Business I gladly improve it in writing you another short Letter. I never knew what it was to be much affected with the Sorrows of my Friends on account of the Loss of those near & dear to them untill I was called to part with my beloved

Partner, her kind and agreeable Deportment often presents itself to me in the most moving Colours, I find it hard at such Times to be reconciled to her Departure, but then again I consider that it is of infinite Consequence that I eye the Hand of my Sovereign in a proper Light that I may assure myself from his holy Word that his Wisdom & his Goodness have as great a Part in his Dealings as his Power althou' the latter is most observable by poor weak sighted Mortals. it is good for us undoubtedly to bear the Yoak in our Youth if we are not wanting to ourselves in making a suitable Improvement of Affliction it ought by all Means to set us loose from the Injoyments of Time & Sense & to make us wish to receive no greater Share of them than will help us on in our religious Warfare. have we not been too inquisitive after a Happiness which the World cannot give? I am sure it has been the Case with me. I hope it will be less & less so with both of us whilst we are so sensibly experiencing the Vanity of Such Pursuits in the Death of our lovely Companions who ministred in large Measure to our Cumfort & Happiness. a few Years will put a Period to every Kind & Degree of Felicity here. it behoves us then with unabating Ardour to contemplate & aim at that State which will be happy & glorious without Interruption or End. give my Love to your Little Ones who will never fully know their Loss as they have not lived long enou' with to put a just Value on the Blessing of such a Mother as they had.

A French Vessell with about 12 Tons of Powder & 500 Stand of Arms coming into this Port has fallen into the Hands of our Enemies at the Hook throu' the Indiscretion of the Captain.

A Vessell with Dutch Goods such as Linnens & C is just arrived & the Cargo all sold to one Retailer. European Goods appear to me to be plentier in the City than when I first came here, it is expected they will be plentier yet before Christmas.

Brandy sells @ 7/6 Clove Water & C @ 5/.

I cannot find any Price for Cherry Rum.

I wrote Capt. Wattles a few Posts ago to the Care of Crouch & Gray I hope an Answer from him or them will give some Information of the Reason of his Long Delay.

A signal was this Day made from below of the Arrival of a Man of War at the Hook, the Inhabitants were as much alarmed as if they were in no Expectations of such a thing's happening.

June 1<sup>st</sup> this Day many of the Merchants are sending their Rum & C up to Albany throu' Fear of the Enemy in Consequence of last Nights Alarm for it was reported early this Morning that five ships were arrived at the Hook. I wish something or other might frighten almost ever Inhabitant out of the City for we do not know Who are Friends or Foes or whether there are any of the former—*this between Friends.*

just hear that Gen. Mifflin is not expected to day, perhaps you will not see Bro<sup>r</sup> so soon as you might have expected as he chooses to see Gen<sup>l</sup> Mifflin before he leaves this. I want to know whether Mother has ever been to visit Mother Trumbull since I left Home. she was very desirous of it. *Dear Sir*

I have yours of 21<sup>st</sup> ult<sup>o</sup> As to the Molasses which I proposed to have distilled I am willing should remain in Statu quo for the present. The Prize taken by Capt Muggford proves to be a very valuable One it was followed by an unhappy Event in the Death of the brave Captain. we should be glad of more good Arms, Powder we are well supplied with. I have desired M<sup>r</sup> Huntington to dispose of your Cheese & Cydar as I have not Time to do much Business except what relates to my Regiment. we are very busily employed in making Preparations to receive the Enemy. putting Arms in Order. exercising the Men & C. the Brandy have ordered into Store. have been expecting that Rum & C would continue to rise but cannot say how it will turn out. 3<sup>d</sup> June considerable Quantities of Rum are arrived from Philadelphia for a Market here whilst the Merchants here are sending their Rum to Albany throu' Fear of the Enemy the Price stands from 9/ to 9/6

*Hon<sup>d</sup> Sir*

I send you by Lieut Perkins two Pennsylvanian Maga-  
zines. shall send You more of them. there are many  
Things in them worth reading. Accounts from our Army  
at the Northward are very discouraging. the General is  
greatly chagrined at the Conduct of the Troops, the Be-  
haviour of Officers & Men was dastardly. he can't help  
turning a thought upon the Soldiers he has about him and  
suppose they may be no better when put to the Tryal. he  
exhorts us with much Anxiety to determine to be prepared  
& resolute at all Events, suggesting to Us the fatal Conse-  
quences which will attend a Defeat at this Post I hope we  
shall prove better than his Fears. Bror Eben has finally  
obtained his Commission & I suppose will command his  
own Company. The last Express from the Northward left  
General Thomas at the Point of Death with the small Pox  
it is said General Woorster is on his Way to Congress. I  
should be glad to have sent me by Mr Fanning or some  
other good Oppy two midling Towells & a ps green Bear-

*Hon<sup>d</sup> Sir*

I have none of your Favours unansw<sup>d</sup> The present House of Assembly in Pennsylvania have withdrawn their Instructions to their Delegates in Congress respecting Independence. Eight of Eleven Counties in that Colony have resolved to set aside their old Governments and constitute a new one. I ought to have placed the last mentioned Article of News before the first as it was prior to it & productive of it. the House of Assembly some Time ago unwillingly conceded that an Addition of Members should be made to their Number in Hopes of preventing a Convention and now with the same Views they have withdrawn their Restrictions from the Delegates. but all will not do, the Voice is against them, and they will be obliged to give Way to a more righteous & equal Representation. one or two Mobish Altercations have happened between the Whig & Tory Parties in this City which extended to hard Blows, some of the Army imprudently meddled. in future they will not take any Part in these Contentions unless properly called upon.

16<sup>th</sup>. you see by the Papers how far short of the Demands of Congress this Colony has come in furnishing their Militia at the present Crises instead of marching to this Place they have only ordered them reviewed & to stand ready. the City Militia however have agreed to be all ready,

21<sup>st</sup> to give everyone their due I now inform You that this Colony are drafting their Militia agreeable to Resolve of Congress & seem to act with Spirit. I have rec<sup>d</sup> Your Favour of 11 June. I shall dispose of the Rum as soon as a purchaser appears, just now the Buyers are at a stand. Brother Eben<sup>r</sup> is now in Camp & more out of the Way of Company which were expensive. I believe for a while he was not aware how his Expences would rise. in future am in Hopes that he will make his outgoings square with his Incomings *at least*, if not have some Saving.

General Gates is ordered to Northward with Ample Powers from Congress to place & displace almost as he pleases.

Camp, New York June 24, 1776.

*Hon<sup>d</sup> Sir*

I have yours of the 12<sup>th</sup> & 17<sup>th</sup> & observe the Contents.  
As to Sam, I cannot get him into the Army without trans-  
gressing a Rule of Congress which forbids the inlisting  
Negroes unless they have Certificates from their Masters of  
their Freedom. I have no Expectations of going North-  
ward myself, but if I could find any Body that would take  
him to Albany I think it would be best to send him there  
for Sale. I am rejoiced to hear that the Assembly were so  
chearfull in voting the Number of Troops called for. I  
doubt not our Colony will in some Way or other be re-  
warded for its extraordinary Exertions in the Publick  
Cause. I should advise the recruiting Officers not to enlist,  
at least not to pay, any transient Fellows who may offer  
themselves, as they will only deceive them & run away  
with the publick Money, there are many of that Character  
who have engaged & taken Money in several Corps &  
immediately deserted. for the Sake of a Little ready

Money they will risque the Smart of a few Lashes (Shame they have none). indeed if they stay in Service they are (to use a vulgar Phrase) more Plague than Profit.

25<sup>th</sup> I suppose You have before this Time heard a great Deal of the Conspiracy of our Enemies against the Lives of all the General & principal Officers. the Mayor of the City and some of the Generals own Guard have a Hand in it. the Particulars of this horrid Plot are not made known. the General keeps them to himself for the better making further Discoveries. had the Enemy arrived a few Days ago, it is probable that a Part if not the whole of their wicked Designs wou'd have been carried into Execution. it would have been a malancholy Event and perhaps fatal to our Cause to be deprived of our Commander in Chief & especially if all the other Generals had fallen with him. God, in his abundant mercy has seen fit to disappoint the Malice & Rage of our cruel Foes. The General has rec<sup>d</sup> an unwellcome Letter from the Army at the Northward. he thinks proper to keep the Contents as much to himself as he can Gen<sup>l</sup> Thomson, Col. Irwin of Pennsylvania & about 20 others are made Prisoners. A Small Schooner of 4 Guns only commanded by Lieut Pond of Capt Perrits Company has taken one of the Scotch Transports with Troops & carried her into a Port on the back of Long Island. the Soldiers are coming over the Island & are expected to day. he took a small Tender that was escorting the Ship it is supposed that this Transport is one that was taken by Capt Biddle & afterwards retaken by the Tender before mentioned. it is to be presumed that our Enemies will attack upon the River St Lawrence & on this Coast at the same Time. if they are in the River, as we hear, we ought to look for them in this Place very soon. General Gates, with his Suite & C sail for Albany this Day. we most heartily wish them the Smiles of Heaven. I send You three more Magazines. my Regards to all as is due & remain

Camp, NEW YORK June 25<sup>th</sup> 1776*Dear Sir*

I have your Favour by M<sup>r</sup> Fanning. I am rejoiced to hear from Wattles after so long a Time; buying & selling seems to be almost at a Stand Your Rum & Brandy must lye a few days. When the Additional Troops come in, if the Enemy don't get us all, there will be a new Demand for Spirituous Liquors. I believe Insurance cannot be had at present at any Rate. Indeed I could wish we might not be permitted to send out any eatables least they should fall into the Enemies hands. I think there is a better Prospect of making Money from Privateering than trading. As to engaging in the Service, considering there are two of us already in, & you have two small Children to take Care of, I hope you will not. there is no Commission under a Field Officers that will more than support any One to live as well as you have been wont to. I could rather wish, for the Sake of the Comfort of our Circle (which is now much broken) & for the Sake of your Children, to see you, as soon as Decency will permit, united with some agreeable Person. I believe the Community is as well served abroad as it is at Home. by all I hear there is much Want of Wisdom Prudence & Steadiness to keep Things right. Old Men, Boys & perhaps in some Places even Women will be obliged to go into the Fields of Harvest that the Men may be spared for the Field of Battle. but let us be willing to submit to any Inconveniences & Hardships rather than not make a vigorous Defence at this critical Time. from your affect<sup>e</sup> Brother

Camp, NEW YORK July 7<sup>th</sup> 1776*Hon<sup>d</sup> Sir*

I rec<sup>d</sup> Yours of the 1<sup>st</sup> this day. d<sup>d</sup> the inclosed to his Excellencys Aid de Camp. The Enemies Fleet consisting of about one hundred Ships of all Sorts are now lying under Staten Island where they have a good watering Place and enjoy to themselves about twelve or fourteen Miles Square

of Terra firma which is nearly the Contents of the Island, Inhabitants on it mostly Tories, the best of the Cattle were brought off, every Thing else remains for the Enemy. the Companies that were stationed there came off upon the first Arrival of the Enemy. Our Fortifications are nearly completed, on the Arrival of the Fleet both Officers & Men exerted themselves most industriously in forwarding the Intrenchments. Two Companies of Col Bradly's Regiment have been in several Days, Capt Abell commands one of them. the Jersey Militia have almost overrun us with their Numbers and are now returning except those that are to stay the Campaign, General Howe has encamp'd one Regiment or more on Staten Island in plain Sight of us. they have been seen killing Beef, carting Hay & C. a small Family moving from the City to the Jerseys fell into their Hands.

Col: Trumbull now gives Six Pounds this Money for Pork.

Two Men have lost their Lives by Carelessness. a Soldier attempting to fire his Gun, it mist fire, he took it from his Shoulder & held it against his Breast to examine the Flint, it went off, struck him in the Breast & killed him instantly. another Soldier had his Piece on his Shoulder, a Second was playing with the Lock when it went off & killed a Sergeant who was behind them instantly. A Frenchman brou't from Quebec is now in Irons here on Suspicion of being the Person who murdered Col: Parson's Brother at Nova Scotia some Time ago.

8<sup>th</sup> the Prisoners in the new City Hall attempted to make an Escape, one of them knocked down the Centry with a Bucket & took away his Gun & fired it at the Sheriff but missed him, the Guard was called who fired at the Prisoners & killed one on the Spot, I understand he is one who was confined for the Murder of a Woman in the City.

I send You Remainder of Magazines for 1775.

I often think of the Pleasure I used to enjoy in roving my small & your large Fields at this fruitfull & agreeable Season & returning with a hearty Welcome to my lovely

Family & Friends. the Scenes are widely different to which I am now called, but I desire in every Thing to rejoice that I & mine & the great Cause I am engaged in are in the Hands of an All-wise & gracious Sovereign, who I doubt not is accomplishing the great Designs of his Grace & Love to his People in general & to Individuals. The rapid Progress we have made in Politicks & Arms in the Course of 12 or 15 months I believe has no Parrallel in the History of any Country. and what another Year may bring forth it is impossible to know & perhaps will be vastly beyond what any one now conceives of.

You have heard before this of what has passed in Congress with Respect to Independence it was said that in the Com<sup>ee</sup> of the whole House the Colonies stood 9 & 4 or 10 & 3 (that is N Y: Ph: & S: C: ag<sup>st</sup>) better Accounts say the two first only were Neuter because not instructed by their Constituents. in the House it passed 12 to 1. N. Y. will be singular. several of the Regiments of Connecticut Horse came in Yesterday & several Transports with Foot. no Want of Barracks as 7/8<sup>th</sup> of the Inhabitants are fled. an unhappy Obstacle has fallen in the Way of General Gates who is at Albany waiting for further Orders. his Command was confined to Cannada only, now it seems the Troops are retreated Within Gen<sup>l</sup> Schylers Department who insists on holding the supreme Direction as General & Commisary, in Consequence of which Gen<sup>l</sup> Gates proceeds no further & Col: Trumbulls Deputies are returning or will be soon. I hope Congress will see fit to call Gen<sup>l</sup> S: as well as Gen<sup>l</sup> Woorster to Philad: am in daily Expectation of seeing Bro<sup>rs</sup> Chester & Joshua though I fear their Station will be too far from me to admit of the Familiarity which we enjoyed last Campaign.

*Dear Sir*

I think I have none of your Favours unanswered; I  
find it difficult to dispose of your Brandy, the Buyer says it  
has too much of the Cyder in it. the City is full of Brandy  
Brewers they all have their Connections with the Retailers  
that it is not easy to find a Purchaser. the Episcopalian  
Churches were not open here last Sunday. in Virginia &  
Maryland they have altered their Liturgy according to their  
new State & go on in their Worship. The Constitution of

New Jersey which gives unlimited Tolleration to all religious Professions has struck the Quakers dumb, they have all along said that our Opposition to ministerial Measures was a presbeterian Scheme to tyranize over all other Sects. I think the new Levies do very ill in not joining the Army as fast as they enlist. the End of their being raised was to have an *immediate* Augmentation, a little Delay may lose us every Thing. The Dysentery prevails in the Army, but I hope after every one has had his Seasoning we shall be healthy. The News from the Army at the Southward is good but from the opposite Quarter every Thing seems to be the contrary.

I remain your affectionate Brother

The Price of Rum is 9/6 & Molasses 4/ or 4/6 but very unsteady, have sold Bro<sup>r</sup> Andrews Rum a 9/6 a few Days ago I offered it at 9/ & could get more than 8/. cant find the Price of Coffee or Cotton, there is very little of the latter, I believe the former is at about 2/ this Money. Oats are wanted & would sell well just now. Cydar has sold for 4 dollars lately. by an Intelligent Fellow belonging to Boston lately deserted from the Rose Frigate up the North River we learn that the Rose received Six 12 pound shot from our Batteries as she passed them which took off the Thigh of one Man & Leg of two others besides doing considerable Damage to the Ship what Damage the Phenix sustained he could not learn. there Design in going up was to destroy the two Frigates building at Poughkepsie & a large Quantity of Stores at Peek's Kill. there are good 1500 Men at our Forts Montgomery & Constitution who carefully watch the Motions of the Enemy & they have a Chain of Fire Ships & Rafts across the River to prevent their proceeding any further up. I hope we shall be able to give a good Account of them in their Return. we have some large Fire Ships & a great Number of Rafts. Mr Keyes will be able to give you a very different Account of our Numbers from that in your Letter. why would it not answer to send out the old Brig which is worth but little with a few Horses or any other Articles that could be of no Service to the Enemy. *Hon<sup>d</sup> Sir*

Yesterday a Frigate from N York passed throu' Hell-gate and went up Sound out of Sight we fear her Inten-

tion is to interrupt our Navigation. another Frigate came throu' soon after and turned up into the Mouth of the River before Haerlem we apprehend an Attack from the Enemy very soon, General Sullivan tells us he had many questions asked him while a Prisoner about the Situation of the Country East of Kings Bridge where General Heaths Division lays. I am not of the Opinion they can drive us off our Ground, but perhaps they will.

I have told the General Officers from Connecticut that I would continue in the Service if I can have a good Set of Officers under me. the Commanding Officers of the continental Regt & the New Levies have been asked the Question. Col. Chester utterly refuses. we have been desired to recommend such of our Officers as we think deserving of like or higher Commissions than they now hold. I have but few in my Regt.

If I can get such Officers as Col. Chester or Douglas will recommend or such as I could pick out of other Regiments I shall do, but I don't yet know whether the Arrangements will be made by our Genl Officers & recommended by y<sup>m</sup> to Assembly or whether they will mention Names only & Leave with Assembly to arrange.

Bro<sup>r</sup> Joshua is well of his Camp Distemper, but has now the Jaundice in a Good Way of Recovery.

Chester and his Q<sup>r</sup> Master & Adjutant Bro<sup>r</sup> Joshua & myself make up a very agreeable Mess for the present, but as I am two Miles from my Regt I do not promise myself the Pleasure of continuing in it longer than till I can get some Quarters nearer. I have ordered a Hut built for myself which I expect to be obliged to put with up for the Want of Houses. If I go into my Hut shall take in Bro<sup>r</sup> Eben<sup>r</sup> & G: Carpenter.

I want White Flannen enough to line an Outside Jacket with Sleeves, 14 lb common sugar & 14 lb best that can be had to use instead of Loaf Sugar, 1 <sup>3</sup>/<sub>4</sub> Mail Straps & a Crooper for my Saddle.

I wrote you that Col: Thomson was a Prisoner, I find that Col: Silliman, in whose Party he was, thinks that he is without Doubt killed.

I also wrote You my Regiment suffered at Montrossors Island I had only 1 Sergt & 5 Privates in that Party the Sergeant is returned with three bad Wounds, one Little Fellow was taken a Prisoner & escaped from them & swam over the River. the other four fell a Sacrifice they were in the only Boat that landed where the Lt Col: (Jackson of Sergeants Reg) who commanded the Party & Major Henley one of General Heaths Aid de Camps were, the former was wounded the latter killed after he had got into the Boat to come off. two Captains are now under Tryal of Court Martial for their cruel & base Conduct on this Occasion had but one or two more Boats landed & behaved as well as the one that did land they would have killed or taken the whole of the Enemy on the Island.

The most of my Oats & many small Articles were left in the City.

I remain with proper Salutations

I am sorry to find that Doctor Turner hasn't a sufficient Inducement to continue in the Army where he is eminently usefull & necessary; it is of great Importance to Individuals and the Publick that every Life & Limb should be saved, Doctor Turner is blessed with a natural Insight into Wounds and Dexterity in treating them *peculiar* to himself, Doctor Morgan is well pleased with him and would retain him in Service if he had it in his Gift to reward him with as much Pay as he knows he has Reason to expect. I heartily wish our Assembly, who attend with Pleasure and without Parsimony to the Necessities and Convenience of the Army, would provide the Troops with a Physician who is esteemed by us as almost *essential* to the Service. suppose he saves *one* Limb, that would not be otherways saved, *that* Limb may save the Publick some Hundreds. You and many others, Members of Assembly, are well acquainted with Doctor Turners Character & Manner of Living. he is not aspiring after Wealth, no one doubts he has Right and in Duty ought to stand for a reasonable Reward of his Merits and Services. *Hon<sup>d</sup> Sir,*

We continue in Amazement & Chagrin at the Loss of our Posts at Ticonderoga; as important and interesting as that Event is to us here, yet we are not favoured with any Circumstances attending it. at present, the commanding Officer stands in a very dishonorable Point of Light; however, an Opportunity of Vindication may clear him of the Disgrace that is so liberally cast upon him. a kind Providence, which has hitherto made but little Use of our Wisdom or Strength, can over rule all these Things which seem to be against us, for our Advantage.

We are told that Lord & General Howe and the most of his Army are embarked, that their flat bottomed Boats are in & stowed away, that their Horse are on board, that they are wooded & watered for a Month. that many of the Inhabitants of the City have taken their Effects on Ship board. Deserters are daily coming in to us from Kingsbridge & their Gallies contiguous, last Monday four Men deserted from their Artillery (two of them Europeans) they tell that there are fifteen hundred Troops at Kingsbridge & About it, few of them Hessians the rest Provincials.

It has been generally apprehended that the Enemy would attempt the Possession of the North River, I wish there was no better Prospect for them to the Eastward of Connecticut.

Gen<sup>l</sup> Sullivan's Division crossed at Fish Kills this Day & he has taken Quarters there.

Gen<sup>l</sup> Washington is with the main Body at Ramapough & in the Clove where I was stationd last Autumn, at this Post Gen<sup>l</sup> Putnam has five Brigades, viz McDougals, Parsons, Varnums, Glovers, Huntingtons I have Bradley, Swift & Livingston. Col. Sam<sup>l</sup> Webbs is in Gen<sup>l</sup> Varnums Brigade. I hope my good Brothers have sent on my Stores as I find but little to be got here.

I have your Favour <sup>of</sup> Brown and shall leave this Letter open till his Return hoping I may have some News to give you.

*Dear Sir,*

I have been wishing for some Days past for some agreeable Matter to make the Subject of a Letter to You

but my Wishes are not yet gratified. It seems by your Letter that you have but imperfect Intelligence from the Northward & we are here much in the Dark yet as to the Situation of our Affairs in that Quarter, I do not know what strange unhappy Fatality attends our military Enterprises that Way. I agree with you in Opinion that Gen<sup>l</sup> Howe is in some Degree of Perplexity. As to this Post & the Situation of our Troops in the several Camps we think ourselves so well prepared to receive him that we are less fearfull of his Advances this Way than of his Incursions into the defenceless Parts of the Country. Should he go to New England I doubt not the Militia will meet him with the Zeal & Spirit which appeared in y<sup>e</sup> Militia of New Jersey when Gen<sup>l</sup> Howe moved from Brunswick.

Five of the Enemys provincial raised Troops deserted to us the Day before Yesterday.

The Enemy give out that General Clinton has arrived with four Thousand Troops from England, some say only nine hundred have arrived.

I hope my Stores are not far off as there is a great Dearth of such Cumforts here. If I have not some of the Mess Beef coming on, wish you to send me a half Barrel or two @ first Opportunity.

I send you an imperfect Sketch of the Country hereabouts that you may form some Idea of the Situation of the Army. Gen<sup>l</sup> Washington is with the main Body at Ramapough. Gen<sup>l</sup> Putnam at Peek's Kill. Gen<sup>l</sup> Clinton at Fort Montgomery (a very defenceable Post) Gen<sup>l</sup> Sullivan who is now at Fish Kill I expect will come down to Croton River. my Love to Sister & the Circle & am your affect: Brother

JED HUNTINGTON

22<sup>d</sup> *Dear sir,*

not meeting with a Conveyance I have now to inform You that Gen<sup>l</sup> Parsons's & Part of my Brigade were ordered to Fredericksburg where we now are, this Movement is in Consequence of the Enemys Fleet appearing in the East River that we might the readier throw Ourselves into New England in Case there is Necessity for it and it is but one

Days March to Peeks Kill. the Road from Danbury to Peeks Kill this Way is short two Miles farther than the usual Road by Crompond I have just traced the two Roads to you. I think the Governor & Council will order Brown to ride this Way as his Dispatches may be interesting to us, especialy if the Enemy make a Landing in any Part of New England, since the foregoing, Lord Sterling's Division has crossed at Kings Ferry & is at Peeks Kill. Gen<sup>l</sup> Washington has gone up to New Windsor. A Soldier of one of the York Battalions who deserted to the Enemy, returned & inticed others to desert was to have been hanged yesterday at White Plains. One Palmer a notorious Tory & Villain was taken last Week & will share the like Fate. he is said to be the Man who robbed the Post that was going to Peeks Kill some time ago.

The Earth was never loaded with its good Things more abundantly than it is this Year, does not Providence herein expostulate with us not to undervalue the fruitfull Land he has given us but to defend it at every Hazzard & Expence. Reflections of this Kind come very seasonable when the Picture of my dear Friends at Home stands too long before me

You remember my Enquiry concerning some Articles sent me from Norwich whilst We were at Kingsbridge that were left at Norwalk viz two Casks delivered by David Osborn to Lemuel Brooks for which I have Brooks Rec<sup>t</sup> dated 2<sup>d</sup> Nov<sup>r</sup> 1776 I desired Raymond the Comisary at Norwalk to make Enquiry after them he writes me that Brooks tells him he delivered them by your Order to Allen Ingraham, as the Contents are of some Value these dear Times I would make all reasonable Search after them, perhaps Ingraham can give Account of them. will you be so good as to ask him. I have just broached the Cask of Wine by Leffingwell, you can't think how it relishes in this solitary Place.

If any of our Friends are coming this Way, beg the Favour of them to call on Jose Webb for a Pair of Leather Gloves which I left there & for Want of which, tell Sister Polly, I have almost worn out the Pair of Linnen Ones she made me. Gen<sup>l</sup> Washington has ordered a Board of General Officers to examine the Pretensions of Candidates for the Colonelcy of the two vacant Connecticut Regiments (mine & Douglass's) the Members were to be McDougal, Varnum, Glover & Huntington, but as I am at this Place the three first mentioned must determine it.

26<sup>th</sup> The two Brigades, Parsons & mine, are now moved to Cortlands Manor five Miles from Pines Bridge on Croton River, 13 Miles from Peek's Kill & I expect soon to go Further Westward as we have Intelligence by several Deserters lately from the Enemy, among whom are two Hessian Surgeons, that the Ships which lately went up the sound are empty Transports bound home, that the Main Body of Howes Army are embarked & laying at the Narrows with southern Pilots on board, that a considerable Body of Troops remain at Kingsbridge. Gen<sup>l</sup> Washington is upon the Return into Jerseys & Gen<sup>l</sup> Glover is gone to the Northward.

several Spies have been taken up At Peek's Kill, one of them confessed he was sent out from N York by Col Robertson to make Discoveries of our Condition & Carry him Intelligence, Lord Sterling ordered him immediately hung up before his Door. others are in Confinement for Tryal.

*Hon<sup>d</sup> Sir,*

Last Night I once more arrived at this Place & am now under Orders to march with a Brigade of four Reg<sup>ts</sup> South or East upon the shortest Notice. Gen<sup>l</sup> Washington has

gone back to Pumpton with Persuasion that the Enemy intend southward (you will note the General Officers about him are chiefly southern Men) at this Post (perhaps from like Partiality, We think they intend Eastward. Intelligence came to General Putnam Yesterday that one hundred ships were seen passing Blue Point on the south side of Long Island standing Eastward & more heaving in Sight. Gen<sup>l</sup> Glovers Brigade has sailed for Albany. Bro<sup>r</sup> Eben<sup>r</sup> commands for the Present between One & two hundred Men at Fort Constitution. General Clinton now Governor of this State leaves the Army this Day for the Chair which important Place I think he will fill with great Reputation to himself & Service to his Country. Please to desire Brother Commisary to order what other Clothing & Accotremments he may send to me to be left at Danbury, to be delivered to my Order. I have the Pleasure to inform you that whatever Accounts we had of the Progress of other States in Recruiting their Regiments, those of Connecticut are nearest the Compliment of any, by the best Information. Gen<sup>l</sup> McDougal is, also, under marching Orders. Parsons & Varnum will be left at this Post & Gen<sup>l</sup> Putnam is directed to call on this State & Connecticut for Militia to strengthen them. It is with great Sympathy & Grief I give you the unhappy Tidings of the Death of our Acquaintance & my particular Friend & Companion Doctor Leonard, who has been left by the Allwise Sovereign of the World, to put a Period to his own Life. he was at Judge Coe's in Cakeat on his Way to Gen<sup>l</sup> Washington's Camp. the Time & Circumstances I may perhaps give You in my next. I would fain call in Question the Truth of the Fact which has but just reached us but I expect to be confirmed in it. What is Man, even those who stand highest in the Esteem & Love of the World, vain, transitory and perishing. General Putnam and Doctor Turner are gone Post Haste to the Scene of Horror, the news is confirmed. He had been with us at this Post about a Fortnight, in the Course of it, I had frequent Conversation with him on the Subject of the Chaplaincies in the Army. he expressed much Sorrow that that usefull Order stood in so little Respect

and were able to do no more Good in their Place his Representation of their Case to some Members of Congress when he was at Philadelphia was the Means of procuring the late honorable Establishment of Brigade Chaplains which Institution it was hoped would place them as to pecuniary Matters above Dependence and render them more respectable & usefull. but the Regulation some how or other did not take with the General he objected to it to Congress, upon which they made no other Brigade Appointments except Doct: Leonards who was immediately recommended by General Knox. in this Situation of the Matter, there seemd to be two Establishments or as some would wish none at all. I am so often interrupted that I am obliged to defer much that I want to say on the Subject to another Opportunity & close with that I am

I was ordered to march last Fryday to Delaware upon Advice being received that the Enemy's Fleet appeared at the Capes of Delaware, but the heavy Rains & one & another cross forbiding Adventure prevented my march further y<sup>n</sup> about twelve Miles when I rec<sup>d</sup> a Letter from General Washington advising that the Fleet left the Capes the 31st ult and stood Eastward & that I must immediately rejoin Gen<sup>l</sup> Putnam at this Place. we hear that 15000 Militia assembled upon the Arrival of the Fleet at the Capes. Great Dependence is placed upon the spirited Exertions of the Militia of the Country as the Continental Army cannot be in every Place where the Enemy are easily and quickly transported by Water. If the Militia of every State were as deservedly reputable for military Order and Prowess as the Jersey, they would be as formidable to the Enemy as the continental Troops, because our Marches are eluded by their Navigation, whilst the Militia of the Country are in every Place ready to defend their own pleasant Habitations.

*Dear Sir,*

I have not been favoured with but few Letters from my Friends. I should have wrote y<sup>m</sup> oftener had I not been almost constantly on the March. General Howe, you have heard, left the Capes of Delaware the 31<sup>st</sup> ult: standing Eastward, three or four Days after he appeared again in Delaware Bay. since which we have no Intelligence of him. it is seventeen Days since he sailed from the Hook and much longer that his Troops have been on board, if he does not debark soon, his Horses will be unfit for immediate Service whatever his Men may be. if he gets no Advantage of our Army in its Movements, as I believe he will not, I think he must make but a sorry Campaign. but I wish not to think too well of our Affairs. the Northern has filled us with Disappointment and Indignation. Congress have voted to recall their Gen<sup>l</sup> Officers from thence. Major Gen<sup>l</sup> Lincoln who has the Confidence of the Massachusetts Troops is gone thither I do expect Things that Way will yet wear a better Face.

so then our good Friend Col: Trumbull has finally determined to quit his Place, I dont know who can fill it with so much Satisfaction to the Publick. I suppose Jere Wadsworth and Avery, if not Irwin, will follow him.

Palmer who was to have been executed some Time ago, and was respited from Time to Time on Account of his Wives Connections who are on the opposite Side, was turned off Yesterday.

several Parties of Militia from this State & Connecticut are in at this Post. we have four good Brigades in fine Health & Spirits. the principal Distemper is the Meazles. Roots & Greens are excessive high. the moderate Price of

one shilling this Money for a Quart Milk some in their great Modesty have taken 1/ lawfull. An Officers Rations will not supply necessary Vegetables what do you think of a Hhead of Brandys selling at about Seven hundred Dollars. I am told Billings has taken two Prizes, one of y<sup>m</sup> with 1200<sup>lb</sup> Coffe & the other with 90 Puncheons Rum, if it was so, you certainly would have informed me.

Col Morgan with about five hundred picked Riflemen is on his Way to join General Gates.

the last accounts inform us that Howes fleet remain between the Capes of Delaware & Virginia, no Doubt he means to play into Burgoynes Hands. his own Inactivity; Reinforceing Burgoyne; leaving so many Troops in & near

New York with so considerable an Officer as Lt General Clinton all unite in confirming this Opinion.

PEEKS KILL 4 Sep<sup>r</sup> 1777.*Dear Sir,*

I have sent on your Letter to M<sup>r</sup> James. there is not, I believe, at present any more Need of Cartridge Boxes doubtless there will be at the Opening of another Campaign if it should please God to continue the War.

I did not know that any Leather was lost last year for Want of Purchasers I remember there was a large Quantity in Vats in N York which fell into the Enemys Hands I understand now that the publick Hides are delivered over to the Quarter M General for the Use of the Army.

I have engaged the Comisary to put up a Quantity of Tongues as soon as the Weather will do. there will be no Need of sending Salt. Mint Water & indeed all kinds of Spirit sell at a great Price but I could wish there might not any come into Camp except throu' the State Comisary's Hands. it is against the wholesome Orders of Camp that any others sell Liquors although it is done to the great Injury of the Army.

PEEKS KILL Sep<sup>r</sup> 10 1777.*Hon<sup>d</sup> Sir,*

Common Fame has taken Liberties ever since my single State to match me with one and another. I never took any Pains to undeceive You because I supposed you would not give Attention to such Reports till you had heard from me.

I had indeed entered into a Resolution (& a good one, as I thought, for the present Times) to make no Acquaintances but such as I could leave at any Time with as little Reluctance as I leave the ground of an Encampment when ordered to march, but I begin to be suspicious I am swerving from my Purpose & therefore I think it my Duty to give you some Intimation of it as I know how nearly in-

terested you have always been in the Welfare & Happiness of your Children in this Respect

I have met with a Young Lady who has gained so far upon my Esteem that I cannot break from her Friendship without doing great Violence to my Judgement and a well grounded Affection.

Her Father Mr Daniel Moore formerly moved in a large Sphere of Business in New York with Reputation as a Merchant & Citizen and has been happy in giving a good Education to his Children. he became at length unfortunate in Trade & now contents himself in more moderate Circumstances.

In the Choice I have made, Riches & Honours are out of the Question, but I think I have not been unmindfull of preserving & cultivating that Harmony and good Understanding which subsist through our happy Circle as well as providing myself an agreeable Companion.

I have not made my Intentions known to any except Col: Jos Trumbull, and I have desired him at a suitable Time to introduce the Matter with the proper Delicacy to the Governor's Family with whom it is my ardent Wish to remain as I have always done on the most Friendly Terms. I have no Thoughts of Marrying during my Stay in the Army nor of leaving it as long as my Services are wanted.

I send you by this Opportunity Eleven Hundred Dollars which I would put into the Loan Office unless I owe it to you or some of the Brothers

12<sup>th</sup> We have no News of Moment. the Skirmishing that has been between Gen<sup>l</sup> Washingtons Army & Howes was chiefly with our Militia & by the best Accounts the Ballance is in their Favour. the last Accounts left the Enemy at Christiana Bridge. Gen<sup>l</sup> Washingtons Head Quarters were at Willmington four Miles this side of them & 26 Miles below Philadelphia. his Numbers of continental Troops I hope is equal to theirs he has or can have as many Militia as he can manage to Advantage.

I suppose Brown will be along this Day it is likely he may have some important News it is not to be expected that General Howe will continue long in his present Situation. Gen<sup>l</sup> Washington is fortyfying a Height between Willmington & Christeen Bridge as it is called where it is supposed an obstinate Stand will be made on our Part

Col. Sam Webbs Regiment is like to fall into Parsons Brigade & will probably take Post near White Plains

Col. Livingstons Reg. have gone to the Northward leaves my Brigade to consist of only Bradley and Swift. the former I believe I shall get exchanged for Prentices

*Dear Sir,*

Since your Favour of the 29<sup>th</sup> August Mr Raymond Comisary at Norwalk has wrote me that he has found the two Cask of Articles which I mentioned to You.

General Parsons Brigade is ordered to take Post at or near White Plains. Major Eben is much pleased that he is removed into it, and that he is going to that Quarter.

I have not any News to give you more than what Brown carries. General Howe has laid himself under the Necessity of fighting. his Ships may not find themselves so readily in Delaware as they expected. and when they arrive there it is far from a Certainty that they will meet him there should the present notherly Winds continue the Fleet will be in great Danger from the Equinox.

*Hon<sup>d</sup> Sir,*

The army remains at Whippan about 16 Miles from the City. a large Party was sent the 21<sup>st</sup> to intercept an Escort with Provisions said to be coming from Chester to Philad<sup>a</sup>. the Information proved false. we were then ordered to proceed to Schuylkill Bank a little Below the City to attack a Post of the Enemy's at Gray's Ferry consisting of Six Battalions with some slight Works, but they had Knowledge of our Approach, abandoned their Post & retired into the City. Our Light Horse have several Times attacked their Picquets within two Miles of the City and brought off Prisoners. You have heard many Stories of the Enemys Ships being taken, sunk, & burnt in attempting the Chevaux de Frize. by the whole of the Information we have got, it seems that one Ship has been much disabled & Deserters say rendered useless. Our Fire Rafts did Yesterday burn a large Ship and set Fire to another, as three Light Horsemen who were at Derby inform us. a most incessant Fire was kept up all the Morning in the River. a large Party said to be Hessians attempted to storm the Fort at Red Bank. Deserters from Philad<sup>a</sup> say they are returned with great Loss. I hope to have the Particulars of these important Events with Authenticity before Tomorrow.

I inclose You a Letter which I suppose was meant to be addressed to Bro<sup>r</sup> Joshua please to give it to him.

I have your Favour of the 14<sup>th</sup> Octor.

25<sup>th</sup> the last Accounts from Red Bank, which may be depended upon, inform us that the Hessians had 120 buried on the field of Action and 300 wounded. that Count Denop & his Brigade Major are both wounded & Prisoners. the Action continued 40 Minutes. some of them had approached within the Abbatis before they received the first Fire their Defeat in this Instance is big with important Consequences the Account stands confirmed that two of their Ships were burnt some say they set fire to one of them themselves finding her so disabled that they could not get her off.

Burgoine's Defeat & Surrender has been heard of in the City but they affect to disbelieve it. nay they have published an Account in their Papers of Gates having fallen into his Hands with his whole Army with the Loss of 800 killed. so the poor Wretches within the Lines of the Enemy are duped

It is a long Time since I have had a Line from you, I write You now not to tell you News, as I have none, but to ask a Favour of You; I have almost wore my Hat out, I understand they are to be had at Boston & no where else. If You should be going to Boston I wish You would procure or bespeak one for me, by comparing your Hat with the Hats I have left at Home You will be able to come pretty near the Size.

I can form no Conjecture when I shall return Eastward. Mr Howe remains cooped up in the City. has the City in his Rear the two Rivers in Flank & a Line Redoubts in Front. he receives his Supplies from the Ships at Chester by Way of Derby & Tinicum Island when the Reinforcement from the Northern Army joins us we expect to be able to cut off this Communication.

Our People have towed the Hulk of the Augusta, that was burnt the other Day, under the Fort at Red Bank & saved all her Guns 64, 18 & 24 Pounders.

If we cannot prevent Mr Howes Supplies it is likely he will stay in Philada till the Ice obliges the Ships to go down.

*Hon<sup>d</sup> Sir,*

I send you a Sketch of Delaware & C which will give you some Idea of the Forts which have made such a gallant Defence as the British Navy scarcely ever met with before. in the Corners of the Map I have put the River upon a smaller Scale that you may see how Red Bank stands with Respect to Chester where their Ships lay & the Situation of Germantown & White Marsh.

Yesterday the Enemy opened four Batteries at Province Island and bombarded Fort Mifflin almost all Day without killing or wounding a single Man.

Evening — Col: Frink is just in from Red Bank and informs that the Enemy have this Morning kept up an incessant heavy Fire on Fort Mifflin and almost beat it to pieces & thinks they cannot stay in it longer than this Day out we have lost Capt Treat of the Artillery who was in the Fort.

13<sup>th</sup> Our Garrison remained Yesterday in Fort Mifflin but the Enemy have five Batteries on Province Island playing 18 & 24 pounders upon it & have already nearly battered it down. Col Smith the Commandant is wounded & some others. we give it up in our own Minds & are of the Opinion that Fort Mercer & our Fleet will probably follow.

a Fleet of 38 sail is arrived at Chester with Troops on board supposed to be Sir H Clinton from N York, they will as soon as they please join Mr Howe.

We have been agitating the Disposition of our Troops for the Winter, and find ourselves, the more we canvass the Matter, the more at a Loss.

What Probability is there of recruiting our Army. Money will not do it for it has almost intirely lost its value. how is it possible to Clothe our Men. they have worn out their Blankets & other Clothing and I See no Prospect of renewing them especially in the Southern States where they have no Manufactures and (except South Carolina) no Trade. is it not possible and highly necessary for the

whole Country to rise as one Man and make a thorough & speedy Business and End of the War. the Enemy have now collected the chief of their Strength at Philadelphia say 14 or 15000 One Grand Exertion of ours would drive them out of the Country or put them in our Power. if this idea should take, from what Distance would it be expedient to call Troops & how could we cover & feed them. if there is no Doubt as to Covering and Subsistence, what Time will it take to bring them to the Scene of Action. will it be practicable by the first of January. in the Month of January the River Schuylkill is always froze hard enou' to serve as a Bridge & not generally after that Month. when this River is so froze the City will be accessible by us for a Circle of Eight Miles or more. would not the Militia from Connecticut cheerfully submit to the Hardships of a long March in Winter and a short but severe Campaign for the Prospect of giving a decisive Blow.

As to Covering for a Body of Militia we could not have Houses or Tents but for a few. they must be content with such temporary Huts as could be made, and as to Subsistence I think there would not be much Danger of Want, thou' I assure you our present Numbers have come very near to it. (the Resignation of the late Comm<sup>y</sup> General is often mentioned & regretted.)

If the Scheme won't do this Winter, could 15 or 20000 Militia be collected by 1<sup>st</sup> of March or April & brought to this Place. I put a large number, because the Superiority ought to appear manifestly on our side.

I have furnished You with a Heap of undigested Thoughts for Your Speculation. Our Continental Debt accumulates beyond Conception. should you think it takes 100,000 Dollars to support our Land Army in all the Departments for *one* Day only. Our Money in a Year or two will, it seems, ruin us. it behooves us to essay some vigorous Measures to finish the War.

16<sup>th</sup> Evening Our Flag was flying Yesterday at Fort Mifflin, notwithstanding a most furious Fire almost all the Day.

I wrote to Col Williams to vest our Money in a Loan Office Certificate. he writes me he has exchanged about half of it for Connecticut Bills.

I wish you would desire Lieut Tracy who is now on Furlough at Home to call upon Jeri Wadsworth as he returns to Camp. I have wrote Col Wadsworth for some Connecticut made spirit from Corn Stalks for General Washington to send to his Friends in Virginia.

The last Letter I have from You was the 21<sup>st</sup> last Month.

WHITE MARSH 9<sup>th</sup> Dec<sup>r</sup> 1777.

*Dear Sir,*

I am this Evening favoured with your agreeable Letter of the 14<sup>th</sup> of Nov<sup>r</sup>.

If my Courtship has been rather secret, as you observe, I hope from an Acquaintance with Miss Moore, you will not think I have been regardless of an Alliance that may afford the Friends Pleasure, I am sure it will tend to confirm me in the Goodness of my Choice, when I find it approbated by a Sister & Brother whose Esteem I value & whose Affection I sincerely wish the Young Lady to possess. I thank You for the Part you took in our good Fathers Absence.

General Howe came out & took Post on a Range of Hills about two Miles from us last Fryday with an evident Intention of attacking us or bringing us to an Action, we wished and expected the former, but his Conduct has convinced us he judged our Ground too strong and that he meant to draw us out of our Lines. our Light Troops

under Colonel Morgan and our Picquets had several Skirmishes with their advanced Parties but to no great Effect. about the Middle of last Night the Enemy hastily decamped and returned to Philadelphia. Our Numbers were not sufficient to hazard an Attack in their Situation, I suppose they had 10,000 Rank and File, the Country may think strange that we wanted a Sufficiency of Men for this Exigence but so it was, half our Troops are in Hospitals & unfit for Duty & at best our whole Number is a Shame to this great Country, *however this is between You and I*, if we had had 5000 more men at this Time we might in all human Probability have prevented Mr Howes ever returning to the City.

WHITE MARSH 10<sup>th</sup> Dec<sup>r</sup> 1777.

*Dear Sir,*

I sealed a Letter to You yesterday inclosing one to Miss Moore, since I am favoured with yours of the 21<sup>st</sup> Nov<sup>r</sup>. In which I am unhappy to find the least Umbrage taken at my Conduct respecting my intended Connection with the above named Young Lady. so far as the most cordial Affection would carry me in discovering my Intentions in any Matter whatever, so far you might well expect to be in my Secrets, for there is no One of my Friends I think I could rely on with more Safety, but I had Reasons for keeping my Designs of this Sort to myself, which I could better lay open to you at an Interview than by Letter, One of which was, that as I had determined to continue in the Army as long as my Services were wanted, and did not think of marrying whilst the War continued, it didn't seem best to say any thing about my Friendship for Miss Moore untill some Event should alter Circumstances, that Event took Place upon Sir Henry Clinton's Expedition up the North River. by which the Young Lady was stripped of her Friends and it was rendered necessary in Point of Delicacy on her Part that I should avow my Intentions before she could put herself under the Particular Care of my Friends. I had indeed in the early Part of our Acquaintance, broached the Matter to Father and to Col Trumbull that he might in proper Time make it known to Governor Trumbulls Family as I thought it my Duty to do. no One else knew it from me untill I sent the publication to our

Father and then I meant and expected that every One would know it. in Fathers Absence Mama gave the Note to Joshua had it been to you 'twould have been the same.

I am much obliged to you for your Commendation of my Choice and for your Intentions of acting the friendly at present, and by & by the brotherly Part. I do not in the least doubt of experiencing much Affection exercised towards me & Miss Moore both from you and your dear Consort. you cannot conceive with what eagerness I should have hasted to a share of the Turkey and the dear Company could a few Steps or even a few Miles have brought it to pass.

Give my Love to Sister, I wish her good Mind to write me had extended itself to Practice, remember me to all Friends and believe me to be

*Honored Sir,*

I have to acknowledge your Favours of the 17<sup>th</sup> & 22<sup>d</sup> of Nov<sup>r</sup> and, If I have not done it before, yours of the 6<sup>th</sup> Nov<sup>r</sup>.

Please to acquaint my dear Friend Miss Moore that I have rec<sup>d</sup> her very acceptable Letters of the 21<sup>st</sup> & 28<sup>th</sup> of last Month and had devoted this Evening to answer them, but have been unexpectedly called out on Business and just returned, fear I shall not find Time to do that Justice to her Favours of this Kind which I ought and wish to do, If I possibly can, shall yet scribble a few Lines to her.

The army marches to Morrow Morning at four oClock across the Schuylkill for Winter Quarters of some Kind or other, I can hardly tell what and where.

Miss Moore speaks in the highest and most feeling Terms of the Kindness of my Parents and Connections, I cannot express the Satisfaction I feel in hearing that she and my Friends are so happy in each other and have no Doubts of its Continuance I hope it will please God in his Great Mercy to restore Peace to the Land e'er Long, that I may return to the Duties and Joys of Domestick Life. in the mean Time I commend myself my Nancy & all my dear friends to the Care of a kind Providence.

*My dear Sir,*

On the 12<sup>th</sup> we left White Marsh and crossed the Schuylkill by a Bridge made for the Occasion at Madson's Ford and were all Night about it. scorching One side at the Fire whilst the other was freezing in the Wind Rain & Mud, you know a little how good it is.

We are going to work with all our Might and Diligence to bury the Army in Huts at this Place. the General seems resolved to keep us together if possible. whether it is for the best or not, Time will discover. it is impossible to prevent the Enemy from pillaging the Country, if we are here, they will go some where else. the Army needs great Repairs I am sorry we have not better Quarters. our Men, our Horses and Carriages are almost worn out with the constant Marches and Fatigues of the Campaign, and there is scarcely a single Convenience about us but Wood and Water. Forage hardly to be got, and Refreshments impos-

sible. but the Army is well disposed and will try to make the best of it.

Miss Moore expresses so much Happiness among my kind Friends and they equally happy in her, will render my Stay here tollerable till a fairer Opening shall present itself for my Return to my much loved Friends in Connecticut.

Please to deliver the inclosed. give my sincere Love to sister and assure yourself I am, your affectionate

*Hon<sup>d</sup> Sir,*

We are set down for the Winter unless the Enemy are pleased to open New Scenes for us. this Place is on the South Side of Schuylkill about one Mile from it and 21 from Philad<sup>a</sup>.

We are watching a Country that has Little to reward us but I hope it is for the best that we are stationed here though I must say I do not see it.

There is a Necessity of the respective States doing something to facilitate the apprehending Deserters and those who outstay their Furloughs, when Officers are sent after them they have Address enough or Friends to keep them out of the Way of the Officers.

There have been Instances of Officers recruiting Deserters from the Enemy and giving Certificates of a Substitute inlisted for some two Militia Men, in this there is great Fraud to the Publick as these Deserters are not accepted by the General, I was lately ordered to discharge One of this Character who was inlisted I believe by Lieut: Fox at Dan-

bury and who I suppose has received a large Sum of Money as usual.

Mr Ellis has rode Home my Mare that I had of Brother Joshua, as she appears to be far advanced with Foal. If you can send me a Horse in Exchange I shall be obliged as it takes a Little Estate to buy a good Horse here. I shall be glad to have a decent looking Horse and if possible, One that will keep himself in Case with poor keeping. I want a strong common snaffle Bridle with black Reins if may be, white will answer, that is, the common Colour of the Leather. this Bridle and the blue Waistcoat I sent for some time ago if Mr Ellis can bring them I shall be glad to have by him.

I am very anxious to know the Intentions & Plans of Congress respecting another Campaign. I hope Measures will be entered into to convince the Enemy we are in Earnest, their burning the Country as they have done is an Evidence they despair not only of conquering but of holding it in Subjection, save by the Sword.

a large Number of Blankets we are told are arrived at the Southward, Congress have made another fair Promise as to Clothing. but it is as yet upon Paper only. I wish the Army could see Something real. the Connecticut Troops are the best clothed of any, but they are more indebted to their State than the Continent. the State will have a Right to charge the Continent for the Blankets they have furnished their Soldiers as the Continent mean to allow every Soldier a Blanket or its Equivalent in Money I think they are estimated at Six Dollars, many however of the Blankets which were provided by the Towns were very poor.

I am favoured with yours of the 1<sup>st</sup> Decr some more Clothing is arrived from Connecticut near Camp and Mr Flint writes me from Danbury that more is on the Way.

Every Letter from my Friends assures me of the Love and Complacency subsisting between them and Miss Moore I shall be less uneasy with my Absence and I think my Friends will too, when I have sent them so worthy a Representative.

Every Mark of Love and Affection are due to Mama  
&C &C from

I wrote you the 10<sup>th</sup> since am without any of your Favours. I wish I could tell you I was coming to see you, instead of that I am going to build me a House in the Woods, what do you think of the Armys making two thousand Log Houses in all the Regularity of an Encampment.

How do the Comisaries go on in putting up salted Provisions. we have lived upon lean Beef till we are tired of the Sight of it. and should You think it, we live from Hand to Mouth for Flour even in this fine Wheat Country. We lay the Fault at the Door of our Providers.

Necessity, the Proverb says, is the Mother of Invention, Salt costs the Inhabitants here 10/ a Quart and hardly got at any Rate. they have a Process of mixing it with Lye made of Walnut Ashes which after boiling affords a pure Pickle free of any disagreeable Taste by which they save & keep in good Order a thousand Weight of Meat with only half a Bushell of Salt.

Lord Cornwallis has been out on this Side with a plundering Party. & I see not what will hinder the Enemy visiting Connecticut whenever the Magazines shall become an inviting Object.

As the Opportunity is so good by Lieut Avery I can't help embracing it, 'thou' I scarcely find Time by Reason of One Business and another to write just now. hope to have more Leisure in a few Days when I shall put Miss Moore in Mind of me by a Letter.

Please to give my Love to her and to Mama & C & C.

the Men from Connecticut engaged for Eight Months set out this Day in a Body under the Conduct of some Officers for Home. their Arms are to be lodged at Fish Kills. their Blankets should be returned to the state or the Value of them taken out of the Bounty that is due to them from the State.

Perhaps a good Opportunity will present of sending me a Horse before Mr Ellis returns and perhaps he will choose to ride a Horse of his own, in that Case he can't bring mine.

Congress have appointed General Conway (who resigned the other Day in a Pet) Major General & Inspector General of the Army, this Appointment gives universal Umbrage to the General Officers of the Army as much to those who are still above him as to those under him. he was a Major only in the Irish Brigade in France with the Rank of Colonel. has had great Experience or rather has been long in Service. his Genius is not more than middling. his Intrigue is Infinite and his Ambition unbounded, I don't think any thing will satisfy him short of the chief Command. his Appointment is an Insult to the Understanding and Sensibility of the general Officers of the Army. the Promotion of Adj: Gen<sup>l</sup> Wilkinson gives great Disgust, there are no less than thirty Colonels who have signed their Resignations in Consequence of it. Congress could not have fallen upon any Measures so dangerous to the Army and more pleasing to the Enemy who well know how much Delicacy All Armies have in this Point. & I can't help believing the honest and well meaning Part of

Congress have been imposed upon and duped by a Cabal which I am confident is in and about them. why may we not suspect as much when we know that Galloway, Allen & C are gone to the Enemy. a Regard to the good of our Country and a Love to our dear and good General (who some wish to have out of the Way) prevents our resenting the Indignity in the most resentfull Manner, we might with great Propriety tell Congress that we consider the late Promotions as an ingenious Intimation that they wish we would Leave the Service. but lest the Cause should suffer by such a Step we shall perhaps do no more than remonstrate.

I hope Colonel Trumbull will accept his Appointment at the Board of War. please to give my Love to him and tell him he must accept for a thousand Reasons which I could tell him of.

the General seems determined to keep us all about him the Winter so that I despair of seeing Norwich which adds much to the Disagreeable things here. but I will try to do the best I can. and hope for better Times. *Dear Sir,*

I have none of your Favours since that of the 1<sup>st</sup> of last Month.

I shall have some Interest due at the Loan Office this Winter payable in Bills agreeable to Resolve of Congress. I suppose it will be best to dispose of y<sup>e</sup> Bills for Money as I imagine they will sell to those who are trading to France with great Discount in favour of the holder. I wish to know whether you can receive the Interest for me without a particular Power for the Purpose. I have forgot the Tenor of the Certificates.

The Troops who have not had the Small Pox are to receive the Infection in Camp in a few Days. should any Men be coming this Way, on Business to be done in Camp, it will be necessary they should be those who have had that Distemper.

If Eliphalet has made any considerable Collections of Money for me, I dont know what to do better with it than to put it into the Loan Office. I mention this as I see not that I am like to visit Home very soon. a constant Attention being required to one Business and Duty and another makes the Time pass off less heavily. notwithstanding, it is rather irksome to be kept so long from ones Friends. as long as Duty confines me here I will endeavour to content myself

The Life I have led for three or four months past has been as different from the Manner In which I have been used to live as can be imagined & no Consideration but a Sense of Duty could possibly induce me to continue in the Army. I flatter myself that Hostilities will not last a great

while longer. If I am to go through another Campaign I believe I must see Connecticut & take Miss Moore out of your kind Hands and place her in some safe Situation where I can at least once in a While visit her. I shall not mention the Matter to her till I see what a few Months will bring about in the Circumstances of our publick Affairs.

his Excellency thinks it will not do for any of us to leave him, indeed he is spare of it for General Officers. by Reason of Suspensions, being Prisoners, Illness and one thing or other there are only nine Brigadiers & five Maj. Generals for Duty in the Line, and two of them are Frenchmen. when there are not less than fifty or Sixty on the List.

a small Vessel from N York to Philadelphia run aground in the River & fell into the Hands of some Militia tis said she has dry Goods on board.

I should be glad to see the Nomination for Octo<sup>r</sup> last A Com<sup>i</sup>tee of Congress and the Board of War are hourly expected in Camp, I am anxious to know whether Colonel Trumbull takes his Seat at the Board of War. I do sincerely hope he will. I think he will be above entering into Parties and Cabals

January 18<sup>th</sup> last Evening Roger Manning gave me Your Letter of the 31<sup>st</sup> Dec<sup>r</sup>

I observe, in the Articles of Confederation, that all Appointments of Officers of, & under Colonels, for the publick Service are to be by the respective States. how soon it may take place, I don't know, but I thought it well to mention to you the Method observed in the Army as to Promotion which gives universal satisfaction in a Point that has caused as great Uneasiness heretofore, and has been the Means of our loosing many valuable Men who have been superseded for Want of Attention to this Rule.

Field Officers are to rise in a progresive Line among all the Regiments of the State those under Field Officers are to rise in a progressive Line within their own Regiment, Want of Ability and extraordinary Merit are Exceptions to the Rule.

for Example, in the State of Connecticut if Col: Charles Webb who is the first Col. should die, the oldest Lt Col is to be appointed to his Place, let him belong to what Regiment he may. if a Major should be wanting in one Regiment, the oldest Captain in any of them is to succeed. where a Captaincy is vacant the Oldest Lieut. in that Regiment succeeds.

this comes by Ensign Peck who makes a very good Officer and is well esteemed in Camp.

I have had some thoughts of visiting Congress but they are laid aside. 19<sup>th</sup> Opportunity offering by Mr Fitch I send this. shall write my other Friends at Norwich by Ensign Peck who goes in two or three Days. I am your affectionate son

I wrote You yesterday by Mr Fanning. since which the Officers of Col Prentices Regt have been with me to desire my Influence in the Appointment of a Commanding Officer. they were afraid that Colonel Prentice would make Interest to get himself appointed by the Governor & Council. I told them it was not to be supposed the Governor & Council would fill up Vacancies at the very Time when General Washington was doing the same, as it must create Confusion. besides it was in Contemplation to reduce the Number of Regiments, in which Case there might not be Occasion for any more Officers. the Officers of that Regt understand they have not an Allotment of Clothing in Proportion to their Numbers on account of the Surplus of Prize Clothing remaining of what they had last Year. the Officers themselves are as needy as those of any other Regiment, and it is to be wished they might receive an equal Share of the new Clothing for the Soldiers for the Sake of Uniformity. it was the Generals Wish that all the Troops might be dressed alike and a snug Uniform has been recommended accordingly. Colonel Swift has a Lieut gone Home to superintend the making up his Clothing who knows what the Patterns are. the clothing left in your Store ought to be coloured some other Colour as many In-

conveniences arise from our Troops being clad in the usual Habits of our Enemies.

I will be glad to have you procure One hundred Bayonet Cases and Belts to buckle round the Waste in the cheapest Terms for Money. least Hides can not be had. please to omit sending the Coats which I desired for Prentices Regiment. thank you for cumforting Sister Nancy. I should in good Conscience come Home. but am very anxious to see the Accomplishment of many matters of Consequence which are upon the Carpet, which I hope will not take up many weeks more.

the Camp affords you no News at present, we have Reports of Diserters one Day that the foreign Troops are embarking, another Day that Howe is shiping off the new Levies to the West Indies, but we give not much Credit to what they say. however I think it likely they will show their green Coats some foul Play or other. not much Matter what goes with them.

It is proposed to model our Army much like the British. it will, we think, be better & cheaper. the Regts are to consist of nine Companies one of them to be light Infantry and always kept full by Drafts from the others Each Company to have only one Lieut. the Field Officers to command Companies. so that we shall have a much less Number of Officers. the Staff are to be taken from the Line. the Light Troops are to form a separte Corps in the Field and commanded by select Officers. Pay Masters are to be from the Line of Captains and therefore our friend Rufus Abell must leave the service unless he can be provided for some other Way. for which I am very sorry, as he has given very good Satisfaction.

Adjutants & Qr Masters are to be from the subaltern Line. there is to be only one Chaplain to a Brigade. perhaps I may be able to inform You more in my next. my Love to sister. why dont you send a Letter from Nancy to your affect: Bro<sup>r</sup>

I acknowledge yours 29 Mr Ellis. I knew Mr Peck did not carry the Bayonet but I thought that sergeant Burnham

did. If you cant find one of the french Guns Bayt for a Pattern handily, let the Matter rest I will try to get them elsewhere.

A new Comisary General will be appointed. I believe Jeri Wadsworth may have it if he will. he wont take it, I know, upon the present Plan, but I think Congress will be willing to alter it. Our worthy General wrote Congress largely on the subject imediately upon the Alteration that was made in the Department and exactly foretold them all the ill and dangerous Consequences that would follow but they did not or would not believe him. they are heartily sick of, and I think sorry for, the Measure. there has been some little skirmishes between our and the Enemys foraging Parties in the Jersies but nothing of Importance has come of them, we have done what we could in destroying the Forage and bringing of the Cattle contiguous to the Enemy. my Love to Sister & C & C

*Hon<sup>d</sup> Sir,*

This comes by General Sullivan who is going to take Command at Providence. he is a very valuable Officer notwithstanding some have attempted to injure his Character.

General Greene is appointed Quarter Master General. who will, I am confident, soon put that Department in a respectable Condition.

Capt Barry with some continental Soldiers in armed Boats in the Delaware has taken an armed Vessell of the Enemies and two Transports from Rhode Island loaded chiefly with Hay. the two latter he burn't the other he was

obliged to abandon after taking out her Guns and other valuable Articles as he was hard push'd by several Frigates and other Vessels of force.

The Conference on the Subject of a general Exchange of Prisoners is postponed to the last of this Month for urgent Reasons.

Among the Letters on Board Capt Barry's Prizes is one, mentioning the Embarkation of three hundred foreign Troops the 19<sup>th</sup> Dec<sup>r</sup> bound for N York. when they come, it is probable we shall have it announced in their Papers that as many thousand have arrived. several of these Letters which are from the Hessian Officers in N York to their Friends in Philadelphia mention it as the Opinion of many, and their own hearty wish, that a Peace would soon take Place.

I hope every Nerve will be exerted to render our Army formidable. we could not hardly wish Gen<sup>l</sup> Howe in a more convenient Situation to attack than he is now in, had we but our Compliment of Troops, if every State had done like Connecticut, he would in all probability shared the Fate of Gen<sup>l</sup> Burgoine long before this.

I most ardently hope for a speedy End to the War. and I think it seems to be the Wish of almost every one. our Army in Point of Dicipline has never been so respectable as at present. it is a humiliating Consideration to think we can't oblige the Enemy to quit the Country.

We are still at Valley forge. expecting to march every Hour. last Accounts say the British Army were allmost

all out of the City on the Jersey Side. every thing on Board Ship & most of them down the River. some think they will go to N York by Amboy. others guess they will march down & embark at Salem. I am of the latter Opinion we see now the Want of an Army equal to theirs on both Sides of the River. Congress have not given an Answer to the Dispatches from the Commissioners. I make no Doubt they (the Congress) will stand to their Text if they make any Answer.

If the British Army had good Opportunity they would soon desert to us in great Numbers. no less than 96 came out in the Month of May. they are no Advantage to us otherwise than weak'ning the Enemy. a very intelligent Surgeon by Accident fell into our Hands the other day. he says the Regiments of Dragoons & the Drafts from the Guards are absolutely ordered Home. all Obstacles to a general Exchange are at length removed.

For my Part I see no great Probability of a Negotiation between Congress & the Commissioners. their abominable Pride will carry them to demand greater Terms than we can allow and to insist on them till we shall deny the less. they never could bear to think us upon any Equality with them, they know they cant subdue us. they can't love us, it is not in their Nature. they will, I fancy, after a few frivolous hopeless Attempts towards a Reconciliation leave us to ourselves. dont however let us relax a single Nerve. all we wish is ours if we are not wanting to ourselves.

It begins to be credited that Admiral Byron has arrived at N York with one Ship only. if this is true it is likely he is to succeed Lord Howe & that the English fleet is not to be reinforced. Deserters are coming out daily. a few Days ago a Corporal & Six, all british, came out together.

I wrote Father & Nancy this Morning <sup>to</sup> Lieut: Hale of Chatham who had Business at Lebanon & promised to deliver the Letters next Monday. I did not then know of Mr Pecks going Home. Our Ears are open to hear glad Tidings from New Port. perhaps after all fair Appearances we are to be disappointed as has frequently been the Case in this War. we might be too confident that Success was in our own Power, if so, a Season of Anxiety & Tryal of our Faith & a better Confidence may be necessary to prepare us for the wished-for Event. the Fall of New Port will, in all human Probability, terminate the War, indeed I should not be surprised to hear by the next Ship from England that Parliament has acknowledged us independant States & given Orders to withdraw their Forces, whether France will let them go peacably or not is another Thing. 'though I am of Opinion that France will be content for the present if she can see Great Britain fairly & absolutely seperated from her Colonies which made her so powerful a Rival and whose Trade gave her that Superiority by Sea which has so often humbled her Neighbours.

Admiral Kepple has had an Action in the English Channel & taken two french frigates and drove another into some Port in France. As there was no Declaration of War the 8<sup>th</sup> July it must be concluded that England will if possible avoid one with France. *Hon<sup>d</sup> Sir,*

When I arrived here I found the Division under the Command of General McDougall (consisting of Nixons, Parsons and my Brigades) in expectation of Orders to march farther East or to return towards the North River. There is Talk of our going divers ways. some say to Danbury. others to the Northward but by the Matter's remaining in suspense at this late Day in the Season, I imagine the General still entertains an Idea of N York's being evacuated. I am in hourly Expectation of being determined in this Point about which I am not a little anxious. as I had set my Affections upon Home for this Winter or at least a considerable Part of it. I can't yet learn whether General Parsons Resignation is accepted. he has not yet joined his Brigade since [ ] at Hartford, I sometimes think I have done my Share in this Way & that I had better give Place to others. I am willing to serve my Country as far as is reasonable & I am able. though I at present enjoy a good state of Health I may expect hereafter to feel the Effects of the Hardships I have endured in the service. I flatter myself however the worst is over.

I directed Eliph H to order Bristol, as he had Leisure from House Employments, to cut down the largest of my Walnuts in the second Pasture by Hughes. that if he should get out of Wood, he might get the favour of your Teems to bring a few Loads from thence. as to the Bills of Exchange

you got for me at the Treasury I don't know what is best to do with them. whatever you think best to do with yours I wish you woud do with mine. I woud fain make the most of them. as I find it will be difficult for me to live decently & in Character here and at Home with all my Income, They have asked me here 8/  $\text{p}$  1b for Butter. and I have been obliged to give it for some, 'though the general Price is a Dollar. some ask here 40 dollars  $\text{p}$  1b for syder, the Army grows very uneasy. & I am not without my Apprehensions of bad Consequences if a kind Providence does not open some Door of Relief which the Wisdom of our best Men do not seem able to give.

I received your Favour  $\text{p}$  Mr Abell but I have no News to give You in Return that is so good as I could wish. 'though all accounts from N York flatter us with the Hope that the Enemy intend to evacuate the City. yet we are chagrined that they delay so long, as the Salvation of the Country seems to depend under Providence upon the Enemys relinquishing their Object & quitting the Country.

Nixons Brigade which did belong to this Division marched Yesterday for the Continental Village. this day Parsons Brigade march'd for Head Quarters to remain there a few days only then to return here again. Gen Parsons has not yet joind them. General McDougall returnd Yesterday from Hartford & is gone to day to Head Quarters I think it probable he will take Command at West Point.

*Dear Sir,*

We are made unhappy this day with the News that General Greene, Doctor Cochran & Col: Biddle were made Prisoners at Kakeat (about 7 Miles from Kings ferry on the Road to Morris Town) by a Party of the Enemy who went up the River in some Row Gallies. and carried to N York. *doubtful*

It is computed by some that there are about four Thousand Troops on Long Island & three thousand on York besides three thousand on board a fleet now lying at the Hook commanded by B Gen<sup>l</sup> Campbell where bound not known, tis said that some Merchants have packed up their Goods & some, who are thought as wise in Politics, have not. that four of Admiral Byrons fleet are missing & one very much damaged in a storm sent under Jury Masts to England. that the Commissioners were to sail the 23<sup>d</sup> Nov in the Lizard & Roebuck. that five of the Cork & Seven of the Quebec fleet were captured by Count d'Estaing. that his Packet & Dispatches had been taken but wrote in such Cyphers that they could not understand them.

7<sup>th</sup> the News of the taking General Greene & C is reduced to that of the Loss of one of our Deputy Muster Masters. but I am not certain which of them.

HIGH LANDS 2<sup>d</sup> June 1779.

Yesterday the Little Fort at Kings Ferry surrendered to Gen<sup>l</sup> Clinton & Sir George Collier. the Garrison consisted of about 50 Men. by Report of Prisoners who have fallen into the Hands of the Militia, the Enemy have from nine to 12 Thousand Men. their Object is the Fort at West Point. they have advanced as Yet no farther than a little below Peeks Kill, this Morning almost all their shipping disappeared.

4<sup>th</sup> Yesterday we expected a serious Meeting with the Enemy at 11 oClock about 4000 commanded by Sir Henry Clinton were in full March towards our Post wh<sup>h</sup> we have taken here in Order to dispute their Passage to Fish Kill or to attack them in Case they should lodge themselves, as we supposed they intended, in the Vicinity of West Point. but after advancing to the Edge of the Continental Village, they tackd about and returned to Peeks Kill and Kings ferry.

We now hear they are fortifying at the latter Place. I can hardly think they have any thoughts of holding a Post there. their Movements have been inexplicable. had they in the first Instance pushed for the forts they might possibly have carried them. but now they have given us all the Time we wanted to make the necessary Preperations. the Militia of this state have done themselves great Honour on the Occasion we have now here a large Body of them subsisting themselves (they being desired to bring Six days Provision) they are very spirited and never turned out so generally before. *Hon<sup>d</sup> Sir,*

Yesterday one of our Guard Boats in the River discovered two British Officers on the shore below, who immediately took to a Canoe, but were too late to escape, the Boat fired on them & drop'd them both in the River, it is probable they were Engineers reconnoitring the Ground.

The General had Advice of two Embarkations a few days since, one in the East River of ab<sup>t</sup> 40 sail which steer'd Eastward without many Troops, the other in the North River its Destination uncertain. if the latter is for the southward it is not unlikely the other may be gone to bring some Troops from New Port to N York

27<sup>th</sup> We hear the last mention'd fleet is gone into the East End of Long Island.

General Lord Cornwallis is said to be arrived in New York, but we don't learn there are any Reinforcements come with him.

a ship in at Virginia from France brings an Account that she left 5 or 6 Capital french ships of War, several Frigates & about 70 armed Vessels from 10 Guns & upwards bound to Martinico, that the Men of War as soon as they had seen their Convoy safe into the West Indies were to come to this Coast. A Merchantman from Ireland has just arrived in Virginia with a Cargo.

In the new Choice of Delegates in Virginia the Lees are neglected. & 'tis said Congress have recalled the two Lees from their Embassy. there is a repeated Account of the french taking the Island of St Vincent's, but not much credited.

28<sup>th</sup> this day Mr Ellis arrived with your Letter of the 21<sup>st</sup>. I wrote You a few days since by Lieut Mills. by Accounts from Charlestown we hope General Lincoln has no great to fear from the Enemy unless they get reinforced. in that Case he might be obliged to fly & Charlestown fall, which would prove a dreadful Blow to our Cause.

It is rumoured that the Enemy have left Georgia & Carolina, but it is Rumor only. the main Body of Clintons Army or a considerable Part of y<sup>m</sup> are on Staten Island, this looks as if they feared something by Water.

*Hon<sup>d</sup> Sir,*

I have your favour <sup>of</sup> Lieut Mills, The stream of Intelligence from the West Indies is much on our side. Count d'Estaing's Loss of Men in his Engagement was indeed great, upwards of nine hundred killed and wounded, but it is to be considered the french Ships are very full of Men. Byron's Loss of Men is not known, it may be as great as the Count's. Eight of the ships of the English fleet were so disabled in the Action that they could not fetch S<sup>t</sup> Kitts and as they fell to Leward it is probable they will be obliged to go to Jamaica before they can make a Port, in that Case the Remainder will be an easy Prey to the Count or should they run away from him, their wind ward Islands will become exposed.

Clintons Army are fortifying on York Island and, 'tis said, as soon as their Works about Laurel Hill are completed, those on this side are to be demolished.

We are exceeding anxious to hear the Fate of the Penobscot Expedition. the one under General Sullivan does not look very encouraging. there are no late Accounts from South Carolina. Our army here are very healthy for the season. we have Work laid out here that will hold us a Month longer. the Posts at Kings Ferry are made as strong as possible and garrisoned by about two thousand Men. they cover the greatest Part of the Counties of West Chester on the East side of the River and Bergen on the west side by which Means the Inhabitants have safe Ingress and Egress to & from the Market of the City which is an immense Advantage to the City and the Army, and at the same time we are put to the extraordinary Delay and Expence of transporting almost every thing from twenty to forty Miles further than if we had Command of Kings Ferry.

24. His Excellency had Letters from General Sullivan Yesterday. he has penetrated the Western Country Ninety Miles beyond Wyoming and burnt one of the principal Towns of the Seneca Tribe of Indians without any considerable Loss or Opposition.

A Packet bound to N York is taken & tis said her Despatches are in the Hands of Congress but I much doubt whether they be the genuine ones.

A Vessel in a short Passage from 'Statia says that War was declared between Spain & England at Porto Rico the 14<sup>th</sup> of last Month.

We don't learn that any Reinforcements are arrived at New York. the Penobscot Expedition give us great Anxiety.

I am told that Loan Office Certificates dated since March 1<sup>st</sup> 1778 are by Resolve of Congress to draw Interest more than Six per Cent in Proportion as the Quantity of circulating Money at the Time of the Payment of Interest is greater than it was at the Time the Certificate was given.

I have been thinking whether Brother Joshua if he has not put my Money due from him into the Loan Office can not obtain Certificates from the Navy Board dated back to the Time the Money was received of me or to some Time back, which may give me some Advantage should the Quantity in circulation increase which I hope however will not be the Case.

has any Attempts been made to get back the Post through Norwich. Mr Hazzard the Surveyor General of the Post Roads is now at the Eastward & the present may be a convenient Opportunity to make Application for his Opinion on the Matter & Interest in effecting the Alteration. I should think many Gentlemen of Note in Boston & Providence would certify as to the Advantage which the Public and Individuals would derive therefrom. if Gen<sup>l</sup> Gates was touch'd upon the Subject by a proper Person he might be a powerful Advocate at Congress. the military & mercantile Concerns & Intercourse will in the View of every One be more benefited and expedited by the Posts riding through Norwich than by the old way.

If I should bring my Waggon Horses to Norwich could you get them kept well. last Winter they fared but poorly. they are now in fine Order & I should like to keep them so.

'Tis reported, but not reduced to a Certainty, that the Troops from Newport are gone from N. York and some others with them. a Paquet has lately arrived there from England, but Nothing transpires from it.

The Season is so far advanced there is but little Reason to expect the french fleet here, to operate against New York. it is to be supposed that General Prevost has found Means to lengthen out the seige of Savannah beyond the Counts Expectations. if the allied Army succeeds there, it will be doing pretty well for one Campaign. and next spring may bring on a like Fate to N York unless the british Gentry there think proper to withdraw themselves. that Nation must regain their superiority by Sea or they are inevitably undone. or will be obliged to make Peace.

There is a Report in Rivington's New York Gazzette of an Action in the West Indies between two fleets not far from Barbadoes the 22<sup>d</sup> of September. but it wants Credit. the Writer supposes it to be between the English fleet and a Reinforcement coming to Count d'Estaing. Brother Jed<sup>h</sup> I wrote to last. You will see by the date that my Quarters are still in my Marque when, had I horses & Sleigh I might indulge in all the Pleasures, that good riding could afford. the Snow is very deep & the Coldest weather I ever experienced for three Weeks together. Men almost naked & what is still worse almost Starved. for Eight days Past the Army have not received as much as three days full Allowance. and in a part of the World Called a Land of Plenty. Money is good for nothing. Corn is 45 dollars p Bushel. Oats 30, Hay 300 Dollars P Ton, & every thing else as high, & higher. I could never have believ<sup>d</sup> that the Money would have been so low & passed as a Currency. only my Washing Bill is beyond the Limits of my Wages. I am now Endeavouring to hire some Woman to live in Camp, to do the Washing for myself & some of the Officers th'o I am aware that many Persons will tell the Story to my disadvantage but be that as it may, I am determin<sup>d</sup> on it, if I can hire one on better terms than hiring my Washing. If the depreciation was Caused by the Rascallity of an Individual instead of many Rascalls, I should think any thing short of Eternal Damnation would be a light Punishment for the Crime. Did the Present Situation of Affairs Admit of my Resigning, I would do it, nor a Moment longer wear a Constitution, already too much worn for an Ungrateful Country, who by their Conduct deserve to be Slaves to British Masters. Hardships, every one on Entering the Army, expects to Endure, but to Sacrifice the Army to Aggrandize a few D—d dirty Rascals, is below the Character of those who Pretend that they hath the Blood of a Freeman flowing in their Veins. Let that Virtue, that Love for the Country which fill<sup>d</sup> the breast of us all in 75 be roused, if a Spark still remains & push you on to Crush your *Common foe the Speculators* It is their Success in their Masters Name (the Devils) upon which the Enemy build their hopes, & well they may from the too fatal Success, they have have already had, a more Infernal Set of Villains never infested a Country. If the Laws of the Country will not admit of their distruction,

point them out the Originals, & I will Imbrue my hands in their blood.

JEDEDIAH HUNTINGTON TO ANDREW HUNTINGTON. (?)

SPRINGFIELD April 19 1780

*Dear Sir,*

I was in hopes before this Time to have had some good News to tell you. by the N York Accounts our friends the Spaniards have met with two severe blows in the Loss of a valuable fleet of Merchantmen off Cape Finisterre and the Defeat of their fleet of Men of war near Cadiz. with the Loss of several Capital ships. however, when we are favoured with their Story, perhaps we shall find the Matter more favorable.

The Enemy have detached about 2000 from N Y to reinforce Gen<sup>l</sup> Clinton. he carried with him 6000 and there were about 2000 at Georgia before. makes in all 10,000. there remains at N York 8, or 9000

The Maryland Line are gone to the southward. this Army will probably take Post at the North River as soon as the season will admit of our going into Tents.

We are told the fleet arrived at Martinico are chiefly 64's, which are suitable for our Coast. whether they have thoughts of coming this way, I cannot say. they will be very welcome and necessary.

20<sup>th</sup> The N York Papers are very whist on Irish Affairs upon which I conclude the Publishers don't like the Situation of things in Ireland. it seems by the English Debates that Parliament adjourned the 23<sup>d</sup> of December to the 24 January without doing any Business. I am in Hopes the Irish Demands will yet embarrass Ministry. & operate in our Favor.

By a Letter from Bilboa of the 1<sup>st</sup> of Febr<sup>y</sup> the Spanish Loss in the Action of the 10<sup>th</sup> of Jan<sup>y</sup> between Don Langasa & Admiral Rodney was only one ship blown up & three missing. not a Word of the fleet of Merchantmen taken off Cape Finisterre.

22<sup>d</sup> By our last Accounts from the West Indies the Matter stood 25 English ships of the Line & 27 french and 5 or 6 Spanish. if the latter woud join the french they would make a considerable superiority.

the latest Advices from South Carolina are the 14 March, then our Frigates had thought it best to relinquish the Defence of the Passage at the Bar and form a Line more within. whether for the best, I am not satisfied. Time may discover My Love to sister & C conclude me, your affectionate Brother

The Town of Charlestown was in our Hands the 1<sup>st</sup> of May. it is expected that if Clinton does not carry the Place by the Middle of this Month he will raise the seige. from the Prospect of a french fleet on the Coast.

If they fail of geting Charlestown I think the Ministry will contend no longer with us, provided they do not gain some great Advantages of France & Spain.

*Dear Sir,*

Your Favor by Lieut Goodell did not reach me till two or three days ago. I am very unhappy that our Measures are not in greater Forwardness. where the Blame lies I don't pretend to say. but the Country are triffling with their Army or Rather with their own salvation. Six Months ago our assembly resolved to add 1500 Men to their Army & yet to this day we have received only 500, many of them striplings, most of them raw & undisciplined. by coming into Camp at this season a great Proportion will be sickly those who escape Sickness will hardly have time to learn any Soldiership before their terms of service will expire. that our Cause is righteous & that we shall finally succeed I have not a Doubt. but I fear the Period of our Deliverance is at a great Distance. whilst we neglect the proper Means we have no Right to expect the Favor of Heaven. the Country, I dare say, think that we can with a few thousand raw Troops in Addition to a very few old Ones make ourselves Masters of New York with Ease. the City is a strong Garrison well supplied with veteran Troops & every necessary to hold out a long Siege. however, I hope for the best. every Effort, that can rationally be expected from the Army, I believe, will be performed by it.

20<sup>th</sup> We have Reports of another Action between the fleets in the West Indies. and we have also an Account of Graves Arrival at the Hook with Six ships of the Line. we have not yet received Six hundred Recruits.

*Dear Sir,*

It is some time since I wrote you, I have not had so much Time to spare & therefore could not write all my Friends so often as I could have wished. the great Number of Recruits added to the usual Business of the Camp has made full Employment for me & all the Officers especially for me, as General Parsons has been absent the whole of the Campaign.

The Army has changed its Ground very often for the Convenience of foraging. for several days we lay within a few Hours March of New York, but the Enemy did not think worth while to come out to us.

General Gates & Lord Cornwallis have had a very severe Recontre near Cambden in South Carolina they met each other entirely unexpectedly. the former was on the Move to take a stronger piece of Ground for an Encampment the Other was marching with an Intention of surprising him at his old Encampment. the Conflict was very obstinate & bloody. our Militia from Virginia gave Way & fled at the first fire. a Body of Militia from North Carolina & a small

Body of regular Troops from Virginia stood by the Maryland Line received the Enemys Horse at the Point of the Bayonet & the whole made good their Retreat. the Loss is great on both sides but the Particulars are not ascertained. Lord Cornwallis retreated back to Cambden from whence he began his March. immediately on this Action A large Body of North Carolina Militia assembled voluntarily & repaired to Gates Army & several Parties of regular Troops raised in Virginia for two Years have also marched to the southward. two thousand Men recruiting (& mostly raised I believe) in Maryland are all ordered the same way. so that our southern Army will soon again become formidable. the Enemy have no great Reason to rejoice at the Conflict with our Troops. their Loss by best Accounts (which come from the Governor of Virginia) is five hundred killed, their Horse being almost intirely cut off. Baron de Kalb a continental M General & Genl Rutherford of the Militia are made Prisoners. the former is said to be badly wounded

I sincerely condole with you & Mama on the Loss of your beloved Brother Williams. pray it may be sanctified to You for the best of Purposes, that of bringing Your Hearts one Step nearer to the allwise Sovereign who has seen fit to afflict you both & especially my tender hearted Mama. the Author of this heavy Stroke is as gracious as he is powerful, & I most devoutly pray he may appear so to you in the happyfying Fruits which you shall reap from this Season of Sorrow.

The Enemy at N York have received a Part of the Garrison of Pensacola and are in daily Expectation of the Arrival of part of the Army of Lord Cornwallis so that I am afraid they will keep Pace with us in Reinforcements at this Quarter. however they must nearly or quite relinquish Virginia. & then the Marquis will be able to send some Troops to General Greene & perhaps enable him to return to the Seige of Ninety Six which is now the only interior Post the Enemy hold in the Carolinas or Georgia. Should Nothing more be effected this Year, the Campaign

We are impatiently wating to hear from the Southward. G Washington embarqued about 2000 of his Troops at the Head of Elk the 8<sup>th</sup> of the Month. the Rest were to March further for want of Water Craft. he himself was going on with all possible Dispatch to Virginia. I trust by this Time his Operations there are become very serious. we have

every Reason to expect a happy Issue of them. the Superiority of the French fleet & of our combined forces is as great as could be wished.

We have not here any Account of the Junction of Admiral Barras's fleet with that of Comte de Grasse. the Want of it creates some Anxiety as the English fleet is at Sea & has been lately spoke near the Capes of Virginia. there is a Report that Barras has taken two 74<sup>s</sup> coming from England with Lord Dunmore on Board. but it does not gain Credit.

I wish you to give me as particular Account as you can of the Loss sustained at N London of Men, Houses, Vessels, Property &c. I have heard Something of the Barbarity of the Enemy and of the good Conduct of the Garrison & of the Militia. I long to know every Circumstance. I hope it will be in the Power & Will of the Country to make the Enemy feel the Force of a just Indignation.

21. I have your favour ~~of~~ Post. no Instance of Conduct in the Enemy since the War has raised so general a Resentment as that at N London. it is said that the Behaviour of Arnold is reprobrated in N York.

There is Mention of an Action near Chesopeake between the fleets of de Grasse & Graves. but the Accounts are imperfect. we conclude Nothing has happened in favour of the british or Rivington would have given the Particulars. he says that Barras had joined de Grasse which is an Event that we longed much to hear. what is the Price of good Hay. is it plenty. so that I could easily get two or three Tons. I have thoughts of bringing Home only two or Three Horses and keeping them myself. I cant find Money enough to pay Tracy for keeping my Horses last Winter. do you think he or any body else would keep my Waggon Horses next Winter & take good Notes for Payment. I have B. Lord's Note in my Mind. If I could dispose of his Note in that Way I should like to bring Home all my Horses. as they will be kept better there than here. If you should see Tracy or any body else you think likely to do it, I wish you would mention the Thing, & inform me,

22<sup>d</sup> A N York Paper of the 15<sup>th</sup> makes Mention of an Action at Sea between the Fleets of De Grasse & Greaves near Chesopeak and by Rivingtons Manner of telling the Story there is Reason to believe it did not turn out very favourable to Greaves

An Express arrived last Evening from Virginia which brings Intelligence as late as the 1<sup>st</sup> of the Month. General Washington had been delayed in opening his Batteries upon the Enemy for the Want of Cattle to draw his Cannon. they were just arriving. when G Washington moved to invest the Enemy closely, a Shew of Opposition was made about two Miles from the Town principally by their Cavalry. upon the Exchange of a few Shot the Enemy retired. & on the Morning of the 30<sup>th</sup> all their exterior Works were evacuated. our General is very near them on Ground which commands all their interior Works. they have been so sparing of their Fire 'tis hoped his Lordship has not a great Stock of Ammunition. some Accounts out of N York say he is destitute of Bread & that he has not Meat enough to serve him longer than this Month out. a Whaleboat has arrived from thence at N York which left Virginia the 8<sup>th</sup> of the Month. Reports from it say that at that Time an incessant Fire was kept up by G Washington on Lord Cornwallis Day & Night.

We hear from N York that two Ships of the Line, have arrived at that Place from Jamaica which makes their fleet 25 Ships in all good & bad. among which are the Prudente & Robuste which were condemned the other Day as unfit for Service. 'tis said too that 35 Victualers are arrived from Cork. what Sir Harry proposes to do on the present Occasion is Matter of Conjecture. by the last Information from the City the fleet had fell down to the Hook and were taking Troops on board.

The Enemy have been making Demonstrations at the Northward. General Heath has sent such a force from this as will, in Conjunction with the Troops at Albany and such Militia as may be handily collected, be able to repel whatever Number the Enemy can bring.

If you can get Capt Hutchins, or any Body who owes me who wou'd do me Justice, to keep my Colt which is now among the Traceys, I should be glad rather than to have them to pay.

The September Mail is arrived in N York. the Royal George, a first rate ship, as she was careening at Spithead, accidentally by a Gust of Wind, went to the Bottom with the Admiral (Kenpenfelt) on Board & about 800 souls, among which were 200 Women.

After almost five Weeks absence I was very glad to hear from Home, your Letter 'though dated a fortnight ago did not arrive here until this day. We are told the Kings Speech to his Parliament is come out of N York. that it is very explicit as to our Independence & a Peace. mentions that the Court of Versailles has acceded to all the Articles except one & it was believed that would be got over. 'tis said he recommends a Retrenchment in the civil List, and an Attention to their Timber as they had not America to go to for that Article. I am with Love to sister & C

I suppose you have seen the Kings Speech we are impatiently waiting to hear more of a Pacification. the Prospect of it has materially affected the Price of Goods in Philadelphia. Superfine Broad Cloths have fell five & Six Dollars  $\frac{3}{4}$  yard.

The Peace will undoubtedly bring about a great Revolution in Commerce; it will be difficult to know where & how to take Advantage of it. I wish it might be the good Fortune of our Family to come in for a Share in Proportion

I doubt not you have heard of some Commotions in the Army. the Matter will wear as great a Variety of Guises as there may be Persons to tell the Story. there has indeed been a very artful & alarming Attempt to excite the Resentment of the Army against the Country for not having made & not having a Disposition to make Provision for the Payment of our just Dues. the Design has failed & the Army have publickly shewn their Disapprobation of it. the Proceedings on the Occasion are very long or I would give you a Copy of y<sup>m</sup> I think they will be printed & that they will afford great Satisfaction to every Friend of the Army & Lover of his Country.

My Waggon arrived last Evening. Bro<sup>r</sup> Eben<sup>r</sup> is hourly expected I find some of the Goods damaged.

A Paquet is in at Philadelphia from L'Orient which she left the 17<sup>th</sup> January. the Articles of Peace between America & G Brittain were concluded. some Obstacles in the Way of the Settlement between France & G B were removed. & the Minister writes he has more Hopes than Fears as to the Event.

Sir Guy is in no Haste to get away. he wants to see what is like to become of the Loyalists who wish to stay in the Country. *Dear Sir,*

When I was at Home I did not think of a small Debt I owe Col. Rogers. I wish you would pay it. the Secretary at War tells us we shall be discharged by the first of October; if that should be the Case I shall probably be at Norwich before the End of the Month. a great Proportion of the Connecticut Officers here are trying to establish themselves in some way of Living in this State, so much affected are they with the unkind Disposition of many of their fellow Citizens in Connecticut. the Value of the Commutation, although it is to many of the Officers a very considerable thing, bears no Proportion to a Sense of the Ingratitude of the People. some of the leading Men in this State intend to profit by the Chagrin of our Officers, and lay before them Inducements to remain here by offering them Lands on very advantageous terms. If the Little Property I have in Norwich was in Cash I should fix myself here, as I could do it upon very good terms; but my Motives are less urgent than many others. because I must quit a large Circle of agreeable friends, and because I believe there is a more generous liberal Spirit prevailing in Norwich than in most other towns.

Capt Henry Champion of Colchester lately died in New York. our little Nancy has been ill of a fever for several Days. but I hope she will be better in a few days.

As to the Commutation, it will be impossible for the Officers to make any Compromise. Congress must find Means to discharge the debt. but if that was out of the Question I think, with you, that there are designing Men whose Views extend beyond Commutation. indeed some have been so much off their Guard as to say that now is the Time to expunge all publick debts. they are making a Dead Set at the upper House. if they can turn out the best Part of them, they say they can carry Points as they please. a kind Providence may overrule their evil Machinations for the firmer Establishment of our Government

JEDEDIAH HUNTINGTON TO THE GENERAL ASSEMBLY.

To the honourable General Assembly convened at New Haven Oct<sup>r</sup> 1789

The Subscriber most respectfully represents, that the Place he holds in the Customs will soon oblige him to forego the Honour of serving the State as Treasurer. it gives him great Pain to hear that any Gentleman has expressed the least Degree of Impatience because the Treasury has not been vacated. the Treasurer, conscious that his Accounts are faithfully kept, and that all the public Property, for which he is or may be answerable, will be fairly & honestly accounted for, could not consider the State exposed to any Injury by his Continuance in Office for a Short period. Upon his Appointment, not being able intirely to relinquish his private Concerns, he put the Transactions in the Treasury under such Arrangements & Checks as would secure himself & the State from Fraud & Imposition during his occasional absence, in which Respect the State of the Treasury continues the same.

The Assembly in their last Session were pleased to lay on the Treasurer a Task, not in its Nature incident to His Office, that of renewing the State Notes, Books were immediately prepared, and Notes signed, for the Execution of the whole Business, about half of which has been accomplished. to cause as little Delay as possible to those who presented their Notes for Renewal, other Branches of Business, which could be postponed with less Inconvenience, have given way to that. for which Reason the Accounts in general are not in that forwardness that they would otherwise have been in. the Treasurer is ambitious of exhibiting them in a point of Light that will save the Auditors any laborious Researches in the Examination. By the first of

March he will be able to complete his Books, state & arrange his Accounts & Vouchers for an Adjustment, and in the mean Time discharge the occurring Business of his Office. he therefore requests your Honours Permission to resign the Treasury at that Time, and that a Successor may be appointed then to enter on the Duties of his Office. or if it should not be agreeable to Your Honours to make an Appointment, the Treasurer will serve to the End of the Term for which he stands appointed.
